Bay City Couple Visit Relatives

Mr. and Mrs. Dow D. Stone of San Francisco are Medford visitors at the home of Mrs. Stone's parents, Mr. and Mrs. U. Lewis in Central Point, and of Mr. and Mrs. W. A. Buchanan on West 11th street.

Mr. Stone, well known former Medford resident, is sailing Sunday from Newport, Ore., on the U. S. Pacific on which ship he will be employed as a diesel engineer for the rest of the year. Mrs. Stone will reside here during her husband's absence.

Nile Daughters Meet Saturday

Daughters of the Nile, Zulema temple No. 13, will hold the first meeting of the season tomorrow in Grants Pass.

Luncheon will be served at 12:30 o'clock in the Redwoods hotel, after which reports of the supreme session held in June in Tacoma will be presented by the queen.

Cupps' Guests Return Home

Mr. and Mrs. D. D. Dooley and son of Los Angeles returned to their home Wednesday after having spent a week here vacationing.

While in Medford they were house guests of Mr. and Mrs. John Cupp at their home on Reddy avenue. They enjoyed short trips to the various places of interest in the valley.

Former Resident Visits Medford

Mr. and Mrs. Warren Renfrow of Huntington Park, Cal., arrived in Medford this week and will spend a fortnight visiting friends here.

Mrs. Renfrow is the former Ruby Stone of this city and is well known here. The couple will visit at Rogue River lodge during part of their stay.

College Women Meet Tomorrow

Rogue River College club will convene tomorrow afternoon at 2:30 o'clock at the home of Mrs. F. D. Wagner, 47 Granite street, in Ashland.

Mrs. L. E. Williams will review the book "Amana That Was and Amana That Is," by Mrs. Benjamin Shambaugh.

All members are asked to be present at this session.

Mrs. Hurd Back From California

Mrs. C. M. Hurd recently returned to Medford from a three weeks' sojourn spent in southern California. She spent most of the time visiting friends and relatives in LaJolla, Cal., where she formerly resided.

Mrs. Hurd, president of Pro-America, Republican women's organization, today announced a joint luncheon meeting of the Pro-America club with the Republican men's organization, to take place Monday noon at the Holland hotel.

It is urged that all Pro-America members attend the affair as well as any others interested. All planning on attending are to notify either Mrs. Hurd or P. K. Deuel.

Shower Party for Coreys Yesterday

A delightful farewell shower party was given yesterday afternoon in honor of Mrs. C. E. Corey and daughter Mildred, who are leaving Medford soon to make their home in Turner, Ore.

The honorees received many lovely handkerchiefs from the shower which was held at the home of Mrs. Ann Brown on Haven street.

Refreshments were enjoyed and the afternoon spent in visiting. Mrs. B. Bendorf, Mrs. Daphne Wilcox and Mrs. Marjorie Pierce assisted the hostess. Other guests present were Mrs. A. Shurlburn, Mrs. Alice Davis, Mrs. A. Salsburg, Mrs. W. Archer, Mrs. Frank Baird, Mrs. J. Kirkpatrick, Mrs. S. H. Praley, Mrs. Naomi Childress, Mrs. Wilson and Mrs. Joe Newton.

Travel Club Meets Monday

Travel Study club will convene Monday afternoon at 2 o'clock at the home of Mrs. H. F. W. Spilver, 320 Hamilton street.

Mrs. R. H. Paxson and Mrs. Everett Faber will present book reviews and roll call will be taken in current event manner. All members are asked to be present at the session.

Club Notice

With clubs and organizations of the city resuming their activities for the fall season after a summer adjournment, it is timely to announce several rules regarding club notices in this column.

Club announcements to appear in evening edition should be phoned or brought into this office not later than 10 a. m. of the same day.

Eagle Point

Pear Prospects Now Placed at 31,799,000 Bushels As Compared to 31,662,000 in Survey Month Ago

WASHINGTON, Sept. 9.—(AP)—The agricultural department forecast today a 1938 corn crop of 2,454,526,000 bushels and a total wheat crop of 939,972,000 bushels.

These forecasts, based on conditions prevailing September 1, compare with 2,568,221,000 bushels of corn and 955,980,000 bushels of wheat indicated a month ago.

The total wheat crop, winter wheat and spring wheat combined, was 873,993,000 bushels last year and the ten-year average was 752,891,000. Yield per acre indicated Sept. 1 was 13.2 bushels, compared with 13.5 a month ago, 13.6 last year, and 13.5 the ten-year average.

Winter wheat production, as reported in preliminary estimates, was 689,458,000 bushels this year compared with 685,100,000 last year and 546,398,000 the ten-year average.

All spring wheat production of 251,514,000 bushels was indicated, compared with 267,531,000 a month ago, 188,891,000 last year, and 206,494,000, the ten-year average.

Durum production was 42,011,000 bushels, compared with 41,148,000 a month ago, 37,791,000 last year, and 40,995,000, the ten-year average.

Other spring wheat aggregated 209,503,000 bushels, compared with 228,283,000 a month ago, 161,100,000 last year, and 166,410,000, the ten-year average.

The indicated oats crop was 1,034,347,000 bushels, compared with 1,041,000,000 a month ago, 1,146,258,000 last year, and 1,049,461,000, the ten-year average.

Production of other crops, indicated from September 1, conditions, with comparative figures for indications a month ago and production last year include:

Barley 250,360,000 bushels, 248,283,000 and 219,835,000; rye 52,500,000 bushels, 52,500,000 and 49,449,000; hay (tame) 81,750,000 tons, 80,315,000 and 73,785,000.

Potatoes 377,875,000 bushels, 385,515,000 and 393,289,000; sugar beets 10,823,000 tons, 11,138,000 and 8,749,000; hops 37,805,000 pounds, 37,920,000 and 44,399,000. Apples 132,231,000 bushels, 134,857,000 and 120,673,000; peaches 52,708,000 bushels, 53,140,000 and 59,734,000; pears 31,779,000 bushels, 31,662,000 and 29,548,000.

WHEAT AND CORN PROSPECTS SKID IN LAST SURVEY

Pear Prospects Now Placed at 31,799,000 Bushels As Compared to 31,662,000 in Survey Month Ago

WASHINGTON, Sept. 9.—(AP)—The agricultural department forecast today a 1938 corn crop of 2,454,526,000 bushels and a total wheat crop of 939,972,000 bushels.

These forecasts, based on conditions prevailing September 1, compare with 2,568,221,000 bushels of corn and 955,980,000 bushels of wheat indicated a month ago.

F. D. R. AGREEABLE TO PENSION HIKE IF TAX PROVIDED

Sen. Bilbo Reveals President's Attitude After Conference at White House — Will Draft Program

HYDE PARK, N. Y., Sept. 9.—(AP)

Senator Bilbo (D-Miss.) said today President Roosevelt is agreeable to increasing old age pensions if new tax money is provided to meet the cost. Bilbo conferred with the chief executive at the Summer White House.

"My main fight in the next session of congress will be to double the present old age pension rate of \$30 a month," he told reporters. "The old folks should have \$60 a month—half from the federal government and half from the states."

In the past, Mr. Roosevelt has called for orderly progress in the social security program and has denounced "fantastic" financial schemes for paying large pensions. Bilbo said he had not yet worked out a tax program for increased pensions, but that he would have one ready by January, when congress reconvenes.

Sheridan Downey, who pledged a \$30 weekly pension for the aged, defeated Sen. William G. McAdoo, the president's choice, in the California senatorial primary.

Bilbo said his proposal was "not an answer to Downey" but was based on "the needs of the old folks."

The Mississippi senator told reporters when he outlined his program to the president, the chief executive's reaction was that he would have no objection to it if some way were found to raise the additional money, estimated by Bilbo at \$250,000,000 a year.

HYDE PARK, N. Y., Sept. 9.—(AP) President Roosevelt scheduled two last-minute conferences today before speeding to the bedside of his son, James, who will undergo an operation Monday at the Mayo clinic, Rochester, Minn.

The Summer White House announced suddenly last night Mr. Roosevelt would entrain tonight for Rochester, to be present during the gastric operation Monday. Mrs. Roosevelt already is in Rochester and James' wife, Betsy, was scheduled to arrive there today.

GRIDLEY, Cal. (UP)—Postmaster Pierce would like to have Postmaster General Farley tell him what to do in this case. He found a small kitten stuffed through the package slot in the post office with a one cent stamp affixed between its ears.

COURT PONDERING FEHL LITIGATION

Arguments were made Thursday on the demurrer in the suit of Earl H. Fehl, former county judge, now a state hospital inmate, against former District Attorney George A. Coddling, Deputy District Attorney George W. Neilson and County Clerk George R. Carter. The court took the ruling under advisement. The suit is one of several filed by Fehl upon his return on parole last year. He alleged the defendants conspired against him.

A motion filed by Fehl against the appointment of Attorney Harry Duncan, as guardian ad litem, was also discussed; and a decision upon it is expected soon.

The court indicated a desire to clear cases that have been pending for months from the docket.

USE IS DISCOVERED FOR PICKLING LIQUOR OF STEEL INDUSTRY

NEW YORK (UP)—Steel industry executives have announced the development of a material to rid the industry of 2,000 tons per day of pickling liquor, long a nuisance to steel factories.

The liquor, a solution made by the reaction of sulphuric acid on steel, is mostly a saturated solution of ferrous sulphate, but a small percentage of the sulphuric acid remains free, corroding metals with which the liquor comes in contact. To get rid of the liquor, steel plants once dumped it in streams, but the free sulphuric acid killed fish, and many states banned this method of disposal.

The new process of utilizing the liquor was developed recently by H. Seymour Colton of Cleveland, Ohio, whereby the waste solution can be solidified into a building material said to have remarkable insulating qualities.

The new material—ferrous—largely is co-precipitated iron oxide and calcium sulphate.

In the processing, ferrous goes through a stage of plasticity, during which it can be molded into any shape, later setting to a hard mass by a combined process of drying and oxidation. When it sets, ferrous is tan colored and is extremely porous, it has qualities resembling both wood and plaster, but is fireproof, termite-proof and warp-proof and has 550 per cent the insulating value of plaster and will stand a much higher temperature than plaster without losing its strength. An inch-thick brick of ferrous is said to have the insulating value of 18 inches of fire brick.

Ferrous already has been put to several uses, among which are wall-board and pipe covering. Tests now being conducted indicate that the new material can be used agriculturally as a soil conditioner and secondary fertilizer.
