Where the deuce is Pilot Rock?

IN EVERY COMMUNITY where we do business this country tries to be a good citizen. That covers a lot of territory—and a lot of problems. On the day the people of Hawaii's Maui are concerned with their Housing Association, the people of Oregon's Pilot Rock are busy rehabilitating flood-torn roads.

Even Old Scrooge could write a check. So could some remote executive whose only reaction would be "where the dickens is Pilot Rock?" Instead, our people—those on the home grounds—roll up their sleeves and go to work. Whether it's a celebration, an emergency, or some welfare problem, this company works like any other member of the community interested in its progress.

You've heard of the depression. It has sharpened the problems of every city and town. It has forced economies on everybody—including us. Even Santa Claus, isolated at the North Pole, has willy-nilly grown more hard boiled.

But in depression times—when they've been needed most—our contributions to community welfare enterprises have never been slashed. That kind of economy just hasn't seemed to fit the character of good citizens—the good citizen who does his best whenever called on to get in there and pitch.

Beachs Return From Month's Vacation Trip

Mr. and Mrs. Rolapd G. Beach returned to their home on Geneva street Saturday evening by motorcar from a month's vacation.

The majority of their time was spent in Lincoln, Neb., the former residence of both Mr. and Mrs. Beach. To welcome them "home" a family reunion was held for them in Lincoln to which relatives came from Florida and Allentown, Penn., for the celebration. Thirty-three of Mrs. Beach's relatives were present and 27 of Mr. Beach's family were there.

Following the Lincoln sojourn, the couple visited relatives in Beaver Crossing, Neb., the birthplace of Mr. Beach and later they went to Seward, Neb., where Mrs. Beach was born.

One of the most interesting parts of their vacation was spent at Bonnevile Salt Flats in Utah. Here they witnessed the starting of the world's automobile speed record made by Captain George E. T. Eyston, world famous racer. Mrs. Beach secured the autograph and picture of Captain Eyston and the event was indeed a thrill to the Medford couple.

En route home to Medford, Mr. and Mrs. Beach visited briefly in Reno. They have been away since the 16th of August.

RAILROAD STRIKE THREAT DARKENS F.D.R. PLAN TO AID

WASHINGTON, Sept. 21.—(AP)—Possibility of a nation-wide railroad strike complicated today the efforts of railroad management and labor to fulfill President Roosevelt's request that they cooperate on legislation to aid the industry.

Labor and Chiefs Urged to Co-operate Over Wage Dispute.

Representatives of both sides discussed their problems jointly with the chief executive yesterday.

Then they scheduled a meeting to determine whether the threatened strike interfered with their following Mr. Roosevelt's proposals.

After mediation efforts failed recently, the carriers decreed the wage cut for October 1. Railway labor is taking a vote to decide whether to strike. The result, to be announced next Monday, will affect about 900,000 workers.

President Roosevelt told reporters yesterday, however, he would appoint a commission to study the dispute. Under the national mediation act, the strike could not take place for 60 days after that body is selected.

(The commission would have 30 days to make its findings and recommendations. Labor and management would have an additional 30 days, described by government labor experts as a "cooling off" period, to study the report.)

Mr. Roosevelt, concerned by the threats of war abroad and anxious to avert a rail tie-up at home, asked both rail executives and union leaders to cooperate in drafting recommendations for the next congress to help put the nation's transportation industry on a sound financial basis.

After Lady Vote

WASHINGTON, Sept. 21.—(AP)—Dr. Robert G. Foster, Detroit educator, wants housewives to be paid \$1,000 a year.

He told a section of the International Management Conference yesterday such a system would make the wives economically independent of their husbands. The latter, he said, still regard themselves as masters and their wives as servants.

"Women don't know what kind of women to be," he added, "because men don't know what kind of men they want."

BRITAIN, FRANCE STAND ASSAILED AS WAR BREEDER

(Continued from Page One)

Semi-official sources in Paris said Hitler had told the two Democratic powers that he would take Sudetenland by force unless Czechoslovakia yielded by Thursday.

Meanwhile, Italy expelled Poland and Hungary on to demand parity with Germany in settling the Czechoslovak minority question. It was said in Rome Foreign Minister Count Ciano had promised the Polish ambassador and the Hungarian minister Italian aid in recovering Polish and Hungarian minorities from Czechoslovakia.

Eden Gloomy

STRATFORD-ON-AVON, England, Sept. 21.—(AP)—Anthony Eden, former foreign secretary, declared tonight, "The conviction is growing that continued retreat can only lead to everwidening confusion."

Eden, who left Prime Minister Neville Chamberlain's cabinet just seven months ago yesterday in a protest against dealing with Premier Benito Mussolini of Italy, told the audience at an English-Speaking Union dinner:

"The British people know a stand must be made. They pray it be not made too late."

In what was interpreted as a reference to the German-Czechoslovak dispute in which Chamberlain intervened, the former foreign secretary declared:

"There are some people who believe if immediate issues can somehow be resolved without resort to force, the ambitions of all powers of Europe then will have been largely met, and the crisis is over."

"I can find no justification for such hopes, which seem to me ill-founded."
