KNOWN DEAD 507 IN NEW ENGLAND; GROWERS ASK AID

BOSTON, Sept. 29.—(AP)—Federal purchase of New England apples and timber blown down by last week's hurricane was urged on the government today.

Red Cross officials reported 111 persons missing in addition to the 507 known dead.

Heavily manned repair crews reported progress in their night and day efforts to restore broken railroad, lighting and communication facilities. Massachusetts national guards revoked an order requiring passes for travelers on central Massachusetts roads.

The Red Cross, compiling reports from all New England, listed 1,800 homes and 4,743 summer cottages completely destroyed, and 20,455 other residences damaged. It said 3,599 families still were receiving emergency aid.

The apple growers, much of whose crop was blown to the ground 10 days before harvest time, hoped to induce the F.S.C.C. to purchase some of the crop for distribution to welfare recipients. The growers already have interested New England chain stores in an "eat two apples a day" campaign.

LINK NAZI BUND TO GERMAN ENVOY

WASHINGTON, Sept. 29.—(AP)—A house committee investigator charged today Fritz Kuhn, leader of the German-American bund, had admitted to a "secret relationship" between the bund and Dr. Hans Dieckhoff, German ambassador to the United States.

The investigator, John C. Metcalfe, told the committee assigned to an investigation of un-American activities the bund relationship also extended to German consuls in this country.

"Fritz Kuhn informed this investigator when the latter was disguised as a storm trooper," Metcalfe testified. "Not only did he have power over the ambassador and consular set-up in the United States, but he also had special secret arrangement with Adolf Hitler of Germany. Kuhn has repeated the same statement to others."

Metcalfe recalled when the committee first started hearings it received testimony Kuhn had claimed he had been responsible for the removal of Dr. Hans Luther, the German ambassador whom Dieckhoff replaced last May.
