RUMORS OF GREAT INFLUENCE PRESIDENT'S AIDES DENIED

WASHINGTON, Oct. 5.—The divergence between history and actuality has rarely been wider or funnier than the other day, when Benjamin V. Cohen landed in New York after a vacation abroad...

As it happens, the physical facts of the story are strictly accurate. Yet the story itself is utterly untrue. It was not Benjamin V. Cohen who was "surrounded by a system of secrecy and protection..."

Lee, backbone of the Chicago hurling staff, was combated for 11 hits by the Manhattan sluggers before he retired for a pinch-hitter in the eighth. Red Ruffing held the Cubs to nine hits, including a triple by Manager Gabby Hartnett, and was never in serious danger.

Ruffing and Joe DiMaggio, alone, of the Yankee line-up failed to get in on the clubbing. Bill Dickey, tall catcher, was the biggest explosion with four slugs. He scored what proved the winning run in the second inning and drove across Tommy Henrich with the final run of the game in the sixth.

BENES RESIGNS AS NAZIS DEMAND CZECH REPARATION

Hitler's Personal Antagonism Also Factor — Nazi Claims for Sudeten 'Injustices' Balks Peace.

(By the Associated Press) President Eduard Benes of Czechoslovakia resigned today as Germany raised the question of reparations for "injustices" in Sudetenland since 1918, placing a new obstacle in the way of peaceful settlement of German-Czechoslovak differences.

Benes, who had stood firm against German demands until after the Munich accord, was said by some sources to have resigned following renewed German pressure based on Adolf Hitler's personal antagonism.

It was understood Gen. Jan Syrovky, Czechoslovakia's premier, would be acting president until an election could be arranged to choose Benes' successor.

German financial experts were understood to be drawing up a bill for damages "inflicted by the Czechs on the Sudetens since 1918" and informed observers believed Hitler would press the reparations demands as insistently as his previous ones.

The question was to be laid before the international commission for supervision of the cessation of Sudetenland.

Other European powers, meanwhile, turned their attention to pressing internal problems which grew out of the international crisis or which had existed previously.

POOLE PLEA FOR RELEASE PENDING APPEAL Pondered

SALEM, Oct. 5.—(AP)—The state supreme court took under advisement today the application of Harry W. Poole, Klamath Falls theater operator convicted on rape charges, for a certificate which would permit his release from jail pending his supreme court appeal.

The court indicated it would hand down its decision within a few days. Poole has been in the Klamath county jail since Saturday, and was sentenced to eight years in prison by Circuit Judge Edward B. Ashurst.

The court hearing today on Poole's application was private. Poole's attorney, U. S. Senator A. E. Reames of Medford and State Representative Harry Bovin and E. E. Driscoll of Klamath Falls, asked the court to grant a certificate of probable cause, if the certificate is granted, Poole would be released on bail.

District Attorney Hardin C. Blackmer opposed the certificate.

DALADIER VOTED NAZIS PLOT FOR SECRET SHOOTING BY FRENCH SENATE SPOTS REVEALED

PARIS, Oct. 5.—(AP)—The senate today voted to grant Premier Edouard Daladier's cabinet powers to govern France by decree until November 15, powers already approved by the chamber of deputies.

The senate's vote was 386 to 4. The chamber had voted the decree powers by 311 to 78, with 204 absentees. After a stormy all-night session in which the premier met such more opposition than in the previous debate on approval of the four-power pact of Munich.

The chamber approved that accord for dismemberment of Czechoslovakia to save Europe's peace by 535 to 75. Daladier asked the extraordinary powers to cope with France's economic and financial problems. He received such powers when he became premier last April 10, but they expired July 31.

MOSCOW, Oct. 5.—(AP)—A prediction of sharp revival of communist international activity, especially in France, was made today by some foreign observers following a cooling of Soviet-French relations.

BORAH PROPOSES EASIER CREDITS

WASHINGTON, Oct. 5.—(AP)—Senator Borah (R-Ida.) suggested today congress might agree to loosen credit restrictions on war debt defaulters if this would promote the sale of agricultural surpluses abroad.

"If it can be demonstrated there is any practical way of disposing of agricultural surpluses to foreign governments, I would favor amending the Johnson act," Borah said. He added, however, there appeared little reason to believe debtor nations could establish credits in this country.

The Johnson act prohibits United States loans to nations in arrears on debt installments.

VOTE DOWN MOVE TO RENEW PEACE PARLEY WITH C.I.O.

President Hopes Business Upswing Will Follow Labor — Business Cooperation.

HOUSTON, Tex., Oct. 5.—(AP)—American Federation of Labor leaders, well informed sources said today, may reply indirectly to President Roosevelt's appeal for labor peace by disapproving a resolution calling on the 58th annual convention to order reopening of the unity conference with John L. Lewis' C.I.O.

The resolution, submitted by delegates from the Hotel and Restaurants Employees International Alliance, demanded that peace negotiations be broken off last December be renewed immediately.

It also asked the A.F.L. recognize Lewis' policy of industrial unionism.

Any possibility that the resolutions committee might approve the resolution was virtually exploded yesterday by William Green. The federation's president told newspapermen "Overtures for a peace conference should and ought to come from the C.I.O. There is no immediate prospect for peace and nothing for us to do but wait."

Green's comment was prompted by a message to the convention from Mr. Roosevelt in which he expressed hope the door to peace would be left open.

HYDE PARK, N. Y., Oct. 5.—(AP)—President Roosevelt hopes labor and industry will get together to bring about an upswing in the nation's business.

This report was given today by persons close to the White House who said Mr. Roosevelt believes if name-calling and bitterness is ended, the country may look forward to general economic improvement.

It was said present economic conditions are not nearly as gloomy as they have been painted in some reports, employment is picking up more than seasonally and the nation may anticipate improved business during the remainder of this year provided prices are kept within a proper range.

Government policy, friends of Mr. Roosevelt said, calls for keeping prices of some commodities from going through the roof and for bolstering quotations on commodities which now are under-priced.

Copper was cited as an example of a commodity whose price should not go too high and wheat and cotton were listed as products for which current prices should be raised.

White House authorities said the recent European crisis has had its parallel in the nation's industrial and economic problems. They asserted while Europe was engaged in sabre-rattling and army mobilization, some people in this country were misrepresenting the government's policy, making dire forecasts of the future and building bogey-men to frighten the people.

These informants added the opinion if various factions could act in friendly conference, peace might be effected between industry and labor and between these two and the government.

As a hopeful sign in the economic picture, it was said the administration's pump-prime program would not reach its peak results until next spring.

At his press conference yesterday, Mr. Roosevelt was reluctant to discuss the foreign situation. He referred reporters to the record of administration foreign policy when they asked whether this country might lead in a movement for world disarmament.
