

WORLD SITUATION CAUSES SENATORS TO BACK DEFENSE

WASHINGTON, Oct. 13. — (AP) — Several senators predicted today the troubled international situation would assure President Roosevelt a clear track in congress in requests for substantial increases in the national defense budget.

Senator King (D. Utah), who opposed the billion-dollar naval expansion program at the last session, said in view of world conditions he now was inclined to support larger appropriations for both the navy and the army.

Mr. Roosevelt said this week a budget increase would be necessary to provide \$150,000,000 for new warship construction next year.

Senator Borah (R. Idaho) indicated he would continue his opposition to large naval expenditures, but said he had little hope congress would accept his view. Senator Townsend (R. Del.) has predicted that most Republicans would support increases in defense appropriations.

Senator Truman (D. Mo.) declared:

"I'll not only vote for more funds for the navy, but I am going to work for an adequate appropriation for anti-aircraft guns and planes."

Congressional sentiment in favor of strengthening national defense was forecast also by Senator O'Mahoney (D. Wyo.)

Senator Pepper (D. Fla.) recently back from Europe, said troubled conditions abroad had impressed on him a need for stronger defenses.

From another quarter came a proposal that the United States "earnestly consider" retaining the Philippines as a national defense measure, instead of granting their independence in 1946.

Lieut. Ernest M. Eller, naval academy instructor, contended in the United States naval institute proceedings the islands might prove to be a source of strength rather than a weakness in event of a Pacific war.

As long as this nation holds the Philippines, he said, it could "check possible Japanese world aggression" and "thereby protect her own shores."

Henselman Taking Insurance Course At Aetna Offices

George Henselman, local representative of the Aetna Casualty and Surety company, is now at the company's home office at Hartford, Conn., where he is attending a special training course. This course is of five weeks' duration and comprises lectures, class work and "clinics" under the guidance of home office men specially qualified for this work.

Casualty insurance has developed so rapidly in recent years and now includes so many important forms of business and personal protection that special training in its many ramifications is highly desirable for the insurance man who wishes to keep abreast of the times.

Mr. Henselman reports that the course he is now taking stresses the importance of the survey method of insurance selling. In other words there must be a thorough diagnosis before an efficient program of protection can be effected. Mr. Henselman feels that upon the completion of this course he will be better able than ever to serve his present and future clients to their best advantage.

ASK WAIVER LEVY FOR VETERAN AID

SALEM, Oct. 13. — (AP) — The World War veterans' state aid commission requested the tax commission today to waive the half-mill tax provided for operation of the veterans' commission.

The tax commission said it would omit the levy for 1939, which would amount to \$449,058. The veterans' commission indicated it did not need the money.

N. Y. Tests Prove Women Can Lose FAT

Ask Your Doctor If It Isn't Good Way. Read Every Word

NEW YORK, N. Y. — A test conducted by a prominent N. Y. physician and a nationally known newspaper woman proved there is a harmless, effective way to lose fat, if you only STICK TO IT and give it a fair trial. In 40 days 25 women lost a total of 269 lbs. EVERY woman lost fat—the average loss per woman being 11½ lbs. The women proper of all age sensibly. And for proper functioning they took a little daily dose of Kruschen Salts. If you have the slightest doubt about this Plan just ask your own doctor about its safety and merit.

And this is important to know: Kruschen is not just one salt as some people may ignorantly believe. Rather, it's a blend of 6 active mineral salts (see on box) which, when dissolved in water, make a healthful mineral drink similar to the waters of famous European Spas where wealthy fat women have gone for years.

Here's the Kruschen Plan: Just take a half teaspoonful of Kruschen in hot water every morning for better functioning. Go light on fatty foods and sweets—eat plentifully of lean meats, fresh fruits and green vegetables. Plan to do this faithfully for 28 days and see if you don't lose fat and feel healthier and younger. A jar costs but a few cents and makes 8 gallons of a most highly effective mineral health water. At Western Thrift Store and druggists everywhere.
