The Only Way

MESSRS. Alsop and Kintner, in our "column-left," have been writing some extremely interesting dope of late, on the political situation in Pennsylvania.

Particular emphasis has been placed upon the abysmal stupidity of the Republican machine in that commonwealth. The Pennsylvania Democrats were in a bad way, fighting among themselves, and suspected not only of irregularities but outright corruption,—everything in fact, nicely arranged for the Republicans to coast into office, by merely keeping their respective mouths shut and letting nature take its course.

But the Blind and dumb Big Business leadership of the Pennsylvania G. O. P. lacked the rudimentary sense to take advantage of such a set-up. Instead of coasting into power on an anti-administration tidal wave, they proceeded to open up all their big guns against the fundamental principles of the New Deal,—relief, reform and social security.

With the result that thanks to their own blindness and reactionary stupidity, it's about a 10 to 8 bet that the Democrats will be returned to power by a comfortable majority.

THIS comment is particularly interesting to us, for it is a theme that has been frequently sounded in this column, during the past few months,—the amazing inability of Republican leadership, to see that since 1932 a new era has dawned, and whether they like it or DON'T like it, they are living in a new world.

In following such leadership as former President Hoover represents for example, they are not only trying to do the impossible,—sweep back the tides of the ocean, with a broom,—but they are riding to certain political disaster.

It has always been a mystery to this department,—and still is,—why so few Republican leaders, could see this. It seemed so obvious,—so elemental.

As we have previously stated, Congressman Bruce Barton of New York, who known advertising man, was one of the few who DID see it, and it is surprising that his enlightened stand has not received the strong endorsement of the Republican party, that it deserves. Our own explanation is the party leadership as a whole particularly in the East, is still in the hands of the modern Mark Hannas and Boss Platties, while the rank and file, that given a chance would enthusiastically follow leaders like Barton, are generally inarticulate.

FORTUNATELY in Oregon, with genuine progressives like Sprague and Holman, leading the Republican cohorts, there is no chance of the Pennsylvania bungle and muddle being repeated here. They stand with Republicans like Barton, who refuse to blindly oppose the fundamental purposes of the New Deal, but promise to attain generally speaking the same desirable objectives, in a MORE ECONOMICAL, more business-like, and therefore more desirable and satisfactory way!

That is precisely where this paper stands and has always stood. It is, as we see it, as far as Republican success is concerned, the "ONLY WAY!"

The Jewish Problem

A WELL known Medford citizen was discussing—and cursing—Hitler the other day and waxing particularly eloquent over Der Fuehrer's cruel and shameful treatment of the German Jews.

"It only shows!" he declared, "the man isn't normal, he's a paranoiac and a sadist. Not only for the sake of the world but his own country he should be kept in a padded cell under lock and key. Now he is after the Jews in Austria, and next will be bounding them out of Czechoslovakia,—it's terrible, ghastly, incredible,—" then as a sudden after-thought:

"But I hope they don't come over HERE!"

THAT slip of the tongue, we thought, was very revealing, and characteristic of the ancient and baffling Jewish problem.

It is a frightful thing for Hitler to dislike the Jews and try to get rid of them, and yet scrape a trifle beneath the surface of some of his critics, and they show no tolerance, much less affection, for the Jews either.

We know the problem goes far back through the ages, but even so, we have never been able to understand it, or for that matter have the slightest sympathy for it.

The most common explanation is,—the prejudice is not so much racial as economic. The Jew is a smarter trader than any other race, and therefore continually gets the better of his competitor. So unless kept down, in SOME way, Jews gain COMPLETE financial and economic, and even political control. Henry Ford has this idea, and undoubtedly many share it. Yet one doesn't have to go very far back in history to find the prejudice existing in a pretty acute form, where no such economic factor played a part,—or any important part,—whatever.

AND the feeling seems so universal. Take the late Arthur Balfour's effort to find a sanctuary for the Jews in Palestine for example. The somewhat infragant Arabs seriously complain, and are willing to fight and die, for the privilege of living alone. Two of the Grand Muffin's demands from Great Britain are: (1) Immediate cessation of all Jewish immigration; (2) abandonment of the idea of a national Jewish home; (3) absolute prohibition of any further sale of land to the Jews.

And yet if they are not to return to their ancient home where are they to go? We fear the general reaction in any section of the Anglo-Saxon world at least would be, generally that of our anti-Hitler friend,—"NOT HERE!"

IT is certainly a grave problem,—distressing and tragic, and in a world that calls itself civilized and enlightened some humane and satisfactory solution should be possible,—and yet what is it? An international commission has been formed to find a way out, but at last report had reached pretty much of an impasse.

And, as we view it, there is no real excuse for such a situation; no more justification for racial hatred and persecution than for religious. We have outgrown the latter, isn't it about time we discarded the former?

Personal Health Service

By William Brady, M.D.

signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received only a few can be answered. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, 265 El Camino, Beverly Hills, Calif.

WHAT IS WHEAT GERM FOOD FOR?

Sorry, old-timers, but I can't tell you which mills, drug stores, food stores or health food stores supply wheat germ meal. Wheat germ does not keep long—turns rancid on standing in a few weeks—and so the merchants are reluctant to handle it. Here and there a mill supplies directly to the customer a one or two-pound package of wheat germ meal by mail for perhaps four bits.

The insulin-like action of vitamin B complex on carbohydrate metabolism (oxidation and utilization of starches and sugars) is as important in health as it is in cases of diabetes. It enables the sufferer with diabetes to get along comfortably with less insulin than would be necessary to keep the blood sugar at a fairly low level and the urine sugar free if insufficient vitamin B complex were included in the daily diet. Likewise, vitamin B complex (not pure vita-B, the synthetic thiamin, alone) keeps the carbohydrate metabolism of the individual who has no diabetes on a higher level and so makes the individual more efficient, more alive, more fit, more capable of enjoying life.

Wheat bran contains more calcium, phosphorus and iron than wheat germ does, but the vitamin B complex is mainly in the germ parts—although wheat bran is quite rich in vitamin B complex and is, in my opinion, wholesome and fairly digestible for most persons. Except certain invalids who should be guided by their physicians' advice, any one may use wheat bran in his diet as much as he likes, with only advantage to health, in my opinion.

Vitamin B complex aids the absorption of iron. Liver and yeast concentrates made from these vitamin B complex rich substances are now much used in the treatment of simply anemia as well as pernicious anemia.

Optimal or liberal daily intake of vitamin B complex keeps the appetite, digestion and intestinal function normal. Many medical authorities now regard vitamin B complex as valuable not only in the prevention but also in the cure of peptic (gastric or duodenal) ulcer and colon disease.

Ed. Note: Persons wishing to communicate with Dr. Brady should send letter direct to Dr. William Brady, M. D., 265 El Camino, Beverly Hills, Calif.

Man About Manhattan

By GEORGE TUCKER

NEW YORK—Here is an amusing though, at the time, annoying little contretemps that happened the other day, and as it is something that might very well happen to you at one time or another I think you ought to know about it. It may save you some grief, especially if you ride taxicabs in New York.

This friend of mine, this Mr. A, got into a cab, with his valise, and instructed the driver to take him to the Shelton hotel. A few minutes later he changed his mind. He yelled, "Hey, driver, let me off at the McAlpin. I have to see Ernest. Ernest is my favorite barber, and I need a hair trim. I'll tell you what. You let me off at the McAlpin and then you take my bag on over to the Shelton and check it for me. Leave the check in my name at the desk."

This was absolutely okay with the driver, and after Mr. A. wrote down his name and gave him sufficient money to cover the fare and the baggage check, the cabbie drove away. Meanwhile, something prompted Mr. A. to make a note of the cab's license number.

Time passed. It became dark. Soon the night wore away, and about 9 o'clock next morning your attic correspondent entered the Shelton and went up to Mr. A.'s room to have a cup of coffee with him. Mr. A. and I belong to a very exclusive coffee club. We are the only members there. But he wasn't joyously slipping his brew when I arrived. He was sitting on the side of the bed, chin in hand, gazing miserably into space. Furthermore, the usually impossible Mr. A. was badly in need of a shave. That he had slept in his shorts was obvious, there being no pajamas in sight.

"What in the world has happened to you?" I cried.

He sighed, struggled and announced solemnly: "The detectives will be here any minute now."

Nothing by superstition, he explained. He told how the taxi man had come off with his bag. In that bag were his razor, his change of linen, everything he needed. Only, there was no bag. There was no trace of a bag.

Of course, in this extremity, he had telephoned the police. And now they were coming up.

It was at this juncture that Detectives Frank Bahli and Hugh Fox of the 51st police station walked into the room. They came jauntily, in with their smiles on their faces. And the bag. They had the bag, all right. With the taxi license number as a guide, they had hauled the frighten-

LAND IS DONATED TO ORE. MEDICAL SCHOOL

PORTLAND, Oct. 19.—(AP)—Gertrude D. and Margaret M. Widmer of Eugene have presented more than 171 acres of land in Lane county to the University of Oregon medical school. Dr. Richard B. Dillehunt, dean of the school, revealed today.

Comment on the Day's News

By FRANK JENKINS

HERE in Oregon we've talked a lot about California's "450 every Thursday" scheme—and have shivered a little in our boots at its possibilities for California is southern Oregon's best customer, and we won't want to see our best customer go broke.

On the Oregon ballot in November there will be a measure levying a "transactions" tax of two per cent to provide a fund to pay 100 per cent to citizens over 65 who have resided continuously in the state for seven years. It is the Townsend plan (reduced to \$100 a month) applied to Oregon.

What is a transactions tax? Well, nobody knows with any certainty, but presumably it is a tax on EVERY TRANSACTION of every kind whatsoever.

Such a tax would run into a lot of money.

FOR example: When a sheep man buys a ewe, there would be a tax of two per cent on the transaction. There would be a similar tax when he bought feed for the ewe, when he had her sheared, when he sold the wool to the buyer, when the buyer sold the wool to the wool mill, when the mill sold the cloth to the clothing manufacturer, when the clothing manufacturer sold to the jobber, when the jobber sold to the retailer, and when the retailer sold to the customer.

Every time any article changes hands, there would be a tax of two per cent.

OBVIOUSLY such pyramiding of the tax would add a lot of cost to everything that Oregon has to sell. Since the transactions tax would be operative in Oregon only, it would mean that Oregon products could not be sold profitably in competition with the products of other states having no transactions tax.

That, in its turn, would mean that Oregon's industries would have to close down, for industry can not operate unless it can find a profitable market for its products.

If Oregon's industries had to close down, thousands would be out of jobs and unable to pay the tax.

If you understand this bill fully, and know what it means, and still want it, you will vote for it, of course. But DON'T vote for it unless you are thoroughly familiar with its probable results and are wholly willing to accept them.

Flight o' Time

Medford and Jackson County history from the files of the Mail Tribune 10 and 20 years ago.

- TEN YEARS AGO TODAY**
October 19, 1928
(It was Friday)
- Portland Good will excursion on visit to city and valley much impressed.
 - William Edward Hickman receives no visit from his mother, on the eve of his execution at San Quentin prison for the kidnaping-slaying of Marian Parker, Los Angeles, girl of nine years.
 - Aurora borealis witnessed by a number of valley residents.
 - Attorney Porter J. Neff to make political speech over the radio.
 - Alcoholic tonics at local soft drink bars forbidden.
 - Brophy's jewelry store installs new Neon sign, one of the largest in the city.
 - County campaign takes on heat.
- TWENTY YEARS AGO TODAY**
October 19, 1918
(It was Saturday)
- Allies capture the entire Belgian coast, and Belgian troops march into cities long held by German forces; Kaiser's army still on the run along the entire western front; American troops advance in the Argonne and along the Meuse.
 - Postoffice issues instructions for sending Christmas gifts to soldiers in France.
 - Heavy frost puts crimp in tomatoes, cucumbers and beans along Bear creek.
 - For the convenience of the public N. S. Bennett who has charge of the gathering of fruit pits and nut shells has placed boxes or barrels at the following places where the pits and shells, which are needed to make carbon for gas masks, can be dumped: One at each of the public schools; one at the Commercial club corner, and one at the Medford National bank corner. The pits must be dry, and the hulls must be off the shells.
 - Valley hunters flock to Klamath county for end of deer season.
 - Clatsop Cuts Levy

Meteorological Report

Forecast

Medford and vicinity: Fair tonight and Thursday, becoming cloudy Thursday, little change in temperature.

Oregon: Fair tonight and Thursday becoming cloudy in west portion Thursday, warmer in west central portion tonight, gentle variable wind off the coast.

Local Data

Temperature a year ago today: highest 70; lowest 38.

Total monthly precipitation, .58 inches; deficiency for the month, .58 inches.

Total precipitation since September 1, 1938, .95 inches; deficiency for the season, .50 inches.

Relative humidity at 5 p. m. yesterday 24 percent; 5 a. m. today, 68 percent.

Tomorrow: sunrise 6:29 a. m.; sunset 5:22 p. m.

Observations Taken at 5 a. m., 120 Meridian Time.
