CONCERT BACKERS MEETING TONIGHT; GOAL SEEN NEAR

With the membership campaign for the Southern Oregon Concert association officially getting under way tonight, early response to the concert series has already been so enthusiastic that committee workers are predicting the goal will be reached long before the San Francisco Opera Ballet company presents the opening concert here November 16.

A meeting of committee members will be held tonight at 8 o'clock in the Baldwin piano shop studio, and all interested are invited to attend. The association has been organized to bring concerts to Medford this season, and three have already been slated. All will be staged in the Holly theater.

The opera ballet group will appear November 16, and two small operas, "Secrets of Suzanne" and "Portrait of Manon," will be presented January 17. The Mozart Boys' Choir of Vienna will close the season March 21.

Heading the cast which will present the two operas on the January 17 concert will be John Daggett Howell, San Francisco opera baritone, and Mary Monte, soprano. They will sing the leads in both "Secrets of Suzanne" and "Portrait of Manon," and will be assisted by a brilliant group of supporting artists.

The operas will be directed by Armando Agnini, stage and technical director of the San Francisco Opera company, and will be beautifully costumed and produced. They have been selected for their general appeal and will make a rare evening of entertainment.

In "Secrets of Suzanne," sung in English, Miss Monte and Howell will be featured in a light and amusing opera which will give full scope to their abilities as actors as well as singers. In "Portrait of Manon," the company will appear in a one-hour opera which Massenet wrote as a sequel to his bigger opera, "Manon."

Sometimes your HEART knows best

ASIDE from hinting once in a while that it would be nice if you bought our products—always a good idea—it isn't often we ask you to do anything. But now we're about to bang right out with a suggestion—all, we believe, in the interest of good citizenship.

This Company is a great believer in Community Chests and like organizations—and backs up its belief with financial support wherever it operates. So it commends them to you—both individuals and businesses—with a thought that is particularly timely.

It seems to be common sense that all the relief taken over by Government must have lessened the burden of Chest agencies. So some contributors have grown less open-handed because they figure they are paying part of their subscription in taxes.

Therein their heads have played a trick on their hearts. Those needs of the unfortunate which are met by Chest agencies have actually increased in proportion to the general problem of relief.

So here's our suggestion... Find out now if this isn't true in your city. Investigate the things Chest agencies are doing—and what they'll need to do next year. We're sure your check will be more generous—and more satisfying to you.

Known variously in early Scottish history as Skye terrier, Highland, Cairn, and Scots terrier, although that dog bore no resemblance to Skyes and Cairns of today. Nicknamed the "die-hard" for stout heart and unquenchable love for sport. Extremely independent.

LIKE humans, dogs have a complicated set of nerves. But dogs are kinder to their nerves than we. They rest when they need rest... while we plunge ahead with our hurry and worry—straining our nerves to keep up with the fast pace. We can't turn back to the natural paces of life like

an animal, but we can protect, soothe, and calm our nerves. Smoking a Camel can be your pleasant method for breaking nerve tension. Camels are mild, with the flavor of a matchless blend of costlier tobaccos. Smokers find Camel's mild tobaccos delightfully soothing—soothing—to the nerves.

SUCCESSFUL PEOPLE ADVISE
"Let up—light up a Camel"

DID YOU KNOW:
—that tobacco plants are "topped" when they put out their seed-head? That this improves the quality of leaf tobacco? That most cigarette tobacco is harvested by "priming"—removing each leaf by hand? Camel buyers know where choice grades of tobacco are—those that cure nicely—the mild, ripe, fragrant tobaccos. Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS... Turkish and Domestic.

HE'S GIVING HIS NERVES A REST... AND SO IS HE

"HOUSEWORK, shopping, and social affairs," says busy Mrs. V. G. Weaver, "would get me strained and tense if I didn't rest my nerves every now and then. I let up and light up a Camel frequently. Camels are so soothing."
