Ask Doctor About This Ideal Way TO LOSE FAT

READ EVERY WORD! Make up your mind now that you'll lose some of that ugly fat and really enjoy life.

No one can blame you if you don't want to take harmful drugs, go on starvation diets and do backbreaking exercises. No sane woman would! And for sensible women like yourself who really want to reduce yet don't expect miracles overnight—who are willing to faithfully follow a most simple, inexpensive and pleasant 28 day plan (women considerably overweight naturally require longer periods), we suggest this easy plan.

First of all go light on fatty foods and sweets. Eat plentifully of lean meats, fresh fruits and vegetables. And for proper functioning be sure to take a half teaspoonful of Kruschen Salts in hot water every morning. And let's get this straight right now about Kruschen—

It is not harmful. It is NOT just one salt as some people may ignorantly believe. Look on the box! You'll see it is a blend of 6 active mineral salts, which when dissolved in water is similar to the famous medicinal waters of European Spas where wealthy fat people have gone for years.

A jar of Kruschen costs but a few cents and makes 5 gallons of marvelous mineral health water. Get a jar RIGHT AWAY! At Western Thrift Stores and druggists everywhere.
