## Wall St. Report

NEW YORK, Oct. 28.—(AP)—Railway stocks held the buying play almost exclusively in today's market as recent industrial leaders were shoved to lower levels by shifting profit takers.

Utilities and electrical equipments were in the advancing limelight for a while, after announcement from Washington by the national defense power committee of a huge expansion program adopted by the country's important utility corporations in cooperation with the governmental agency.

In dealings that approximated 1,500,000 shares for the day, steels, motors, rubbers, aircrafts, oils and specialties found the going rough.
