

CCC PLANS WORK THIS WINTER ON APPLGATE ROAD

BIG APPLGATE, Oct. 28.—(Sp.)—The Little Applegate CCC spike camp, branch of Camp Applegate, is being put in readiness for the second year of road work in that section, which will include five miles of new road construction from the Munsell ranch to the Cass place, where it will join the fine new mountain road already built through Anderson creek to Talent. The right of way was cut last year, and some grading done. The survey placed the road high on the mountain side away from the old road in the creek bottom.

Over 30 boys, on fire duty at Star Ranger station during the summer, are at the spike camp, which is in charge of Everett Rawlings, foreman. The crew will be raised to 49 when weather conditions force the Middle Fork road crew from the district. The camp, located on a point north of the Camp ranch, is being improved with new buildings this year, all tents having been dispensed with. A barracks from Camp Carbury has been added, as well as a foreman's quarters and a woodshed. A new floor has been laid in the mess hall and an army range put up. In addition to the road crew working during the winter, a telephone crew will be maintained, and some camp ground work will be done, according to Mr. Rawlings.

At present the men are constructing a garage and woodshed at Anderson Butte lookout.

ORDER DISMISSAL FEHL DAMAGE SUIT

Dismissal of the \$200,000 damage suit filed by Earl H. Fehl, former county judge of Jackson county, now a state hospital inmate, against County Clerk George R. Carter, Deputy District Attorney George W. Nelson, and former District Attorney George A. Coddling, was ordered today by Circuit Judge H. D. Norton.

The complaint alleged the former and present county officials entered a conspiracy to railroad Fehl to state prison, for the Jackson county ballot thefts. It was filed shortly after Fehl the survey placed the road high on 1937, after serving most of a four year prison sentence for ballot theft conviction. It was the last of several actions filed by Fehl, acting as his own attorney. One was against Governor Martin. Fehl was represented by his attorney of record, T. J. Enright, and his guardian ad litem, Attorney H. B. Duncan, named by the court.

This Catch Gave Tigers Klamath Win

Up leaps Medford's Don Montelth (No. 37) and Klamath's Gerald Stippich (No. 35) after that forward pass into the end zone last Friday night, when the Black Tornado upset the favored Pelicans, 8 to 0. In the above picture, it appears like the Klamath player has been successful in breaking up the scoring pass, but when Montelth and Stippich returned to the ground, it was Montelth who clutched the pigskin tightly to his chest for the winning points. The forward pass was thrown by Jack Bowman, Tiger left halfback, after the ball was put in play on the Klamath 14-yard line. This picture reveals how closely Montelth followed when he made his spectacular snatch to give Medford the victory. Left to right are Klamath players Alfors (8), Stippich (35), Mayhew (77)—in the background, Jarrett (74), Weber (55) and Bernie Hughes, umpire.

PRICELESS RECORDS ON BURBANK'S WORK DESTROYED BY FIRE

SANTA ROSA, Calif., Oct. 28.—(AP)—Luther Burbank's widow today tried to tabulate the damage left by a fire which started in an apartment last occupied by Wilbur Hall in writing "The Harvest of the Years," a biography of the "plant wizard."

Gone were priceless records of Burbank's experiments into the transformation of plants—experiments which resulted in revolutionary crop changes, new flowers and new vegetables. Gene too were valuable paintings he had collected and gone was the two-story barn which housed the apartment and in which the records and paintings had been stored.

The "glass house" conservatory which has become a Santa Rosa shrine because it was used by Burbank in many of his experiments, was badly damaged by falling debris.

Santa Rosa firemen, watched by thousands, saved the Burbank home, which the widow, Mrs. Elizabeth Waters Burbank, has modernized since her husband's death. Mrs. Burbank said she had cleaned up the apartment in the barn yesterday and had burned rubbish in a circulating heater.

Astoria Employees Want Wage Return

ASTORIA, Oct. 28.—(P)—In a re-

closure to the city council next month, Astoria city employees will ask restoration of their 1931 wage scale, about 12 1/2 per cent higher than present wages, they said yesterday.

The employees' association cited higher living costs and restoration of pre-depression scale among county, port and school officials as justification.

No wage increase provision was incorporated in the city's 1938 budget.
