

# WIDOW OF INDIAN FINALLY EVICTED

LOS ANGELES, Oct. 31.—(UP)—Anna Laura Barnett lost her long and belligerent fight against eviction Sunday to government agents who overpowered her with tear gas in the white colonnaded mansion she occupied as the wife of the "world's richest Indian."

Using a hand-axe for a tomahawk, Jackson Barnett's white widow made a fierce last-ditch stand against the entire staff of U. S. Marshal Robert Clark, but a few whiffs of tear gas dissolved her resistance. Clark said she threw the hand-axe at two of his men, narrowly missing Deputy Dave Hayden who overpowered her.

The 57-year old woman was lodged in the county jail on suspicion of resisting federal officers. Maxine Sturgis, her daughter by a previous marriage, was held on a similar technicality, although she surrendered quietly when officers stormed the house.

Bagged After 56 Years.  
ALTURAS, Cal.—(UP)—Leo M. Gloster rancher, is at last convinced that patience and perseverance will eventually have their reward. Having hunted during every deer season for the past 56 years he finally bagged his first deer this season. It weighed 306 pounds, about three times the size of the average deer being killed this season.

**Why, Doggie, did a Man bite you?**

PLEASE pardon us for bringing up that one again about man-bites-dog. But if it's news when a man bites a dog, then something we have discovered must be news. Our experts who look into such things have been looking into our tax records. They've found that in seven western states there are 20 counties where we do not pay taxes.

This is a fairish record—considering the fact that these states contain 237 counties, or 217 counties where we do pay taxes. In California, Oregon, Washington, and Arizona, our record is unanimous. It's only in Idaho and Utah and in one county in Nevada that we miss.

We don't refer here to any of the special taxes which burden the oil industry—simply to the ordinary kind which merchants, home-owners, farmers, and property owners of every sort, everywhere are called upon to pay.

They're the kind which help maintain good schools, fire departments, parks, playgrounds. They help care for the needy aged. They help pay for a hundred phases of welfare work. They do their part toward all those activities which mean good citizenship, civic betterment, community life—in 217 counties in seven states.

An official announcement said General Beck was promoted to the rank of colonel-general.

Reports were heard he was seeking to meet demands of some of his ministers for creation of a ministry of supplies with powers to enforce an armament speed-up.

In France, Premier Daladier also summoned his cabinet for the first of a series of meetings to draft decree laws to rehabilitate French finances, the nation's most pressing security need.

Conflict Danger Ebbs

Daladier, given 40-day decree powers to effect necessary reforms, was expected to have his edicts ready for President Albert Lebrun's signature by the end of the week. His "blank check" expires November 15.
