N. Y. Tests Prove Women Can Lose FAT

Ask Your Doctor If It Isn't Good For You. Read EVERY WORD

NEW YORK, N. Y. A test conducted by a prominent N. Y. physician and a nationally known newspaper woman proved there is a harmless, effective way to lose fat.

In 40 days, 25 women lost a total of 295 lbs. EVERY woman lost fat—the average loss per woman being 11 1/2 lbs.

And this is important to know: Kruschen is not just one salt as some people may ignorantly believe. Rather, it's a blend of 6 active mineral salts (see on box) which, when dissolved in water, make a healthful mineral drink similar to the waters of famous European Spas where wealthy fat women have gone for years.

Here's the Kruschen Plan: Just take a half teaspoonful of Kruschen in hot water every morning for better functioning. Go light on fatty foods and sweets—eat plentifully of lean meats, fresh fruits and green vegetables. Plan to do this faithfully for 28 days and see if you don't lose fat and feel healthier and younger.

JAPAN WILL FORM EAST ASIA EMPIRE FOR OWN BENEFIT

Blunt Announcement Shows Intent to Place Puppet Governments Over China As Now Rule Manchoukuo

TOKYO, Nov. 3.—(AP)—The influential newspaper Yomiuri said today that if the United States "maintains its claims for the open door and equal opportunity (in China) on the basis of the nine-power treaty Japan will reject them in a resolute manner."

The newspaper, discussing contentions in the United States note of October 6 demanding maintenance of the open door, declared the nine-power treaty, signed at Washington February 8, 1922, "has no significance whatever now that the work of establishing a new order in east Asia has begun."

TOKYO, Nov. 3.—(AP)—Japan bluntly announced to the world last night she intends to create a political and economic bloc consisting of the Japanese empire, Manchoukuo and China in carrying out her "immutable policy" for Asiatic reconstruction after the war with China.

A formal government declaration left a loophole for possible peace with the present government of China "if it were to come forward to join in the establishment of the new order." The statement expressed gratitude to those nations "which are in sympathy with us"—presumably Germany and Italy, Japan's allies in an anti-communist pact. Other western powers were not mentioned.

Today, birthday of the emperor Meiji, grandfather of Emperor Hirohito and considered the founder of the modern Japanese empire.

WASHINGTON, Nov. 3.—(AP)—Japan intends the creation of a vast east Asian empire, embracing nearly half a billion population. Informed observers here said today in the light of a government proclamation issued in Tokyo.

The proclamation stated Japan's intention to create a "tripartite relationship of mutual aid and co-ordination between Japan, Manchoukuo and China."

Observers said Japan intended to set up puppet governments in China, at Nanking, Peiping and Canton. The Kuomintang government of Chiang Kai Shek might possibly be reinstalled at Nanking—but without Chiang Kai Shek.

The three states of Japan, China and Manchoukuo, observers felt, would be welded together on a platform of antagonism to communism and therefore Soviet Russia, but the effect would be to injure the economic interests of the United States and Great Britain as well.

Observers believed the relationship between Japan and the regard to China—at least so far as the outside world is concerned—will repeat the relationship she instituted with Manchoukuo six years ago.

Manchoukuo and Japan agreed to cooperate in the "maintenance of their national security; it being understood such Japanese forces as may be stationed in Manchoukuo."

A similar treaty with China would, of course, give Japan the right to station troops in China—to insure peace and order according to Tokyo's interpretation of the need.

Wall St. Report

NEW YORK, Nov. 3.—(AP)—Rail stocks puffed up a brisk rally in today's market, but many recent leaders lacked rising power.

Dealings were slow until the railway group attracted buying attention. Activity, around mid-day, was considerably ahead of Wednesday's snail-like proceedings. There were subsequent loadings periods, though.

Transfers were around 1,100,000 shares against 763,950 the day before.

While gains ran to more than a point for favored stocks, most steels, motors, oil and utilities followed a comparatively mild groove. Coppers were under mild pressure and aircrafts were somewhat mixed.
