

SANTA TO CARRY 225 MILLION PACK OF YULETIDE TOYS

'Do Things' Motif Found This Year in Child Playthings—New Stock Includes Scientific Gadgets

NEW YORK, (U.P.)—Santa Claus' 225,000,000 pack this year will reproduce in workable miniature virtually every activity of American home life, industry and transportation.

Scientific advance testing of 1938 toy models by children to determine fun possibilities, age suitability, safety and educational value was reported at the annual Christmas preview sponsored by toy manufacturers.

In the roster of 10,000 new American made toys, Snow White, the G-man, the cowboy, and a score of movie cartoons and radio stars competed for the spotlight of juvenile worship.

Old favorites with streamlined additions, include new models in electric steam engines, two-faced, black and white boards, non-breakable marionettes, automatic scoring marble bowling sets, a shoofly modeled after a panda and a new electric pencil for etching wood, leather and cork.

A new miniature organ boasts four octaves. A velocipede has a chain drive like a bicycle. A rapid-fire bubble blower emits a continuous stream of large rainbow hued bubbles from a single dip, and there's a big repertoire of films for magic guns that shoot pictures on the wall. Slides have gone streamline, they have tip-proof brakes.

"Like parent, like child," is an inevitable guide to children's play interests," said James L. Fri, director of the Toy association. "It is a happy commentary on American life that American children are principally interested in play that imitates home and business activities. Scientific tests show that children have much more fun with toys which enable them to 'do things'."

The housing boom is fulfilled in 1938 toyland. There are new styles in prefabricated houses made of blocks, bricks and cardboard. Polarized light is the latest scientific gadget to be adapted to playroom technique. A child can tell whether the tablecloth is cotton or linen.

The age level of dolls has progressed into the teens. Sophisticated dolls with pageboy bobs and glamour girl costumes appeared at the preview. They boast high style wardrobes that cover every social occasion. Evening dresses with trains, tailored sports costumes and afternoon gowns are featured for older dolls. Doll wigs are setting a new high in variety with page-boy bobs and a wide selection of ringlet arrangements.

Dolls and animals have been modeled from favorite characters in popular children's books as well as the movies, cartoon and radio heroes. A miniature vacuum cleaner has joined the large roster of house-keeping toys. Children's furniture in period and modern styles also was shown at the preview.

Statue 'Pacific' Completed SAN FRANCISCO, (UP)—Ralph Stackpole has completed for the Golden Gate International Exposition a statue named "Pacific" which is second in size only to the Statue of Liberty. It is 80 feet tall and required two years' work. The symbolism endeavors to represent the Pacific region as a whole.

Cyclists Pay in France PARIS (UP)—France has 8,000,000 cyclists and they pay \$2,800,000 to the state as a tax on their machines.

HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filters to purify the blood and keep you healthy. Most people pass about 2 pints a day or about 3 pounds of waste. Frequent or scanty passages with smearing and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of passing backache, rheumatic pain, leg pain, loss of sleep and energy, getting up at night, swelling, puffiness under the eyes, headache and dizziness.

SUAVE MENJOU IS KIND, PUNCTUAL WHILE AT WORK

By Alexander Kahn United Press Staff Correspondent HOLLYWOOD (UP)—Actors as a rule are a happy-go-lucky lot to whom time means little and promptness less. But one actor at least has won the title of "conscientious" because of his consideration and punctuality.

He is suave Adolphe Menjou, Hollywood's best-dressed actor. Menjou is big enough and important enough so that he would not have to pay attention to the production crew of pictures in which he appears. He could, if he desired, be very bossy. Some actors are very thoroughly disliked by the technical workers, but not Menjou.

Menjou dismisses his conduct as a "selfish" desire to get along with people. After all, these technical workers can determine in no small way which direction you are headed," he said. "An actor who doesn't cooperate with them has all day strikes called. They are all swell guys anyway, but they certainly can make an actor look bad when they want to."

Although he is a stickler for punctuality, he doesn't argue that the lack of it in others is necessarily a fault. He has always made it a point to be 10 minutes ahead of any appointment "just in case." Currently appearing in 20th Century-Fox's "Thanks For Everything," he often shows up with the carpenters and electricians and sits around chatting with them until the director needs him to start work.

He also is a builder of goodwill on the set. Every morning at 9 sharp, he orders doughnuts and coffee for the company, just in case some of them missed their breakfast. He steps over and has a cup of coffee with "the boys" if he is not busy rehearsing a scene.

The Menjou good fellowship does not stop with him. Mrs. Menjou (Veree Teasdale) is hailed as just as friendly as the suave Adolphe.

Peter Wind Plays Tuba SAN FRANCISCO, (UP)—The San Francisco WPA Symphony orchestra boasts of a tuba player by the name of Peter Wind; the Langford Bakeries are proud of a treasurer named Albert Crum, and the San Francisco police force tops it with a patrolman named Fred Robbins.
