

ASHLAND VOTERS FAVOR LEVY FOR UPKEEP OF PARK

ASHLAND, Nov. 10.—(Sp.)—This civic-minded city voted two to one in Tuesday's election to appropriate funds for improvement of one of its best assets, Litchia park.

By a vote of 1020 to 504 the citizens sanctioned a special half-mill levy for the park work. The increase puts the park levy at 2 1/2 mills.

No improvement additions in the park are contemplated, the increased fund to be used in keeping up the park on a high quality basis. It had been pointed out that cash income for upkeep of the park had decreased about 50 percent in the past ten years while expenses tended to increase. More money was needed if the park was to be maintained in its present excellent condition, the park administrators had declared. Purchase of new equipment for the maintenance work is contemplated.

Pipe lines and the sprinkling system are to be repaired and drainage is to be improved.

In the election of municipal officials, O. P. Carson, Ashland business man, led the ticket in the contest for three positions on the city council. He received 1261 votes to 1111 for Charles Deisman, second high, and 975 for Dr. W. J. Crandall who placed third. L. H. Hansen, seeking re-election, was defeated as was also S. S. Davis.

In a heated contest for justice of the peace in the Ashland district M. T. Burns, Republican, defeated Herb Moore, Democrat, 1440 to 952. In the primary Burns defeated L. A. Roberts, incumbent. Moore is a deputy sheriff.

ROSIERUCIAN'S BOOKS RECEIVED BY LIBRARY

Additional volumes treating on the subject of Rosierucianism have been added to the collection of Rosierucian philosophy at the public library. Elizabeth Parsons, of Route 4, Medford, local Rosierucian member, states that she has been informed by the grand secretary of the Rosierucian order with national headquarters in San Jose, Cal., that because of demand for works on this subject, it has been found necessary to donate further copies to the Medford public library. Miss Parsons also declares that since the Rosierucian order, known as A.M.O.R.C., is not a religious organization, all its publications are treatises on philosophy, metaphysics, the sciences and arts—the object of the organization being to acquaint the student or member with the nature of existence and to give an understanding of the fundamental laws of life so as to permit him to realize a fuller and more abundant existence.

The selection of cities for the periodic national Rosierucian convocations is determined," further stated Miss Parsons, "by the interest shown by the reading public in the organization's publication and monthly periodical, The Rosierucian Digest, in the public libraries." In addition to holding membership convocations in such cities, extensive advertising is then conducted by the grand lodge in the local press. The funds that make possible the donation of the books to the public libraries are the result of contribution of local members of the organization.

PORTLAND, Nov. 10.—(AP)—Two members of the sewer emergency repair crew searched for a 600 diamond yesterday and found two bits. A woman reported loss of the diamond—in a ring—down a sewer drain. R. T. Elkins worked from one manhole and John Cunoce from another. Neither found the ring, but Elkins came up with two dimes and a nickel.

Beauty Marks Plymouth's 1939 Models

Here's the first of the new 1939 automobiles, presenting an impressive array of added features for greater comfort and luxury in the lowest price field. The latest models now on display at Plymouth showrooms here confirm the forecasts that stronger "eye appeal" would highlight new auto designs for 1939. Inside and out, this newest Plymouth is completely restyled. Headlamps and tail lights are streamlined into the fenders, and a new Vee-type windshield adds more than six inches to body length above the belt. Built on a longer wheelbase—now 114 inches—brand new features include softer-riding coil springs of Amola steel; new high-torque engine performance; remote control gear shift up on the steering post, and a new "safety-signal" speedometer that flashes traffic lights right under a driver's eyes. The new Plymouth rides better, handles easier—and prices are still lower this year, the factory just announced.
