

GROWING TREES GO FROM HERE TO WORLD FAIR

Various Species Taken Out of Rogue River National Forest for Southern Oregon Exposition Exhibit

BIG APPLAGATE, Nov. 11.—(Spl.) Living trees from the Rogue River national forest are being scientifically uprooted and shipped for exhibition in the Shasta Cascade Wonderland building at the Golden Gate International exposition opening February 18. The first shipment from the Applagate was trucked out Tuesday.

Trees from the Applagate district included three madroñas, five maples, three Oregon ashes and four quinine cherry bushes. In the Dead Indian section two mountain hemlocks and five western yewwoods were selected.

The Klamath national forest also is sending tree exhibits.

The process of obtaining the trees without injury and of enabling them to continue living and growing for the next year in artificial surroundings is an intricate one. Cordy Sunderman of Medford, landscape architect for the Rogue River national forest, was here this week supervising the tree digging.

Selected by Port

The trees in the Applagate district were selected early in September by Ranger Lee C. Port. At that time deep trenches were dug around the trees to enable workmen to cut off the lateral roots. The raw root-ends were painted with asphaltic tree paint as a protective measure against rot and other diseases.

The trees are dug with clumps of dirt clinging to the roots, which are encased in wooden boxes. The boxes come in sections. They are placed in the trench surrounding the tree, and bolted together. By means of a jackscrew the trees are lifted from the earth, any persistent bottom roots cut, and the false bottom is bolted on the box enclosing the soil and roots. The pores of the bark are sealed with a dowax spray and the trees are wrapped, body and limbs, in burlap. Seventy-nine hundred yards of burlap have been purchased for the wrapping. The trees were to be shipped to San Francisco on flat cars, two on a car, loaded at the Southern Pacific yards at Medford.

Selection of well shaped trees was

difficult, the local ranger said, in that they had to be located in areas of trucks and grown in the open away from tree clusters. Smallest trees, the quinine cherry, are from four to six feet in height. The tallest trees are 30 feet. This small section of the forest is only a minor portion of the vast exhibit typical of the southern Oregon and northern California areas which is being prepared by the Shasta Cascade Wonderland association.

VAN NUYS APPARENT WINNER IN INDIANA

INDIANAPOLIS, Nov. 11.—(AP)—Senator Frederick Van Nuy, Democrat, appeared re-elected today in his close contest with Raymond E. Willis, Angola Republican. Van Nuy had a lead of more than 2,000 votes with only scattered precincts in counties in which he has been running ahead yet to report.

With 3,745 of the state's 3,872 precincts reported, the vote stood: Van Nuy, 759,339; for Willis, 753,224.

Jap Maid Would Wed

SALEM, Nov. 11.—(AP)—A Japanese girl of Torrance, Calif., has written the Salem chamber of commerce inquiring whether marriage between Japanese and white persons is permitted in Oregon. She also wants to know what the fee is and how long the city hall in Salem remains open Saturday afternoons.

CORN LOAN FIXED AT 57 CENTS FOR THIS YEAR'S CROP

43 Cent Loan for Farmers Outside Commercial Area — Forecast Is Announced in Principal Crops

WASHINGTON, Nov. 11.—(AP)—Secretary of Agriculture Wallace announced today the government would make loans on this year's corn crop at the rate of 57 cents per bushel. Loans will be made at this rate to all farmers in the commercial corn area who did not exceed their 1938 corn acreage allotments. The commercial area includes 566 counties in Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, South Dakota, Iowa, Nebraska, Missouri, Kansas and Kentucky.

Loans will be made at 43 cents per bushel to farmers outside the commercial area who did not exceed their total soil depleting acreage allotments.

Farmers who overplanted their

acreage allotments will be ineligible for loans.

Forecast Increased

The corn loan was announced after the federal crop reporting board estimated this year's corn crop would total 2,480,958,000 bushels. A month ago its forecast was 2,459,316,000 bushels.

Production was 2,444,995,000 bushels last year and 1927-36 10-year average production was 2,306,157,000 bushels.

Today's estimate will be used in determining the rate at which the government will make loans to growers on corn.

Preliminary estimates of production of other crops, previously announced, included wheat, 940,228,000 bushels, compared with 873,993,000 last year and 752,891,000, the 10-year average; and oats, 1,041,577,000 bushels, compared with 1,146,288,000 last year and 1,042,461,000, the 10-year average.

Estimates of other crops, compared with a month ago, last year and the 10-year average, included: Potatoes, 368,203,000 bushels, compared with 373,275,000, 393,289,000 and 369,993,000.

Sugar beets, 10,888,000 tons, compared with 10,675,000, 8,749,000 and 8,385,000.

Apples, 130,328,000 bushels, compared with 130,100,000, 210,873,000 and 150,728,000.

Year Yield Under 1937

Pears 31,610,000 bushels, compared with 31,612,000, 29,548,000 and 24,326,000.

Grapes, 2,503,000 tons, compared

with 2,500,000, 2,777,000 and 2,197,000.

Acre yield of various crops, with comparison for last year, were: all wheat 13.2 and 13.6; oats, 29.3 and 32.7; potatoes, 120.5 bushels and 123.8, sugar beets 11.8 tons and 11.6. The condition of pasture November 1 was 69 percent of a normal, compared with 65 a year ago.

The acre yield and indicated total production of certain crops by principal producing states included:

Potatoes: North Dakota 68 and 8,500,000; Nebraska 75 and 6,375,000; Idaho 225 and 27,875,000; Colorado 104 and 11,232,000; California 250 and 17,000,000.

"Down Under" Radio Strong

CANBERRA, Australia.—(UP)—Australia's response to the war fever of the world is to improve national defense by construction of the largest radio station in the British Empire. It will be completed in 1940 and will provide day and night communications with all warships in Australian and adjacent waters and with the naval radio stations throughout the world.

Deer Attacks Auto

SAN FRANCISCO.—(UP)—California deer are definitely taking on some of the characteristics of goats, according to Will Hammeron, while driving up from Santa Cruz, he said, a big three-point deer came from the forest, butted out both of his headlights, damaged the motor, and then ran for the protection of the forest.

LOST COLONIES OF REICH YIELD FRANCE LITTLE

By Ralph Heinzen United Press Staff Correspondent

PARIS (UP)—Germany's demand for return of pre-war colonies is deemed of greater concern to France from a political and military viewpoint than economically.

When the World War ended and the victorious Allies split up Germany's overseas empire of more than a million square miles, France did not reap any outstanding economic gains. It got two-thirds of Togoland (the only German pre-war colony which paid its own way) and about four-fifths of the Cameroons.

As German West African possessions, the Cameroons had about 191,000 square miles area and Togoland 89,000 square miles. If the Third Reich regained all or part of these areas, Fushner Adolf Hitler would have a foothold in Africa on which he might develop important submarine and aviation bases that would worry both Britain and France and would be less than 3,000 miles from South America.

From a practical standpoint, France's colonial wealth lies in colonies other than those taken from Germany. Morocco, Tunisia, Algeria, Indo-China and New Caledonia provide mineral and agricultural wealth and furnish markets for many millions of dollars worth of French industrial exports annually.

Hark! A Rustling

PASADENA, Cal.—(UP)—Police officials were especially grateful to a woman who telephoned them that she could hear a rustling in the bushes in her yard and asked if they would investigate. Two motorcycle officers responded, crept cautiously into the bushes and that night they had possum for their midnight meal.

Trailer Fire Outrun

BEOWARE, Nev.—(UP)—J. A. Harrison and Ray Alexander, prospectors, driving an automobile and trailer to new "diggings," discovered the trailer on fire. Unable to unhook it, their only alternative to keep the flames from spreading to the automobile was to fast drive, to outrun the flames. This they did.

Club Owners Clubby

SAN FRANCISCO.—(UP)—Night club owners apparently are the world's greatest fans of night clubs. When the Night Club Owners association of this city held its first annual convention and round-up, it put on, as amusement for themselves, a floor show.

Another Famous Recipe

Our Mrs. McRae has been asked so often how she prepares the Swedish Meat Balls served at our Fountains that we are printing the recipe.

SWEDISH MEAT BALL

- 1 pound ground Steer Beef
- 2 slices Home Purity Bread
- 1 egg
- 2 or 3 tablespoons butter
- 1 can Del Rogus tomato juice
- 2 medium size onions
- Salt and pepper

Soak bread in enough milk to make it into a soft wet dough. Beat the eggs, then thoroughly mix the meat, dough, beaten egg, salt and pepper and roll into small meat balls. Roll the meat balls in flour and brown thoroughly in sizzling hot bacon fryings, turning until browned all over.

Add the tomato juice, the two onions diced and cook to a thick brown gravy seasoned to taste. Allow to simmer slowly until meat thoroughly cooked, stirring frequently to prevent meat sticking to skillet.

- We're serving them at the Fountains tomorrow.
- Ground Steer Beef, pound 15c
 - Shoulder Pork Roast, pound 17c (From young grain-fed hogs)
 - Minnesota Bacon, pound 27c (A very fine Eastern bacon streaked with lean)
 - Sugar-cured Picnic Shoulders, pound 17c (Huber's mild cure)
 - Hormel's Dairy Hams, pound 28c (Fancy mild cure corn belt ham, Part or whole ham)

Chuck Roast of Steer Beef, pound 15c
Steer Steaks, rib, loin or round, pound 25c
You are sure of Steer Beef at your Groceteria. We never have any other kind in our coolers.

- Oro Shortening, 4-pound carton 39c
- Scoco Pure Vegetable Shortening, 4-lb. carton 43c
- All-Pork Farm Style Sausage, pound 20c (Mild or full sage seasoning)

MINCE MEAT
Like hamburger, sausage and boarding house hash, Mince meat is a mystery when sold for less than the cost of the materials that go into it—except the water. Pint for pint, Home Purity Mince meat will go so much farther it actually costs less.
