## MRS. RUTH LEONARD INJURED IN CRASH SOUTH OF PHOENIX

Mrs. Ruth Leonard, 35, of 632 West Second street suffered serious, but not critical injuries about 8:45 last night when the machine in which she was a passenger, driven by her husband, Willard, collided with a vehicle operated by Louise Hudson of box 1167, Medford, one mile south of Phoenix on the Pacific highway.

Mrs. Leonard is confined in Community hospital with a fractured pelvis and abdominal injuries the extent of which have not yet been determined. Her attending physician said today. However, the doctor stated that Mrs. Leonard was probably not critically hurt.

Sobby Leonard, 14-year-old son of Mr. and Mrs. Leonard, sustained head abrasions and an sprained neck. He was not injured badly enough

to necessitate his being confined in the hospital.

The accident occurred on a slippery highway and with falling snow obscuring the vision of both drivers. The vehicle driven by Louise Hudson, a Ford station wagon, attempted to make a left hand turn into an intersecting road, according to a city police report, as the Graham sedan operated by Mr. Leonard started to pass the Hudson machine. Both vehicles were travelling in the same direction, and both were considerably damaged.

## COUNTY TO ADVERTISE ASSETS BY PICTURES AT GOLDEN GATE FAIR

REDDING, Cal.—(Sp.)—Recognizing that well-chosen and expertly taken photographs play a major part in the publicity program of any region, the Shasta-Cascade exposition

commission, of which Ralph Billings of Ashland and A. M. Banwell of Medford are Jackson county representatives, has adopted a standard plan thus to display the scenic splendors and commercial and industrial opportunities of Jackson county at the San Francisco world's fair.

The photographic program will present 10 major subjects: stockraising, agriculture, horticulture, industry, recreation, transportation, education, scenery, wildlife and history.

The photographic display of the Shasta-Cascade wonderland will be presented to world's fair visitors at the following methods: natural color motion pictures in 15-minute lengths, natural color stereopticon slides automatically projected, black and white photographic stills in group formation and portfolios and mural and sepia enlargements.

Use of the photographic material will be made by hourly programs of moving pictures in Wonderland hall of the Shasta-Cascade building, illustrated lectures both in Wonderland hall and at the evening campfire circle in the outdoor court, display albums, release to newspapers and magazines for reproduction, enlarged

murals for display backgrounds, and Closing time for Too Late to Classify Ads is 1:30 p. m.
