

SURVEY SHOWS AVIATION JOBS RISING YEARLY

NEW YORK—(UP)—Aviation jobs in the United States will increase more than 33 per cent in the next five years, predicts Dr. Carl Norcross of the New York state education department.

He estimated on a basis of a two-year study that the present number of 60,000 jobs will increase to approximately 77,000 by 1943. Airline personnel has doubled in the last five years and will grow between 12 and 17 per cent each year during the next five-year period, he said.

He warned that an oversupply of poorly trained and untrained mechanics who cannot find jobs already exists, and that competition is so keen that only the best men are selected. He ruled out flying as a vocation except for those who are physically and mentally qualified.

Dr. Norcross forecasts were made in his book, "Getting a Job in Aviation," published by McGraw-Hill.

Bellman-Monaco Betrothal Made Known at Party

The Crater Lake avenue home of Mrs. Margaret Fabrick was the scene of a delightful tea yesterday afternoon when Mrs. Fabrick's daughter, Mrs. Paul Selby, and Miss Marjorie Kelly were hostesses honoring Miss Helen T. Bellman whose betrothal to Mr. Eugene J. Monaco was announced.

Fifty guests were bidden to the affair and were met at the door by Mrs. Selby's small nephew, Glen Fabrick Ingle who, from a small silver basket, presented each with a card revealing the engagement announcement.

Table appointments were attractive with silver, white and crystal ware on a white lace inset cloth and a centerpiece of white and yellow chrysanthemums.

MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will invite you to dances and parties. BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls who are full of pep. So in case you need a good general system tonic, remember for 3 generations one woman has told another how to get "smiling eyes" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lovable desires from female tubercular disorders. You'll find Pinkham's Compound WELL WORTH TRYING!

EAGLES PLANNING NIGHTLY PROGRAM ACCOUNT GROWTH

Because of increasing membership, Crater Lake aerie of the Fraternal Order of Eagles has arranged a nightly program of activities for every night in the week excepting Sunday. It was announced today by A. H. Banwell, president.

The aerie now has a membership of about 450, having initiated 32 new and reinstated 76 old members in recent months, Mr. Banwell said.

The expanding activities of the aerie and its auxiliary make it necessary for the officers of both units to meet at the lodge hall each Monday at 7:30 p. m. to plan for the regular sessions on Thursday evenings, Mr. Banwell related.

Beginning on November 29, the lodge hall at 42 North Front street will be set aside each Tuesday night for card parties by the auxiliary. The first card party on November 29 will be open to the public but after that only members and their families will be eligible to attend, Mr. Banwell said.

On Wednesday nights the grill teams of the aerie and auxiliary will have use of the lodge hall for practice.

The regular weekly meetings will be held each Thursday evening, with a dance on alternate Thursdays. On the Thursdays when no dance is scheduled a collation will be served. These activities will be for paid-up members and their families only and will be entirely free.

On Friday nights Boy Scout troop 8, sponsored by the Eagles, will have use of the hall. Every Saturday night there will be a free dance for paid-up members and their families. First in this dance series will be held next Saturday.

There will be no lodge meetings on Thursday this week because of Thanksgiving but a special card meeting will be held Wednesday night.

The current membership campaign will end positively on December 1 and thereafter the initiation fee will be increased materially, the aerie president stated.

A large delegation, including the aerie and auxiliary drill teams, will attend a program to be presented by the Grants Pass aerie and auxiliary in Grants Pass on November 30. Mr. Banwell related. Mr. Banwell will be toastmaster.

WIFE OF DOCTOR TEARFUL WITNESS IN KIDNAP TRIAL

Afternoon he was going to leave. "Well, yes, he had."

She said she didn't remember Doctor Berry ever saying her conduct had so embarrassed him at the Rose Bowl and at the Shrine convention he was going to leave her.

She said "the doctor had nothing to be jealous of" and denied he remarked to another woman at a luncheon after the Fourth of July incident on Mrs. Berry's "misconduct."

Also she denied she told the other woman "Oh, he's just jealous about what happened at the party, but nothing like that occurred."

Denies Visiting Baker "There was no such conversation," she told the jury. "I don't remember any such conversation."

She said she didn't recall whether the doctor said he'd embarrass her if she didn't leave the Mud Bay party and go back to town with him.

She denied visiting Baker July 5. "Didn't Baker say he'd learned from a letter he was going to be correspondent in a divorce suit," Graham asked.

"He certainly did not," she answered. She denied the doctor "beat her up" twice following the party.

"He just slapped me," she said. She denied he accused her of illicit relations instead of having been ravished.

Graham questioned her closely about the conference with Prosecutor Troy concerning filing rape charges against Baker.

"Didn't the doctor turn to you and say 'well, what am I to think, if you refuse to sign this complaint?'" Graham asked.

"No, I don't remember any statement like that."

"Didn't Troy say to the doctor, 'if you have any doubt in your mind about this affair, what do you believe a jury of twelve men and women would think?'"

"No," Mrs. Berry answered Graham. "I don't remember any such statement."

The game starts long before 2:30 EACH Saturday the whistle blows and the stadium rocks, for we are in the midst of football season—with a hey-nony-nony and a rah-rah-rah. But football is no longer a simple affair in which 22 young stalwarts debate with cleats and vigor. The crowds are an integral part of it now. Today a game starts when thousands of cars head for a stadium and ends when they are home again. And, more and more, the same sportsmanship which marks the playing on the turf holds good as well as on the highway. The sports-loving public has come to consider the careless game-crowd driver an All-American menace. Yet this is a good time for everyone to resolve—or re-resolve that in football traffic this year he'll drive carefully. Football is certainly more fun in the stadium than in the hospital. It pays to play the rules—of both gridiron and road. Maybe you can pick the holes like Amby Schindler or Vic Bottari on a day when they're hot. But remember that—even on the gridiron—an off-tackle slant which goes into the wrong lane of traffic almost always ends in a pile-up.
