## DALADIER TO CALL PARLIAMENT FOR POLICY APPROVAL

### Strength to Override Radical Groups Predicted — Rumanian King Carol Also Emerges As Strong Man

(By The Associated Press) Premier Daladier of France, having crushed a labor attempt to wreck his government, announced today he would call a session of parliament December 8 and demand it approve his policies, vehemently opposed by labor.

He counted on a majority composed of his own moderate radical-Socialist party and groups further to the right. Government circles predicted he could muster strength enough to override opposition of Communists and Socialists.

Carol Strong Man In Rumania, King Carol, who also emerged dramatically as his nation's strong man, acted with similar speed to extend his power.

Daladier was undisputed master in France after crushing a one-day general strike in protest against his policies. He ordered a three-year state of "economic mobilization" to carry out his program and prepared measures to punish labor leaders who had challenged him.

With Corneliu Zelea Codresanu, Guard, and 18 of his followers killed, King Carol was firmly entrenched in Bucharest. A purge of terrorists was ordered to obliterate the Fascistic Guard.

Italians Spur Action Daladier's speed was believed in France to have been spurred partly by evidence of Italian ambitions for a slice of French territory. Shouts of "Tunisia! Tunisia!" in the Italian chamber of deputies yesterday were regarded by French officials as a possible overture to a Fascist campaign for control of France's North African protectorate.

In Rome, meanwhile, the Fascist grand council authorized measures to permit military conscription in an emergency among natives of Libya, Italy's North African possession bordering Tunisia.

In Canberra, Interior Minister John McEwen told the Australian house of representatives that Australia would admit 15,000 European refugees within the next three years to help alleviate the plight of German Jews.

War Fronts Quiet The warfronts in Spain and China were quiet. The British government announced a broad plan for mobilization of every household in Britain for voluntary national service in the face of a threat of war.

Sir John Anderson, lord privy seal and minister for civilian defense, also warned the house of commons that institution of a compulsory national register "may become necessary." He said machinery which would bring such compulsory mobilization into effect within three weeks of the outbreak of war was being prepared.
