## GENERAL MOTORS CLAIMS WALKOUT CONTRACT BREACH

DETROIT, Dec. 3.—(AP)—General Motors Corp. sent a "demand" to the CIO United Automobile Workers tonight for immediate cancellation of a strike in Fisher Body plant No. 1 at Flint, Mich., asserting the union had violated its agreement with the corporation by authorizing the walk-out.

Failure to obtain an early settlement of the strike might cause 20,000 General Motors workers to be idle next week. The cancellation demand was contained in a telegram sent by C. E. Wilson, General Motors vice-president, to Homer Martin, international president of the UAW, a few hours after Martin had announced the strike was "duly authorized" and denied that it violated the UAW-GM agreement.

The United States Department of Labor announced at Washington that James F. Dewey, its ace mediator, had been sent to Michigan to seek a settlement of the dispute.

A UAW sit-down strike in the Nash-Kelvinator Corp. plant at Kenosha, Wis., which closed other plants in Racine, Wis., and Milwaukee, apparently was settled during the day as the union repudiated the strike and voted to return to work Monday. The company agreed to re-send its order discharging 300 men who participated in the demonstration upon the assurance of the UAW local that members responsible for the strike would be penalized. The strikers demanded an increase in the piece-work rate.

Striking workmen at the Chrysler Corporation plant at New Castle, Ind., will return to their jobs Monday as the result of negotiations which ended when United Automobile Workers union leaders agreed to prevent eviction of unaffiliated factory employees.

Under the agreement 3600 employees will re-enter the plant, closed since Thursday after UAW workers denied admittance to the factory members of the Die Sinkers' union (AFL).

## RAIL, AIR MERGER AIM OF BRITISH

LONDON, Dec. 4.—(Sunday)—(P)—The Sunday Chronicle said today Britain's rail, road and air transport services would be coordinated into one vast utility company.

Sir John Reith, chairman of Imperial Airways, the newspaper said, would become head of the merger involving a capital of \$6,250,000,000. The Chronicle said one reason for the coordination was the government's campaign to bolster national defense and that another was to eliminate price-cutting competition between railroad services.
