BACKACHE, LEG PAINS MAY BE DANGER SIGN
Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisons from the blood. They help most people pass about 3 pints of urine daily. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging headaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder. Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over a half century. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Ginger Rogers In Sunday Picture

Ginger Rogers found it on a doorstep, and because David Niven, one of whose business it was anyhow, insisted that it must be here, she brought the babe to his house to deny any claim on it. Here's the butler, E. E. Clive, assuming that he has an intimate social problem of the "young master's" to deal with, tries to shoo Ginger away. It's but one of the many hilarious bits in the highly laughable comedy-romance, "Bachelor Mother," which comes Sunday to the Craterian theater for a three-day run.

A wee bit on the spicy side, "Bachelor Mother" has Charles Coburn—as Niven's crusty, outspoken father—and Frank Albertson heading the supporting cast.
