PEACE AND ORDER AIM OF RUSSIA IN MOVE ON POLAND

NEW YORK Sept. 18.—(AP)—State Supreme Court Justice Alfred Frankenthaler today awarded Marion Talley, former opera star, custody of her 4-year-old daughter Susan nine months of the year.

The father, Adolf G. Ekstrom, New York voice teacher, from whom Mrs. Ekstrom has been estranged almost since birth of the child, will have the right of custody for three months of the year.

Justice Frankenthaler, in his decision, upheld a referee's report. The mother petitioned for the custody of the child, alleging Ekstrom had demanded \$150,000 "for the settlement of matrimonial difficulties" and also the possession of the little girl. Ekstrom denied this.

By Witt Hancock MOSCOW, Sept. 18.—(AP)—Germany and Soviet Russia today gave what was interpreted as a strong hint of intentions to create a small Polish buffer state when their invading armies finishing conquering Poland.

A joint Soviet-German communique was issued declaring the intention of their armies was to help the Polish people "reconstruct conditions of their state existence."

"These troops do not pursue any aims which are against the interests of Germany or the U.S.S.R. or against the spirit and letter of the Soviet-German non-aggression pact," said the communique.

"The mission of the troops is to bring order and peace to Poland." The official German news agency issued a substantially similar announcement in Berlin.

The joint communique was broadcast from Russian radio stations as Soviet troops moved deeper into war-weakened Poland.

Poland ordered her ambassador, Wladislaw Grzybowski, to leave Moscow in protest against the Soviet march into Polish territory.

Word from the Red army general staff of a constantly narrowing wedge between Russian and German troops revived reports an armistice in the European war will be proposed as soon as Poland's fate is determined.

Such a proposal, diplomatic sources said, might be made by Russia or Germany's axis partner, Italy.

With the first move from the east that pinned Poland in a vise yesterday, Moscow informed Poland's allies, Britain and France, the Soviet Union would follow a neutral policy toward them.

A general staff communique said the Russians defeated several "weak advance units and reserves of the Polish army" at points where there was resistance.
