

LIVINGSTON GIVES UNIVERSITY UNIQUE PHOTO COLLECTION

UNIVERSITY OF OREGON, Eugene, Sept. 20.—(Sp.)—The delicate beauty

of the abundant Oregon wild flowers, the majesty of the trees, and the riot of spring and fall colors of field and forest may now be viewed at leisure by University of Oregon students who frequent the library "browsing room."

A gift of more than 1,000 photographs, taken with great skill and faithfully colored, has been made to the university botany department by A. R. Livingston of Medford. The collection, all mounted and bound, includes pictures from Colorado and California as well as Oregon.

The collection is especially valuable, declares Professor Frank P. Sipe, head of the botany department, since most of the pictures were made in the field, and Mr. Livingston then returned there to catch the delicate hues in water color. This exact reproduction makes the photographs more than usually useful for scientific purposes as well as for pleasure of flower lovers.

Mr. Livingston began his collection more than 30 years ago, and undoubtedly has compiled one of the finest groups of pictures of the type

ever assembled. Mr. Sipe states. The books have been placed in the "browsing room," a part of the library set aside for students interested in good literature and art, and are expected to attract a great deal of interest.

SEATTLE, Sept. 20.—(AP)—Mrs. Martha C. Leftcovich, 84, second cousin of Abraham Lincoln, died today. She was the daughter of Mrs. Nancy Robb Norman, a cousin of the civil war president. Mrs. Harley Gilbert, Houston, Tex., two other daughters and a son here survive.
