McMINNVILLE, Sept. 30.—(AP)—Dr. A. G. Noble, of McMinnville said in a civic club address yesterday "Canadians see the United States already at war with Nazi Germany."

In his interpretation of the dominion's public opinion during a visit to British Columbia, Dr. Noble reported Canadians believe the United States was bound to stand by President Roosevelt's promise the country would go to war to halt North American aggression.

Many Canadians, he said, expressed the opinion a blow struck at England was also an attack on Canada, a part of the British empire.

SEN TAFT FEELS MAIN OBJECTIVE TO RETAIN PEACE

VIENNA, Ill. Sept. 30.—(AP)—Senator Robert A. Taft of Ohio said today that Americans wishing to remain at peace after 1940 "had better trust the administration of their foreign policy to the Republicans."

In an address composed for a four-state Republican rally he aligned himself against proposals for an adjournment of politics in the fact of the European crisis.

"There are some who say that politics should stop at the water's edge, and that the nation must present a united front," said Taft, avowed candidate for the Republican presidential nomination. "I do not at all agree."

"I do not believe that any position of the Republican party should be dictated by partisanship... but if the president should advocate a policy, for instance, which leads this country towards war, I would feel it not only my right, but my duty, to oppose it as energetically, and as publicly, as possible."

"There is no principle of objection to the executive in foreign policy," Taft was the principal speaker at a rally of party members from Illinois, Indiana, Missouri and Kentucky. His address was broadcast over the NBC radio network.

"War cannot conceal the dangers and costs of new deal policies," he asserted. "Furthermore, it is just as important for the Republicans to point out the danger of new deal policies, and to offer their own constructive alternative policies, as it ever was before."

"While the people's attention is diverted, and using the war itself as an excuse, we will continue to see the inner circle of the new deal proposing more government dictation of business and individuals, and more and better deficits."

"I find a few Republican leaders discouraged by the rise of these new issues of foreign policy. There is no reason for such discouragement, provided the Republican foreign policy is based on the same sound Americanism as its domestic policy."

"The welfare of this country and its people depends on keeping out of the European war, and the people are determined that we shall do so. On that issue the Republicans occupy the strong position. They are the peace party."

"Taft said President Roosevelt was a recent and half-converted convert to the cause of peace," and added: "If the people of this country wish to remain in peace after 1940, they had better trust the administration of their foreign policy to the Republicans."
