YOUNG BOURBONS HEAR ADDRESS BY U. S. PROSECUTOR

In an interesting address last night at the Hotel Medford, Jackson County Young Democrats and friends, were told of the workings of the United States Department of Justice by Carl C. Donagh, United States attorney of Portland.

Mr. Donagh's speech was in conjunction with a series of educational-in-government programs being presented by the young bourbons. Delving into the various agencies of the Department of Justice, Mr. Donagh said that the department was organized at the beginning of the United States government in 1789, one of six departments, and as the federal government increased so did the department. He explained the department as being the clearing house for all federal violations.

Mr. Donagh mentioned numerous phases of the department with which he is associated and told of their various functions. Among those which he explained were the Federal Bureau of Investigation and the many rackets which come under federal jurisdiction. He paid tribute to Willis Wood, F.B.I. officer located here, as being one of the most capable men in the department. He stated that only two kidnaping cases remain unsolved in the United States today among them the well known Mattson case. The speaker said that 22,000 leads had been investigated in the Mattson case and that he firmly believes that the case will be solved.

Mr. Donagh in recalling some department statistics said that 82 per cent of criminals are repeaters and that the largest single group of persons committing crimes are 19 and 20 years of age. He also explained that 96 per cent of crime cases are convicted by the government and went on to tell of the vast fingerprint bureau in Washington, D.C., which contains one hundred thousand prints.

Mr. Donagh is in this city to have charge of cases appearing before the federal court.

Among out-of-town visitors at last evening's session were Tom Miller, former district attorney in Grants Pass for twenty years; Carl Massey, Grants Pass postmaster and Urschel
