P. T. A. Activities

During the month of October all persons interested in child welfare will be invited to join the Parent Teachers association. This month has been officially set aside as membership month. The national organization numbers nearly two and a quarter millions. In the forty-two years since its beginning it has become a great power in promoting intelligent cooperation between the home and the school.

The first object of the organization is to promote the welfare of children and youth in home, school, church and community. To raise the standards of home life, to secure laws for the care and protection of children and youth.

Try to be the first to join your association, believe in it, make it worth while, give of your best to it, make it fill a real need and so help it to grow in interest as well as membership.

A membership in the Parent Teachers association is the grandest start we can make in demonstrating an interest in our children.

The Medford council of the Parent Teachers association had a very enjoyable dinner at the home of Mrs. A. E. Brockway on Tuesday, with a program at the table. During the business session the month of October was officially declared the "Membership Drive Month" for all the schools in this city. There were about thirty members present.
