## FRIGHTENED FARMER DIES OF EXHAUSTION FROM MENTAL UPSET

FULTON Mo., Oct. 12.—(AP)—Raymond Soukup, 26-year-old farmer, went into his field to cut corn stalks at night. Excessive heat had made day-time labor too strenuous. He reached the end of his field, which borders a cemetery. Then, Soukup related:

Several white-garbed figures popped up. Two, moaning wildly, leaped toward him. Soukup was too frightened to run. His parents discovered him, still hysterical, hours later.

That was Sept. 22. Soukup died yesterday at a state hospital. A physician who treated the young farmer said death was due to maniacal exhaustion resulting from an unusually severe mental disturbance.

Soukup was in good health until his fright. A week later Raymond was adjudged insane and committed to the hospital.

No investigation of the death was planned on the basis of information available to the county prosecutor today. It was believed several boys perpetrated a prank but their identity was unknown to officials.

## GERMAN PATROLS DROP EFFORTS TO CAPTURE WEST LINE PRISONERS

PARIS, Oct. 12.—(AP)—German patrols were reported today suddenly to have abandoned attacks in which they had failed in five days to capture any French prisoners.

Military advisers said the French army was keeping sharp watch on the front, wondering why on a "magnificently clear night" it was calm except in the Warndt forest region where a commando said small enemy patrols were repulsed.

French observers speculated on whether the Germans intended to launch a major offensive. They said the Germans, from their attempts to take prisoners despite adverse weather, appeared equally anxious to know French intentions.

The reported halt in the German raids was ascribed to the possibility that they were too costly.

(A German supreme command communique in Berlin said the French yesterday blew up Rhine river bridges at Wintersdorf, Brelsach and Neuenburg, linking Alsace-Lorraine and southern Germany).

The Germans, French reports said, were sowing woods and hills of the front with mines and traps of all descriptions, compelling the French to advance only "step by step" with utmost caution.

There's a story about a Samaritan

WHO among us has never stood beside some country road and a car that wouldn't run—and felt a surge of gratefulness when some friendly stranger stopped to offer a tow, a spot of gasoline, or a knowing touch on the carburetor?

We wouldn't have starved there, or frozen to death, or met with any supreme calamity. But we could use a bit of help. And the time has rolled 'round once more when everyone should remember the thousands who need aid from our Community Chests.

They, too, will neither starve nor freeze. Government agencies will see to that. Yet they need help along the road—help for mothers, help for children, the kind of help which Community Chest agencies still are called upon to provide.

Throughout the West, it is the season when Community Chests conduct their drives. These should not be thought of as the solicitation of money, but rather as the storing up of kindly, vitally needed services—enough to last another year. This Community believes in and actively supports Community Chests wherever it is a part of the community. And it hopes that you do, too.
