## Better Light for Better Sight

Keep those bright eyes **BRIGHT**

Young eyes may be injured as quickly by poor light as older ones. School children especially need GOOD light—it's as important as enough rest and sleep and good food. Schools these days are making every effort to provide the best of light—the importance cannot be too strongly emphasized. The job of safeguarding children's eyes cannot be successful UNLESS they play, read and study under proper lighting conditions AT HOME. Plenty of glareless light is inexpensive eyesight insurance!

Modern Fixtures At Low Prices

Your dealer is now featuring modern fixtures—surprisingly inexpensive! Pin-up lamps and adapter base models as pictured at the left—ceiling fixtures, floor and study lamps. See them TODAY!

There is a SURE TEST for the seeing value of light—the simple little gadget known as a "Light Meter" does the trick quickly, accurately! We will be glad to test the light in YOUR home without charge.
