

PORTLAND COUPLE HURT IN SMASHUP NEAR GOLD HILL

Vernon R. Churchill, 51, of Portland, northwest manager of McCann-Erickson Inc., national advertising agency, and his wife were confined in Community hospital today with injuries they received about 3 o'clock yesterday afternoon when their automobile was forced off the Pacific

highway a short distance north of Gold Hill. Their car, forced onto a soft shoulder of the highway by an unidentified motorist, skidded and struck a large rock in a ditch alongside the road. Mr. Churchill, widely known in northwest newspaper and advertising agency circles, was the more seriously injured, his left arm being broken between the shoulder and elbow and his forehead badly cut. His condition, hospital attendants said, was not critical. Mrs. Churchill, also 51 years old, suffered a cut on her head and severe bruises and shock. She was not seriously injured, hospital attendants stated. Mr. and Mrs. Churchill, who

reside at 6100 S. E. Reed College Place, Portland, were en route to San Francisco, where Mr. Churchill was to confer with officials of his company. Mrs. Churchill was driving the car at the time of the accident, while Mr. Churchill was asleep. They were taken to the hospital in the Perl ambulance. Fourteen percent of traffic accidents at intersections during the first eight months of 1939 resulted in injuries or deaths, figures compiled by the safety division of the secretary of state's office reveal. There were 10,299 accidents at intersections, 1,470 causing deaths or injuries. Closing time for Too Late to Classify Ads is 1:30 p. m.

NAVY IS TOPIC AT 20-30 CLUB MEET

Activities of the United States navy were the subject of an interesting program presented at last night's regular weekly dinner-meeting of the 20-30 club in Hotel Jackson. Chief Quartermaster George E. Patterson, navy recruiting officer for the Medford area and Chief Machinist Mate Ernest A. Roessel showed four reels of sound pictures depicting the duties and work of auxiliary ves-

sels comprising the refueling units, repair ships and hospital ships of the fleet; fleet maneuvers and flight formations of aircraft. Merritt Hittie reported on the party held last Saturday night at Chalker's Motel in honor of newly-married members of the club. Neville Biden reported on the activities of the Sea Scout Ship "West," a 20-30 club project. President Gene Monaco presided. Buried Again Cairo (AP)—The sarcophagus of King Tutankhamen and the jewelry and furniture found in his tomb early in the century have been buried again—in this time in bombproof shelters.

MRS. HALLEY, 88 FALLS IN STROKE

Mrs. Addie Halley, 88, owner of the Palace hotel at 30 South Central avenue, was in a critical condition in Sacred Heart hospital this afternoon following a bruising fall down the hotel stairs after she suffered a stroke. Her attending physician said she sustained a severe gash on the back of her head, which may prove to be a skull fracture, and several body bruises.

She is unconscious and hasn't been disturbed, the doctor stated. No x-ray pictures have been taken because of her condition, which was described by the physician as "critical, due to a combination of the stroke and head injury." The accident occurred about 10:30 this morning. Mrs. Halley had almost reached the foot of the long flight of stairs when she suffered the stroke and fell the remaining distance to the street, her physician explained. Immediately after she fell the doctor was called, and the Perl ambulance was summoned to rush her to the hospital. Closing time for Too Late to Classify Ads is 1:30 p. m.

Speak Of The Deer—
Hoquiam, Wash. (AP)—A New York woman, traveling in this country on the fringe of the Olympic peninsula, leaned up to a bus driver here recently and remarked: "I understand wild deer run across the roads out here." Before the driver could answer a doe and a fawn were picked up by the bus' headlights.
