POPE CONDEMNS STATES SEEKING POWERS OF GOD

Absolute Autonomy Belongs Exclusively to Supreme Maker, Encyclical Warns

By Richard G. Massock

Castel Gandolfo, Oct. 27.—(AP)—Pope Pius XII today condemned governments which assume "that absolute autonomy which belongs exclusively to the supreme maker" and offered consolation to dismembered Poland.

In the first encyclical of his reign the pontiff, after recounting the failure of his efforts for peace, also pleaded for settlements at the end of the present European war which would avoid the errors of past treaties which failed to bring lasting peace.

Blame Placed

He blamed denial of "the authority of God and the sway of his law" for the rise of governments which make the state "the last end of life."

The war, he said, would fail to impose a decisive change in conditions—unless followed by treaties of peace "animated by justice and by equity toward all."

He warned "there is danger lest settlements be born in such conditions" as "sacrifices and sufferings."

AMERICAN INCOME UP TWO BILLION

Washington, Oct. 27.—(AP)—Americans received $2,000,000,000 more in wages, dividends and other forms of income in the first three-quarters of this year than in the similar 1938 period, the commerce department estimated today.

The total for the nine months was $50,789,000,000. The department said if the same pace continues until the end of the year, the 1939 total will be $68,600,000,000, compared with last year's $66,275,000,000.

The year's average was brought up by a boost to $6,012,000,000 in the estimated September earnings of the population. The gain last month was attributed to increased farm income resulting from higher farm prices, higher dividends and higher industrial payrolls, although the latter increase was offset somewhat by decreased relief payments.

Japs Buy Pulp

San Francisco, Oct. 27.—(AP)—Rayonier Inc., announced today it had received orders from Japanese customers for 21,500 tons of dissolving pulp. Observers here attributed the placing of the new orders, the first since June, to the European war, as Japan had been importing pulp from Scandinavian countries.

Strictly Neutral

Basel, Oct. 27.—(AP)—President Philipp Etter guards Swiss neutrality—even when it comes to free cigarettes. Visiting Swiss frontier posts today, he gave cigarettes to his soldiers, passed the pack across the line to French troops guarding the pass, and then made the same gesture to Germans patrolling their section of the border.

WHEAT SURPLUS MAY COME HANDY

Washington, Oct. 27.—(AP)—America's 318,000,000-bushel wheat surplus, heretofore something of a headache to federal farm officials in their attempts to improve grower prices, promises to gladden the hearts of those same officials.

Because of serious drought conditions in the winter-wheat belt of the midwest, a short crop next year appears a strong possibility. Those conditions were described by agriculture department officials as "about as acute" as in the fall of 1932, which proceeded the harvest of the smallest wheat crop in more than 20 years.

The 1933 crop totaled 551,000,000 bushels, or far short of the 675,000,000 bushels needed to supply American needs.

Thus, a small crop next year would lead farm officials as well as farmers and consumers to welcome the surplus. Because of a series of short crops between 1933 and 1936, the United States found it necessary to import wheat.

Homemade refreshments will be available throughout the evening. A very nominal admission charge will be made and everyone is assured an enjoyable evening.

Master Howes instructed patrons and Lucille Rosecrans led in games. Edith Howes, Everett and Lucille Rosecrans were selected to attend recreation meetings.

Grange "go-to-church" Sunday was observed October 22. A pot luck dinner followed services. About 25 Grangers attended.

Refreshments were served by the John and Charles Gray families and Beulah Nathan.

Lumbering Drops

Portland, Ore., Oct. 27.—(AP)—Reports from 118 mills showed last week's new business of 64,461,000 board feet of lumber represented a decline of about 21,000,000 feet from the previous week, the Western Pine association said today. The volume was normal after several weeks of "unusually high levels."

Bargain

Reading, Pa., Oct. 27.—(AP)—A junk dealer thought he was getting a bargain when he bought a collection of scrap metal at a police auction of unclaimed articles. Politics Future.

Cape Town.—(AP)—Women have a definite place in the future of politics of South Africa, Dr. A. Marais Moll, M. P., insists. Members of parliament have to listen to views and wishes of women constiuents but there are no women on boards which consider legislation. The wheat control board and the butter board are two important bodies where a woman's opinion would be of especial value, he said.
