GERMANY LOSES IN BLACK TOM CASE

AMERICANS WIN FIFTY MILLIONS SABOTAGE AWARD

German-American Mixed Claims Commission Seals Finding of Last June 15

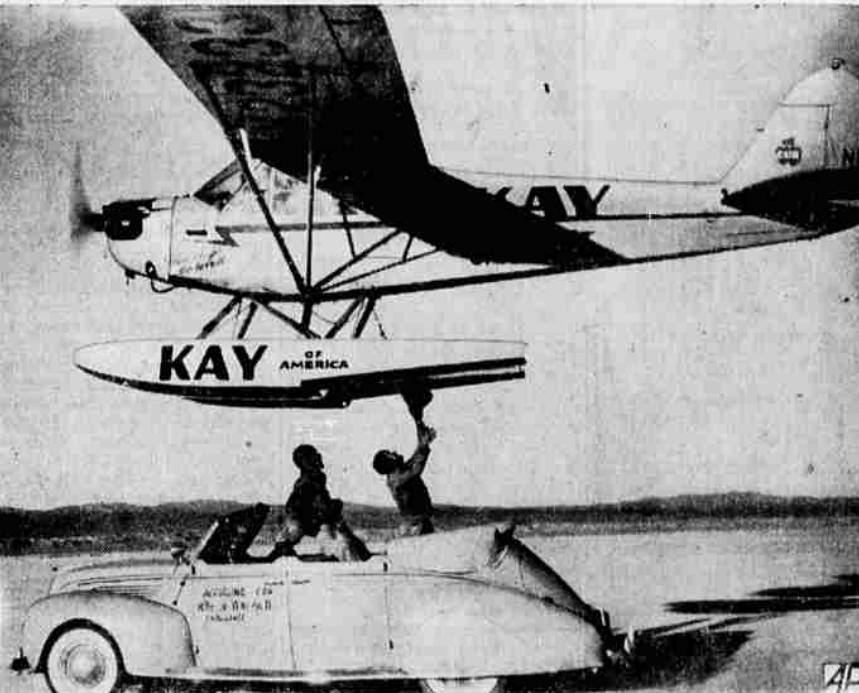

Washington, D. C., Oct. 30.—Study of the Dies committee list of 600 federal workers who are members of the League for Peace and Democracy fail to reveal a single one from Washington or Oregon. Also it fails to disclose many so-called "typical" American names; mostly the names have a distinctly "foreign" flavor, yet every person on the list is a citizen, otherwise he or she could not be on the government payroll.

Washington, Oct. 30.—(AP)—The German-American mixed claims commission disregarded an emphatic Berlin protest today and awarded approximately \$50,000,000 in claims arising from the disastrous Black Tom and Kingsland, N. J., sabotage cases of 1916 and 1917.

The awards were made by Umpire Owen J. Roberts after the commission had found on June 15 that imperial Germany was responsible for the munitions explosions in the New York port area before the United States entered the World war.

The 25-year-old fliers returned to mother earth yesterday afternoon after 30 days and 6 hours aloft. Their record of 726 hours far eclipsed the former standard

of 653 hours, 33 minutes, established by Fred and Al Key near Meridian, Miss., in 1935. They winged past that mark last Thursday.

He said he believed the bullet struck an antler.

EVEN California's Jerry Voorhis, himself a member of the liberal bloc in the house, expresses his belief that the league is controlled by communists.

Chief investigator of the Dies committee, in his days as a "fellow traveler," assisted in organizing the league as a communist front, and so testified under oath. Earl Browder testified it was a "transmission belt" for the party line.

MEDFORD SHOWING KEEN INTEREST IN SPECIAL ELECTION

Heavy Vote Predicted On Proposal to Buy Olds Tract for Park Improvement

Tomorrow Medford citizens will go to the polls to vote on what has developed into the most burning issue to face the people of this city in years. If talk is indicative of balloting, the election will bring out the heaviest vote on a purely local question in many a day.

The question involved is whether the citizens want to authorize a bond issue not to exceed \$30,000, to acquire land and to develop the property into a park. While the ordinance calling the special election does not specify in what proportion the funds would be expended, it is generally understood that \$20,000 would go for the purchase of the land and \$10,000 to its improvement and development.

\$30,000 Bond Issue.

In the words of the ordinance, citizens of Medford will vote on the proposition to authorize "the issuance and sale of not to exceed \$30,000 bonds of said city to provide funds to acquire real property for park purposes and to landscape, level, grade, plant, equip and otherwise improve the same, and acquire equipment, facilities and machinery for such purposes."

The property proposed for park purposes is known as the Olds tract. It is a tract of about 17 acres lying on the east side of Bear creek between Main street and Jackson street.

Rumor Denied.

Earl Tummy, agent for the Olds estate, today denied positively an asserted rumor that the property could be acquired for \$10,000, leaving \$10,000 for "grat." "I know positively that it has been a terrific job to persuade the Olds' heirs to reduce the price of the property from \$30,000 to \$20,000," Mr. Tummy declared. "There is not one cent of grat involved. Besides, if the proposition is approved, the deal would go through a local bank where a complete check of the entire transaction would be made." Mr. Tummy related that the owners have been contemplating the building of stores on the East Main street frontage and the sub-dividing of the remaining part of the land.

The Mail Tribune office will be open Tuesday night to give returns on the park bond election. The polls close at 8 p. m. and it is expected the result will be available before 10 o'clock.

FOUR MORE SHIPS ADDED TO LIST IN WAR DESTRUCTION

By the Associated Press Sinking of four more ships, three of them British, today sent the known loss to all nations to 102 vessels with a gross tonnage of more than 411,278.

Loss of five seamen aboard the 7976 ton Cunard White Star line freighter Malabar from which 70 were rescued sent the death toll to at least 1850.

England's known losses rose to 56 ships with the Malabar sinking, destruction of the fishing trawlers Saint Nidan and Lynx II (Germany claimed last Saturday to have destroyed at least 115 merchant ships.)

The crew of 10 on the 250-ton fishing trawler Lynx II were rescued as was the crew of 15 on the trawler Saint Nidan, 565 tons, both destroyed in the North Sea.

An unidentified Norwegian steamer sank in the North Sea yesterday after 30 of her crew were saved. It was neutral Norway's 9th loss in the current war and the 30th suffered by neutral countries.

The newspaper Aftenblad of Stavanger, Norway, reported the 3618-ton Norwegian freighter Varangmalm sunk by a mine in the North Cape to Antwerp with a cargo of iron ore. The crew of 30 was said to have been taken to Grimsby, England.

NORWAY REPORT IS FIRST SINCE LEAVING RUSSIA

German Prize Crew Headed Ship for Undivulged Port Late Today Is Revelation

Stockholm, Oct. 30.—(AP)—Reports from Norway today said the United States freighter City of Flint, released from a Soviet port to her German captors, had departed from Tromsø, Norway late this afternoon.

These reports were the first clue to the whereabouts of the American vessel which was taken to Murmansk, Russia, by a German prize crew after her capture while carrying a miscellaneous cargo to England.

The City of Flint was said to have sailed at 4 p. m. (7 a. m. PST) from Tromsø, the northern Norwegian port where the captured ship halted briefly on its northward journey to Russia more than a week ago.

Tromsø is about 500 miles from Murmansk and more than 800 miles from Hamburg, mentioned as the probable destination of the German prize crew.

Tromsø newspaper sources in response to an inquiry about the City of Flint said they were forbidden by officials to give any information. (The Norwegian government has prohibited the disclosure of the position of ships at sea during war time.)

BERLIN, Oct. 30.—(AP)—The American freighter City of Flint apparently was the quarry today in a grim game of hide-and-seek somewhere in the North Atlantic, according to the best available information here, but German officialdom was silent.

Unofficial sources said the United States government-owned vessel still was in the hands of a German prize crew and attempting to dodge the British blockade on a run from Murmansk, Russia, to a German port.

But officials said until the City of Flint docks, "there will be no information about this ship."

RUTH JUDD HUNT TAKES NEW TURN

Phoenix, Ariz., Oct. 30.—(AP)—The hunt for Winnie Ruth Judd, elusive mad killer who escaped last Tuesday from the Arizona state hospital, concentrated in this vicinity again today when Sheriff Lon Jordan received a mysterious telephone call saying the trunk murderer had escaped from captors who were returning her to the asylum.

Jordan disclosed that someone called his office before daylight that they had found Mrs. Judd and were nearing the hospital with her when she jumped from an automobile and disappeared into the dark.

The sheriff did not know the identity of the person calling but he attached enough importance to the report to send deputies to renew the search in the hospital vicinity.
