

CANNERY RAZED BY BENICIA FIRE

Benicia, Cal., Nov. 2.—(P)—Fanned by a brisk wind, the biggest fire in the life of this historic old town raged for five hours before it was checked early today after it had destroyed a cannery, two warehouses and several old buildings and wharves along the waterfront.

Fire Chief William Davena estimated the damage at \$200,000. Cause of the blaze was unknown.

The fire started in a warehouse and spread quickly to the Benicia Canning company plant. The flames destroyed the three-acre cannery building, two warehouses of the American Can company, and then raged on a half-mile front along the waterfront, burning two \$30,000 fishing boats to the waterline.

W. U. MUST REFUND EMPLOYEES' DUES

Washington, Nov. 2.—(P)—The Western Union Telegraph company has been ordered by the national labor relations board to disestablish its association of Western Union Employees as a bargaining agency and reimburse employees for dues deducted from pay envelopes since July 5, 1935.

The board order, issued last night, was based on a finding the 20-year old association was "supported and dominated" by the company.

The board's decision did not disclose the amount of due to be repaid but Joseph P. Selby, vice-president of the American Communications association (CIO), said in New York that it would be more than \$500,000. The case was filed by the A.C.A.

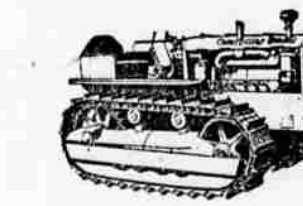

Ladybug Catcher
Seattle, Nov. 2.—(P)—W. C. Peach of Wenatchee, whose testimony automobile accident injuries impaired his earning ability as a professional ladybug catcher, today had won a \$4,000 superior court damage award from Walter E. Tipton, Seattle automobile supply salesman.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisons out of the blood. They help most people pass about 3 pints a day.

If the 18 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 18 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Here's Some "HORSE-SENSE" About HORSE POWER

HORSEPOWER isn't much good if you can't use it. And by use I mean—put it to work WHEN you want it—WHERE you need it. For example, the "Caterpillar" Diesel D2 Tractor turns more than 80% of its engine horsepower into drawbar pull. That's because of its simple, direct transmission and the positive grip of its tracks on all kinds of ground.

Try one and you'll see what we mean by "horsepower you can USE."

Nazis Leave Mystery State

Germany's annexation of Polish territory, which returned to the Reich Pomorze, Poznan and Silesia left unexplained the fate of some 50,000 square miles which have been occupied up to the Soviet frontier. Area shaded by broken lines on the above map indicated the territory annexed, and represents a return to Germany of the area taken from her by the Versailles treaty. Heavy line through Poland is the western frontier of Soviet Russia.

OF COURSE, none of the measures put forward by the house Republicans will be enacted (the Democratic majority will see to that), but the proposals will furnish campaign material in the primaries next year and, presumably, will be reflected in the platform of the Republican national convention. Republicans are convinced that they have some good talking points, such as opposition to trade agreements, as these treaties have, in many instances, sacrificed agriculture to aid foreign competitors.

FORECAST of how the Northwest delegation in the house will vote on the so-called neutrality bill: Washington state, six votes for the bill; Oregon, one vote for and two against. The votes will be cast on party lines.

President Roosevelt does not like the neutrality bill entirely; many concessions had to be made from time to time to eliminate opposition, but the president was most anxious to have the mandatory embargo repealed, and this he was granted. Original idea was to repeal the embargo and then authorize the

DENTAL AD RULES HELD ARBITRARY

Portland, Nov. 2.—(P)—Circuit Judge James Crawford said after a hearing yesterday that some of the rules governing advertising by dentists were arbitrary and unreasonable and that he would issue a temporary restraining order against their enforcement.

He said the state board of dental examiners had authority to promulgate rules and regulations but that some of the recent ones were beyond its authority.

A temporary injunction against the rules was asked by Dr. Harry Semler of Portland.

PLAN NO CHANGE IN OLD AGE AID

Portland, Nov. 2.—(P)—Old-age assistance payments will be held at present levels the rest of the term, the state public welfare commission announced yesterday.

The commission explained "old age assistance expenditures are absorbing a disproportionate share of the public welfare funds."

No hardships will result from emergency petitions, Chairman J. H. Luhn said, because new claims will be handled on an emergency basis from the general assistance funds.

PLAN PAJAMA PARADE ON HOMECOMING EVE

Eugene, Nov. 2.—(P)—Old-time freshman pajama parades on homecoming eve, banned with more strict enforcement of campus activities, will be revived this year the night before the Oregon State college game.

Freshman men will be required to don their loudest night clothes and parade on the campus and downtown streets during the annual noise parade. The catch is, mothers will be glad to learn, is that they must be fully dressed underneath the pajamas!

Airplane Store
New York, Nov. 2.—(P)—On that part of fashionable Park avenue where the showrooms are filled with boats and automobiles priced for the coupon-clipping trade, an airplane store—catering to the private owner—was open for business today.

Wall St. Report

New York, Nov. 2.—(P)—Aircraft and a few specialties gave a fair rising performance in today's stock market while numerous leaders either stood still or backed away under the lightest of selling pressure.

With prospects for quick passage of the arms embargo repeal in the house, aero issues, which stand to benefit almost immediately through shipments of planes to European belligerents, tilted forward in the tail-end of the session, with Glenn Martin and Curtiss-Wright stepping into new high territory for the year. Other stocks, however, were unenthusiastic by the brightening chances for the administration's neutrality measure.

Transfers approximated 850,000 shares.

San Francisco, Nov. 2.—(AP-USA)—Butter and cheese unchanged.

Sacramento, Nov. 2.—(AP)—Churning cream butterfat: first grade, 35 1/2; second grade, 33 1/2.

Glenn O. Taylor today confirmed that he had resigned as a deputy clerk of the U. S. district court after serving in that capacity for about 15 years. The resignation was effective yesterday. Keys to his office in the federal building were delivered to Postmaster Franw DeSouza, custodian.

Mr. Taylor said he had no information regarding a probable successor. The deputy clerk's salary is nominal and the work now amounts to a considerable volume of details. Deputies are appointed by the chief clerk, who at present is G. H. Marsh, Portland.
