He served as pastor at a number of places before coming to Medford.

Paris, Nov. 8. —(P)—Two unidentified planes were reported by military sources today to have been fired upon when they dropped propaganda leaflets on the Paris region in early morning darkness yesterday.

It was not determined whether the planes were German or French machines flown by French communists.

On the military front, the war ministry reported "revival of activity on the part of contact units," and "local artillery actions."

Unofficial reports described an aerial battle Monday as an even greater French victory than the government communique indicated at that time.

They said 13 Frenchmen, flying American Curtiss planes, battled 43 German planes in three different engagements, bringing down 12 or possibly 13 Germans without loss to themselves.

The communique had said nine French planes downed nine out of 27 Germans.
