Ham and Eggs Is Done

As everyone knows you can't make an omelet without cracking eggs. But the people of California yesterday made an omelet out of the Ham-and-Egg proposal...

BY a vote of nearly two to one, the people of California said "no," it can't be done, and shouldn't be done!

BUT this is not the case. And none know this better than those who maintain it,—the shrewd and practical leaders of the "something-for-nothing" crusades.

WHICH sustains a contention frequently made in this department, but often denied. That these various and sundry proposals to raise ourselves by our financial bootstraps...

AND while everyone knows there are thousands of perfectly honorable and honest citizens, who sincerely believe in these various pension schemes to bring on the millenium...

The Lessons They Taught

WE trust this double defeat, in widely separated parts of the country, will do something to clear the atmosphere, and induce some of our fellow citizens who are disposed to spend most of their time, looking for the pot-of-gold-at-the-end-of-the-rainbow...

WE realize how difficult it sometimes is to remove a delusion deeply planted, carefully nurtured, and even more important one that answers a genuine need.

But as Governor Olson of California said: "The result of yesterday's election emphasizes the necessity of evolving a practical and adequate system of old age security that will WORK."

SO we hope very much that those who still believe, that transferring money from one pocket to another is a method of increasing wealth, will study the results in California and Ohio carefully, and learn the lesson they so plainly teach.

Not Smart, Just Dumb

CERTAINLY if the delightful concert at the Holly last night, doesn't assure the success of the remainder of the current musical "series", then nothing can.

BEFORE the gifted Viennaese, Ossy Renardy appeared, the complaint was frequently heard that the series represented an effort to put over two unknown and inferior artists, on the prestige and popularity of one,—Marion Anderson, the famous colored contralto.

the series, who knew better. But judging by the ticket sales a certain and sizable skepticism remained. Now those who really appreciate good music and failed to attend last night's concert are kicking themselves all over the townsite and with good reason.

By a larger vote, approximately 3 to 1, the people of Ohio said the same thing.

The usual post-election alibis and squawls will be heard from the disgruntled leaders of the defeated forces.

Washington, Nov. 8.—Painless taxpaying is as difficult to conceive as painless dentistry, but it is the cherished dream of Undersecretary of the Treasury John Wesley Hanes.
