Miles of Wear in Every Pair

Of "Mann's Own Brand"

CHIFFON HOSIERY. Proved by Actual WEAR TEST!

For the past several years, the question of service from chiffon hosiery has been a much discussed subject among merchants who are selling hosiery to their customers everyday, as well as among the customers themselves. How much wear may I expect from this or that pair of chiffon hose? You hear it every day, and Mann's decided to do something about it. A test was made, an actual wear test, in both walking miles, with the aid of a pedometer, and hours of service. These tests are now completed and Mann's truthfully say, that with proper care, there are miles and miles and weeks and weeks of wear in chiffon hosiery. But remember, we are speaking of Mann's own brand, three thread chiffon hose, made expressly for us, by Nolde and Horst. Two pair of these fine stockings, worn under severe conditions, such as walking to work and other hazards that enter into the life of a pair of hose, actually lasted 1013 hours without a break. They were laundered before wearing and each night after a day's wear. Another pair, given the pedometer test, lasted 97 miles without the slightest flaw. Such wear, such service, from a \$1.00 three thread chiffon stocking, is indeed proof of the quality found in Mann's own brand hosiery. You, too, may expect the same results when you buy your hosiery from Mann's. Ask the girls in the Hosiery Department, who made the test, to tell you more about it. It's an interesting story.
