Reading, 'Riting, and also some 'Rithmetic

VERY OFTEN thoughtful people write in to thank us for the Standard School Broadcast as an outstanding help in the education of their children.

It's not a very spectacular thing, of course, to pay your taxes. Yet when we pay our taxes we assist in the support of schools in hundreds of school districts.

The 'rithmetic of the situation shows that while our contribution to school costs is generally a fraction of the total, in some districts our share runs 5-6ths, 14-33rds, and even 10-10ths.

We'd like to say that we are helping educate a million school children—or two or five million. But, frankly, we don't know how many.

P. T. A. Activities

"I don't know what to do with my youngsters. They quarrel all the time. I have punished them in all the ways I ever heard of, but nothing does any good. I am almost at my wits' end." Two women were talking on a street corner. "You should have come with me to the Parent-Teacher meeting yesterday," replied her companion. "One of the members read an article from a recent National Parent-Teacher Magazine showing that a certain amount of quarrelling with brothers and sisters helps knock off rough corners. Getting on with a brother or sister is the beginning of getting on with a husband or wife. There is nothing like a big family to polish children so they are fit for polish society."

SEEK ANTI-PICKET LAW FIGHT FUND

Portland, Nov. 27.—(A)—The president, vice-president and Portland board member were authorized Saturday by the State Federation of Labor executive committee to raise money to continue the fight against the Oregon union control law.

Labor has appealed the decision of a three-judge court upholding the act's constitutionality and a brief will be filed with the state supreme court soon. The law restricts picketing, union boycotts and opens union books to inspection.

The committee decided to oppose a change in the Oregon primary date from May to September and passed a resolution protesting an announcement by Thurmond Arnold, federal trust-buster, that labor organizations were subject to prosecution under the anti-trust laws.

Open Pet Graveyard

Portland, Nov. 27.—(A)—High on Portland's west hill, Marcia Dundorf, Diana Cook-ingham and Molly Blair, each 12, have opened the "Summit Animal Graveyard—Funeral and Flowers \$0.5."

The graveyard is in a vacant lot near Marcia's home. So far only one kitten, a fuzzy little kitten with a white nose, lies buried there. Two sextons, small boys, agreed to inter a puppy there, but dug the grave a little bit off the property line, so, strictly speaking, the puppy's grave is not in the cemetery.

FOR Children's SNIFLES

CARE your child's sniffling, sneezing, and watery nostrils due to colds by inserting Mentholatum in his nostrils. This gentle stimulant soothes and protects irritated mucous membrane, reduces swelling, and thus opens breathing passages wider. It soon checks sneezing and sniffling. Also rub Mentholatum on the child's chest, back, and neck. This will improve local blood circulation and help relieve cold discomforts more effectively. Mentholatum helps in so many ways that you should always keep a member tin for discomforts of Colds—Mentholatum, link them together in your mind. Gives COMFORT Daily

Wall St. Report

New York, Nov. 27.—(A)—Ralls tried to popularize a rail

lying excursion in today's stock market and, for a time, succeeded fairly well, but steam was lacking. At the best early losses running to a point or so were converted into advances of as much. Transfers for the full session approximated 500,000 shares. U. S. Steel was up the greater part of the day, but Bethlehem was backward. Further brightening the steel picture was another jump in this week's mill operating rate, its fifth consecutive weekly increase to a record peak since the start of official estimates in 1933.

Failure of European war purchases to develop in proportions many had expected was a fly in the ointment. Intensification of sea warfare also aroused fear some orders already placed might be canceled. Among the better share performers were Great Northern, Southern Railway common and preferred; Southern Pacific, Youngstown Sheet, Douglas Aircraft, General Motors, Chrysler, Curtiss-Wright, Loft and North American.
