

GRANGERS FRAME 14 POINT AGENDA FOR AGRICULTURE

National Master Urges Acceptance — Shackles Off Business Is Favored.

Chicago, Nov. 27.—(AP)—The National Grange announced today a 14-point "platform for agriculture" which National Master Louis Taber said was "one behind which every group of farmers and Americans could rally to solve the problems of agriculture."

The platform, drafted by the executive committee after the Grange's recent convention in Peoria, Ill., outlined these problems:

1—Give to agriculture its fair share of the national income so that it may be raised to equality with other groups.
2—Insist that the farm program be administered by farmers, with compensatory payments to tide them over the emergency while farm prices are below parity; all payments to be made in the year earned, not contingent upon compliance in future years, and not to be used as a means toward compulsory crop control.
3—Speed national recovery by taking the shackles off business, by increasing employment and reducing the relief burden.

4—Recognize as fundamental the right of the American farmer to the American market up to the limit of his ability to supply it.
5—Close the doors to imports of foreign farm products which are injurious to American agriculture, and which help to reduce its purchasing power, by (a) divorcing foreign trade from politics.

6—Keep America out of foreign wars by building and maintaining adequate national defense; conscripting wealth and industry as well as man-power in time of war; remaining free from entangling foreign alliances; recognizing that war may bring dictatorial powers of government which may mean the end of democracy and individual liberty.
7—Develop a sound rural credit program by (a) establishing the farm credit administration as an independent agency under supervision of a bi-partisan board.

8—Recognize that adequate transportation facilities are indispensable to the welfare of the nation. Railroad regulation should be liberalized.
9—Base tradition on benefits received and ability to pay, and insist upon economy and efficiency in all branches of government.

10—Develop better markets for farm products by encouraging sound cooperative marketing; removing unnecessary trade barriers between states; opposing discriminatory and punitive taxation on any form of distribution; research to find new crops and new use for farm products.
11—Maintain the family-sized farm as the standard of American agriculture and discourage large-sized corporation farming.
12—Continue soil conservation as a part of a permanent program for better use of land, but not as a means of crop control.

13—Promote a better and more satisfactory rural life through development of educational facilities, good roads and rural electrification.
14—Foster the American spirit of self-help in solving our problems.

FARM BELT HELD KEEN FOR McNARY

Washington, Nov. 27.—(AP)—Senator Frazier (R.-N.D.) said Senator McNary (R.-Ore.) would receive strong support from agricultural states if he decided to actively seek the Republican presidential nomination.

"Senator McNary has shown the most interest in agriculture of any of those who appear likely now to be presidential candidates," Frazier said in an interview. "That's what I'm interested in."

"Senator McNary has been a staunch supporter of agriculture throughout his career in congress. If the McNary-Haugen bill had become law in the Coolidge administration the farm situation would have been far better than it is today."

"Senator McNary would be strong throughout the middle-west and the west, in my opinion."

Frazier said he believed Senator Vandenberg (R.-Mich.), another Republican presidential possibility, also could command considerable support in agricultural states.

BUSINESS UPTURN BASED UPON WAR BUYING 'UN SOUND'

Detroit, Nov. 27.—(AP)—E. T. Weir, steel producer, today described the current business upturn as unsound and declared permanent recovery was prevented by government spending and the effect of new deal "theories" on business.

"The present high level of business activity, the chairman of the National Steel Corporation said in an address prepared for the Economic club of Detroit, has resulted largely from anticipation of war buying from Europe."

Permanent recovery, he said, depends upon sustained high volume of private investment in productive enterprise, and low profits in recent years have cut off this investment. He asserted heavy taxation and the disruption of business by new regulation and controls of government were responsible for low profits and business losses.

He declared the "new deal master minds are concentrating on ways and means to increase the national income" in an effort to avoid increasing taxes in an election year to avoid curtailing expenditures.

For that reason, he said, "experiments are being soft-pedaled; mysterious submarines have taken the place of economic royalists as threats to the national welfare, and according to Washington observers, plans are being made to give business 'a shot in the arm' if there is any sign of contraction in the rate of business activity."

TRADE AGREEMENT TREATIES RAPPED

Washington, Nov. 27.—(AP)—A bitter denunciation of the whole reciprocal trade agreements program was heard today by the committee for reciprocity information as it opened hearings on a proposed trade pact with Chile.

Senator Johnson (D., Colo.) told the committee that because of the "most favored nation" principle incorporated in the trade agreements act requiring concessions granted one nation to be extended automatically to every other nation, the law amounted to nothing more than "an insidious formula for breaking down our tariff walls."

"If the Smoot-Hawley tariff act of 1930 needs overhauling," said Johnson, "it should be done directly in a constitutional way by the congress and not through a sniping process under the guise of good neighborliness."

SUB-POSTOFFICE QUARTERS RENTED

Postmaster Frank DeSouza said today he had received authorization from Washington, D. C., to rent quarters at 38 North Holly street to use as an annex in handling Christmas mail during the two weeks preceding the holiday.

The annex will be used solely as a depot from which parcels will be delivered, Mr. DeSouza explained in emphasizing that there will be no need of the public calling at the annex. Use of the annex will relieve congestion at the central office.

POLITICS BLAMED FOR KUHN TRIAL BY BUND LAWYER

New York, Nov. 27.—(AP)—Fritz Kuhn's counsel today reiterated his charge politics was behind the prosecution of the German-American bund leader on larceny and forgery charges.

Samming up at Kuhn's trial, after L. E. Sabbatino declared the case was not a routine matter as the district attorneys' office contended, but one in which "the motivating force was politics."

Before argument started Judge James G. Wallace announced he would allow the jury to take the case on five counts of the original ten-count indictment and after he had dismissed 32 motions for a mistrial, based on various grounds.

Arguing against the district attorney's statement that the case was "routine," Sabbatino pointed out to the jury that Assistant District Attorney Herman J. McCarthy made two trips to Florida merely to interview Mrs. Florence Camp, whom Kuhn had called his "golden angel" in love letters.

Kuhn is accused of stealing \$1,217 from the bund treasury, \$717 of which was used to pay the furniture-moving expenses of Mrs. Camp, according to the state. The remaining \$500, the prosecution charges, was listed in bund financial records as paid to James D. C. Murray, lawyer, who denied he ever received the money.

Bund members, Sabbatino remarked, had testified that Kuhn had a right to "throw the money down a sewer or buy a race horse if he wanted to," and had supported his claims of innocence.

NEW DEBT LIMIT ON TAXES, AHEAD

Washington, Nov. 27.—(AP)—Secretary Morgenthau said today the treasury would borrow \$300,000,000 tomorrow in the first major financing in a year.

Because of the deficit, which has amounted to more than \$1,600,000,000 so far this fiscal year, Morgenthau said the treasury would sell \$500,000,000 of two percent treasury bonds maturing from 1948 to 1950.

The financing, added to the present federal debt of \$41,286,000,000, will bring the treasury closer to \$45,000,000,000 debt limit but Morgenthau said he was "not worried" because congress "has got to do something if the boys are going to eat."

He said this meant that if appropriations continued to run ahead of revenues, congress had to vote new taxes or authorize a higher debt limit. President Roosevelt said last week that he wanted the people to think about whether a proposed \$500,000,000 in national defense expenditures should be financed by borrowing or by a special tax.

PEACE, FARM NEED HELD TOP ISSUES OF REPUBLICANS

By W. B. Ragsdale.

Washington, Nov. 27.—(AP)—Senator Taft of Ohio, willing to run for president if enough Republicans want him, has been making speeches through the farm belt which help to throw some light toward the misty recesses of the next campaign. He discloses some of the strategic high spots on which the Republicans are likely to take their stand.

Although he differs from Senator Vandenberg of Michigan and some other Republicans on the best way of keeping out of the European war, Taft joins them in saying:

"The welfare of this country and its people depends on keeping out of the European war, and the people are determined that we shall do so. On that issue, the Republicans occupy the strong position. They are the peace party."

He says President Roosevelt has expressed the same determination, but the Democratic party, what with the experience of President Wilson, has a bad record in that respect.

This is a statement that will be heard from all sorts of Republican sources during the next 11 months.

Taft smacks down, too, on unemployment and unbalanced budgets, two familiar themes which are destined to become even more familiar.

For months, the Republican national committee has been drumming away at these in its publicity. Each item in the weekly clip-sheet which it sends to newspapers is separated by the line: "For a job vote G.O. P." Each clip-sheet reports the status of federal finances, the total of the federal debt, and the per capita share of that debt.

GIRLS' ABDUCTORS FACE LINDY LAW

Seattle, Nov. 27.—(AP)—Two young men, who confessed the abduction and attack of a 17-year old girl, were charged with first degree kidnaping in superior court today. The charge calls for the death penalty or life imprisonment upon conviction.

Prosecutor's Deputy Charles C. Ralls said the men, Eugene Weaver, 19 and Raymond Prucha, 24, confessed they abducted and attacked the school girl last

HOW TO Christmas-Shop IN ONE Easy Lesson!

Just do these THREE things, and you'll get the nicest gifts, finish early, and be really relaxed on Christmas Day:

1. Start this week, a month ahead of Christmas, to make up your list. Don't forget to budget your gift money and plan your mailings to distant friends and relatives.
2. Then read the advertisements in this newspaper. Already they're carrying really sensible Christmas gift suggestions for every one. They give you a quick, reliable survey of what's new on the counters.
3. Do your shopping in the early hours... in the early weeks before Christmas. No hustling hordes of people to jostle you around! Plenty of fresh goods in sizes and colors you want! Time to order that new dress for Mary or initialed handkerchiefs for Brother Jim.

Early Christmas shopping brings its own rewards! No frazzled nerves... every one's remembered... and packages are wrapped and mailed before the rush!
