FIRST LADY PAYS THIRD VISIT TO DIES COMMITTEE

Eager To Hear Executive Secretary of American Students Union on Stand.

Washington, Dec. 1.—(AP)—Mrs. Franklin D. Roosevelt today made her third visit to the Dies committee to hear testimony by leaders of American youth organizations.

Meanwhile, at a press conference President Roosevelt refused to say whether he favored continuation of the committee, investigating un-American activities. It is scheduled to expire in January but Chairman Dies (D., Tex.) has asked the house for a year's extension and also challenge the administration either to support the committee or declare its opposition.

Mr. Roosevelt said continuation of the committee was a matter for congress to consider. Congress has the right to set up a dozen such committees if it wants to, he added.

The first lady said she joined the committee spectators again especially to hear Joseph Lash, executive secretary of the American Students union.

In Front Seat

"I thought I'd like to hear what he had to say," Mrs. Roosevelt smiled to newsmen as she took her seat among a group of young men and women on the front row.

She showed up at the hearing in the house office building for the first time yesterday morning and returned again in the afternoon when the American Youth Congress had its hearing.

Under questioning by J. B. Matthews, committee investigator, Lash testified—while Mr. Roosevelt listened intently—that he joined the socialist party in 1929 and resigned in 1937 shortly after returning from the Spanish war. Asked his reasons for quitting, he said:

"I believed that the socialist party was subordinating the interests of the people as a whole in the interest of factional political strife in the left."

194 SHIPS SUNK SINCE WAR START GERMANY SAYS

Heavy Toll By Mines And Submarines Shown in Report By Official Agency.

By Louis P. Lochner

Berlin, Dec. 1.—(AP)—DNB, official German news agency, reported today that from the beginning of the war to November 28, 194 vessels, totaling 735,768 tons—both allied and neutral—headed for Great Britain, had been sunk by German submarines or mines.

DNB said the sinking of 162 ships—52 of them neutral—totaling 639,689 tons, was confirmed by German reports.

Non-German sources, the agency said, disclosed an additional 32 ships of 96,079 tons total, half of them neutral, representing 39,321 tons.

The statement listed 150,867 tons of shipping as tankers and said the average was 7,500 tons per ship—in other words, about 20 tankers.

Not All Told

DNB insisted the total losses must be considerably larger, however, charging that the British admiralty had not published all losses, especially those along the British coast.

Authorized sources declined to comment further on the Soviet Russian-Finnish situation. They said yesterday that Germany was "sympathetic to Russia."

Col.-Gen. Walter Von Brauchitsch, commander-in-chief of the German army, left for the upper Rhenish sector of the Siegfried line to inspect troops.

Today's army communique told of "feeble artillery and scouting activity" on the western front and said bad weather hampered aerial reconnaissance to the extent that four flying boats were forced by the weather to alight on the North sea. The planes were damaged but the crews were saved.

FIND RANCHER'S BODY; HIT BY FALLING TREE

Roseburg, Ore., Dec. 1.—(AP)—The body of John Turner, 50, resident of Sutherlin, was found late last night about a mile from his Dodge Canyon ranch, where he apparently was killed Thursday morning while engaged in cutting pole timber, Coroner H. C. Stearns reported.

A searching party discovered the body after Turner had failed to return home in the evening He suffered a fractured skull and other injuries, causing instant death, when he was struck by a falling tree, the coroner said. His wife and three children survive.

ATTACK ON FINNS SEEN RESUMPTION OF WORLD EFFORT

(continued from page one)

He proceeded to put his policy into effect, and the world revolution was held in abeyance. Some five years ago the astute Stalin saw another European upheaval in the offing. He figured this would provide the opportunity to cause civil strife in the afflicted countries, and thereby permit the spread of communism.

Drive Revived

So Moscow quietly revived the world drive. The recent Russian moves are a more startling evidence of the trend of affairs than we have been used to, that's all.

When Russia took over eastern Poland and made the three Baltic states—Latvia, Lithuania and Estonia—virtual protectorates, it gained a strong strategic position and at the same time provided for the easy extension of Bolshevism in that area.

Control of Finland, however, with establishment of military and naval bases in that country, was necessary to give Moscow complete domination of the entire eastern Baltic. The Russians made their demands on the Finns, struck their first real opposition, and yesterday's invasion followed.

Assuming that the Russians now have obtained what they want, they have established themselves in a powerful position, either for offensive or defensive operations. Germany's domination of the eastern Baltic is gone, and nazidom must be regarding the new situation with gloom.
