# Our Great Plants Are "Delivering the Goods"

The Chrysler Corporation's great plants are alive with activity... the workers are busy in the team-play of trained minds and skilled hands... building the finest, most popular automobiles the Corporation ever built... the 1940 Plymouth, Dodge, De Soto and Chrysler.

WHEN WE SAY that Chrysler Corporation's great plants are "Delivering the Goods" we mean *everything* the phrase means...

DELIVERING THE GOODS... in the sense that experienced workers are building the finest and most popular automobiles in Chrysler Corporation's history.

DELIVERING THE GOODS... in the sense that millions of dollars a day in raw materials are coming in across the receiving platforms as trainload after trainload of new automobiles move out to dealers and the public.

DELIVERING THE GOODS... in the sense that 1940 Plymouth, Dodge, De Soto and Chrysler cars represent today's most beautiful styling, the most advanced engineering and the finest workmanship.

The people of America have come to *expect* exceptional engineering and high quality in Chrysler Corporation automobiles.

The 1940 Plymouth, Dodge, De Soto and Chrysler cars not only live up to that high expectation—they *exceed* it!

It is an inspiring thing to see the quick responsiveness people show for outstanding value—the kind of value that is self-evident in car size, beauty, luxury, riding comfort, advanced engineering and fine workmanship.

Equally inspiring—urging us on to ever greater progress—is the unswerving confidence and loyalty of the merchants who sell and service our products.

Such staunch and widespread confidence and support strongly indorse our policies and principles of good manufacturing and sound merchandising.

We believe—and always have believed—that quality goes beyond good machinery and good materials. It lies in engineering genius, care and precision of manufacture, complete and thorough inspection.

Furthermore, millions of Americans choose to believe that of all manufacturers, Chrysler Corporation is particularly and notably successful in achieving the combined goal of low price and highest quality.

The 1940 Plymouth, Dodge, De Soto and Chrysler cars are by far the greatest values we have ever built—in smart styling, size, luxurious tailoring and appointments, riding quality and performance.

We know it—our dealers know it—the men who build the cars know it—and it is common knowledge and talk throughout the country.

May we suggest that you see your nearby Plymouth, Dodge, De Soto or Chrysler dealer? He will gladly let the car you are interested in speak for itself, for him and for us.

## M-J-B WHY?

"It cost us \$5 to find out..."

2 After a marvelous dinner (\$2 a plate—Ouch!) the waiter asks if we'll have coffee with dessert. "Sure," said Jack, "bring the works." And after one sip Jack looks up and says, "Gosh, why don't we have coffee like this at home?" (Nice person!) The waiter smiled. "It's M-J-B, sir, the Richer Coffee."

1 Jack certainly understands women. The other day, for instance, everything went wrong and I was ready to throw things when Jack came home and took me in his arms. "Darling," he said, "let's put on the soup and fish and step out for dinner tonight." I hugged him.

3 "Richer Roast?" asks Jack. "Yes," said the waiter, "it means that you get a finer, richer, fuller flavored cup of coffee. Richer Roast takes the gamble out of coffee making." Jack was so impressed he left a dollar tip and that's why it cost us \$5 to find out about M-J-B. It was worth it, too!
