

TURKISH PAPERS HIT GERMAN PROPAGANDA; VON PAPEN ON VISIT

Istanbul, Turkey, Dec. 8.—(AP)—Franz Von Papen, German ambassador who has been bitterly criticized by the Turkish press, arrived here unexpectedly from Ankara, causing much speculation as to the significance of his movements.

It was reported that the ambassador would hold a closed meeting tomorrow of the German colony here.

Meanwhile the entire press of the country redoubled its attacks on German propaganda in Turkey, in which Von Papen, Adolf Hitler's diplomatic troubleshooter, has had a directing hand.

There have been unofficial reports that Turkey would ask for Von Papen's recall unless propaganda activities were halted. One paper demanded the German ambassador stop his propaganda activities or "pack up and get out."

The Germans are accused of attempting to provoke a conflict between Turkey and Russia. Press attacks were touched off by the distribution of circulars bearing the watermark of the German embassy which purported to reprint an article from a Moscow periodical which attacked the Turkish press.

NEW WHEY FOODS GO WITH ADMIRAL BYRD TO VARY CREW DIET

Washington.—(AP)—Admiral Richard E. Byrd carried with him to the Antarctic several new food concentrates prepared by agriculture department food experts to add variety to the diet of his expedition.

Some of the foods have not been placed on the market as yet. In a year or two they probably will be a staple grocery in commonplace use, food experts predicted.

Most of the foods were developed in the federal bureau of dairy industry laboratories and represent the efforts of dairy scientists to devise new ways to utilize skim milk and whey as human food.

The list includes a new kind of dried pea soup, made with whey powder; a new kind of wafer which is a mixture of potatoes, skim milk and salt; and new kinds of candies which contain whey solids.

Skim milk and whey are waste products of dairies. Millions of pounds of the two milk by-products now are thrown away or fed to hogs.

The dried soup is a pre-cooked dry powder which makes a complete soup when one can of the powder is mixed with four cans of water and boiled. It contains 65 per cent split pea solids, 25 per cent whey solids and 10 per cent fat.

The skim milk potato wafers are similar to potato chips, but contain no fat and therefore do not become rancid. The wafers are made by drying or toasting a mixture of boiled potatoes, skim milk and salt.

Two kinds of candy—caramels and fudge—were made by formulas that include 25 per cent whey solids. The whey candy is superior in food value to ordinary candies, because the whey solids displace some of the cane sugar and corn syrup.

Walker, and others on this committee are Paul Thompson, H. D. Force and John Chisholm, another will be appointed soon.

The troop is being sponsored by the Odd Fellow lodge of Gold Hill. Paul Peterson, district commissioner of the Crater Lake area, presided at the meeting.

Hendrickson, vice grand; Paul Thompson, secretary, and Art Gorham, treasurer. The following officers have been elected to take office in January: Irene Hendrickson, noble grand; Willie McLean, vice grand; Belle Smith, recording secretary; Hazel Holderness, financial secretary, and Della Kell, treasurer.

MARTHA HOSMER, PIONEER, PASSES

Mrs. Martha Jane Hosmer passed away at her home near Murphy early Thursday evening following a brief illness. Mrs. Hosmer was born April 20, 1848 in Marshall, Missouri.

Their first stop was in Jacksonville. After spending a few days there they went to Footh Creek where a year later she was united in marriage to Nelson Hosmer.

The following 49 years were spent on their ranch on Footh Creek. In 1929 she moved to Applegate where she has made her home since with her daughter. Mr. Hosmer passed away in 1912.
