## BEAVERS WIN 28-0 IN WARM-UP FOR HAWAII STRUGGLE

### Healini Townies Outclassed By Oregonians—Pass Interceptions Aid Invaders.

Honolulu, Dec. 26.—(P)—With a smashing 28 to 0 Christmas Day victory over the Healini town team on the books, Oregon State college players returned to light practice today for their game New Year's Day with the University of Hawaii.

The Pacific Coast conference eleven scored three of their touchdowns in the second half after a first-period rally. Healini, sparked by Halfback Jud Atchison, former University of Texas star, threatened only once, late in the fourth period on a march to the 16-yard line.

A crowd of 15,000 saw the game in sweltering weather.

Oregon State scored from the one-yard line in the first period after once being held for downs on the three. Sub Fullback Ken Dow made the touchdown and Dethman converted.

### Poor Kick Costly

A poor Healini kick gave Oregon State the ball on the Healini 35 early in the third period. Olson skirted end for 14 yards and Fullback Kiselburgh split the line for the remaining 21. Younce converted.

An intercepted pass by Tomich gave the visitors the ball on Healini's 27 in the same period. A 13-yard pass and Hackenbruck's end-around dash produced the third score. Younce again converted.

The final touchdown also followed a pass interception, this time by Gene Gray. He caught the ball on the 50 and ran to the 20. The Orange battered the ball up to the six from where Hackenbruck again toured the opposite end for a score and Gray converted on a pass to Durden.

### Even in Downs

Each team made 12 first downs but the Beavers was far ahead in yardage—273 from scrimmage and 97 from passes. Healini's total was 178 and 79.

## BOB SMITH HURT IN DRILL SESSION

San Francisco, Dec. 26.—(P)—A 20-minute impromptu scrimmage left Douglas "Bulldog" Turner, 221-pound Hardin-Simmons center, on the sidelines today as the west team lined up for another practice session for the east-west charity football game here January 1.

Turner emerged from the brief holiday drill with a charley horse in the thigh, and Coaches Orin Hollinbery and Biff Jones said the big pivot man might not be back in uniform for a few days.

Other casualties were Bob Smith, Oregon halfback, and LeRoy Zimmerman, San Jose State fullback, both with sore ankles but nothing serious.

"We didn't plan the scrimmage in advance," Coach Hollinbery explained, "but when we heard the east was scrimmaging we figured we'd better get in a little contact work too."

The east boys scrimmaged for the second time yesterday and wound up without injury.

## Head Man of Troy Expects Vols To Give Tough Battle

Pasadena, Cal., Dec. 26.—(P)—Coach Howard Harding Jones, never a loser in the Rose bowl, makes no secret of his high regard for the University of Southern California head man, gunning for his fifth triumph in Pasadena's annual Tournament of Roses grid classic, candidly said he expected a tougher battle from the Vols than Duke put up last New Year's day.

Considering the fact that it took Troy something like 89 minutes and 20 seconds to crush the rockbound Ducks in a finish that read like a wild movie script, Jones' observation seems remarkable.

### Didn't Fear Duke

"We know Duke had a great defensive club, but we didn't have much fear of its attack," Jones commented. "That was the way the game went. Duke didn't act much like they wanted to run with the ball, but at the same time we couldn't get anywhere, either."

"From what we know of Tennessee, they have not only a great defensive record, but a dangerous running and passing game as well. That's why we look for more trouble from the Vols than we did from Duke."

### Secrets Unrevealed

Visiting firemen with the Vols, however, pointed out that Major Bob Neyland's Tennessee gave away few secrets in these two games.

## WEBFOOTS NOSED OUT 38 TO 37 BY DE PAUL IN CHRISTMAS CLASH

Chicago, Dec. 26.—(P)—The touring University of Oregon basketball team, national collegiate champion last season, continues to find the middle west anything but hospitable in cage competition.

Trounced by Purdue Saturday, the westerners took another trimming last night when De Paul put together five straight points and won a see-saw battle 38 to 37. It was De Paul's fifth victory against one defeat—an overtime loss of Southern California. In another game of the Christmas night double header, Southern Methodist opened its midwestern tour with a 38 to 34 victory over Loyola of Chicago.

## ECONOMY EFFORT FACES PERILS IN COMING CONGRESS

### Hope For Start Toward Balanced Budget May Fall Before Political Factors.

By William B. Ardery  
Washington, Dec. 26.—(P)—Congressmen are talking now about cutting down federal expenditures, but if past performance is any guide, the economy axe may be gathering rust before the first 1940-41 appropriation bill goes to the White House.

Various senators and representatives, awaiting the opening of the new session Jan. 3, are contending a start should be made toward a balanced budget, relief expenditures should be curtailed substantially, congress should employ a budget officer to help it whittle down administration spending estimates, and President Roosevelt's projected record defense program should be reduced.

### Different Story

But, when voting time comes, it may be a different story. Repeatedly in the last session, a bi-partisan economy bloc fought for reductions in spending measures. Usually it was beaten, and congress finally topped administration budget requests by \$190,800,000.

Because 1940 is an election year, there may be many congressmen who will hesitate to vote against bills carrying funds to be spent in their states. And almost every major appropriation measure has something for every state.

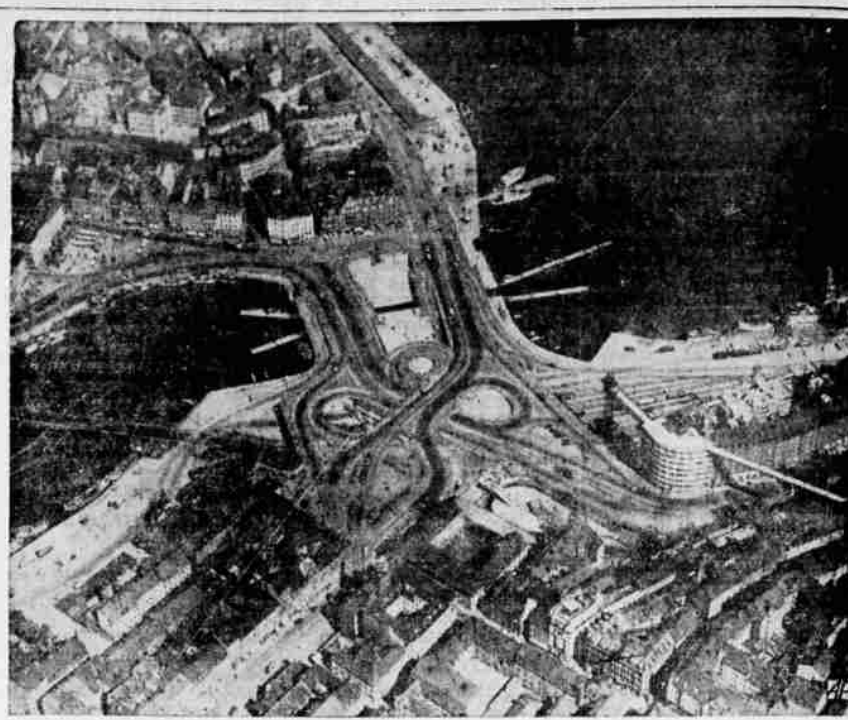

The election-year psychology also is expected to operate against enactment of any new tax bill. Besides the general unpopularity of taxes among the voters, members of congress will be wanting to get away from Washington for the national political conventions and will be reluctant to give attention to time-consuming revenue legislation.

### Debt Charged to Congress

The president has declared congress owes the treasury \$500,000,000 for extra farm benefits already appropriated but not financed by taxes.

Mr. Roosevelt probably will suggest enactment of farm benefit levies in his annual message to congress, but the farm bloc is expected to oppose them—as it has in the past—on the ground no tax provision has been made for other expenditures.

There has been talk of enacting war taxes to take part of the profits which American business reaps from the Euro-

## SUGAR MARKETING QUOTAS RESTORED

Washington, Dec. 26.—(P)—President Roosevelt issued a proclamation today restoring marketing quota provisions of the sugar act.

"I have issued a proclamation today," the President said in a statement, "terminating the suspension of marketing quotas in sugar, which suspension was made necessary on September 11, 1939, by the extraordinary purchases of sugar by consumers immediately after the outbreak of the war in Europe and the excessive speculative activity and advancing prices which accompanied such purchases."

"Since that time consumer hoarding of sugar has ceased and the price of raw sugar has declined to the price level which was in effect before the war."

"It should be noted that under the law the quotas may again be suspended if such action becomes necessary to protect the consumers."

## SOCIAL SECURITY AGE INSURANCE TO START IN JANUARY

and federal grants to the states for the care of the needy aged, the blind and the dependent children.

The old age insurance plan contains many limitations, but basically it aims to provide a lifetime retirement annuity for the wage earner who retires at 65 or older from a job covered by the law.

His benefits—the experts call them primary insurance benefits—are measured by his average monthly earnings between January 1, 1937 and the time he leaves his work to retire. They are paid for by a social security tax both he and his employer contributed in equal amounts to the government's old age insurance fund.

### Benefits Extended

Thus both the worker and industry have financed the insurance plan of retirement benefits. The boss and the worker each contributed one cent on the dollar of wages paid out.

Last summer congress revamped the law to extend the benefits and the scope of coverage.
