## Active Club Party Enjoyed By Many At Hotel Medford

The banquet room of the Hotel Medford was the scene of an enjoyable affair last evening when Active Club members and Lady Activists gathered for an annual installation of officers.

The following new officers were installed by William M. McAllister: Bert Lowry, Jr., president; William Miller, vice-president; Ray Martin, secretary-treasurer; Kenneth Denman, sergeant at arms; trustees, Royal Claire and Dwight Houghton. New member initiated was Jim Garvin.

A program during the evening included dancing numbers by students of Ruth Luy and several vocal numbers by Rose Ellen Uhrine accompanied by Mrs. James Stevens.

Dwight Houghton acted as toastmaster. Following the dinner and installation of officers, a group of Active members headed by William Miller were hosts to the other members for a dance. The hosts composed the losing team in a recent membership contest.

Whipple's orchestra furnished the music for the affair which was the largest of its kind in several years.

Special guests included Mr. and Mrs. Don Bagley and Mr. and Mrs. Robert Stedman.

**Tea Saturday Is Postponed**  
The tea which was to have been given Saturday by the Daughters of the American Revolution, has been postponed until a later date.

**You can't call it the "Milky Way" Route**

SOME of the captains who have been sailing in this Company's vessels for a quarter-century or more have traveled above a million and a half miles—enough for more than three round trips to the moon.

If you should care to ask why anybody would want to visit the dead old moon when so many interesting and attractive places exist on earth, the answer is that nobody has.

Some of these captains shuttle back and forth from refinery to pipe-line terminal and from pipe-line terminal to refinery with such regularity that their course is known as "the Milk Route." That's far different from the "Milky Way Route."

But that's the way it is. Their job and our job is to be dependable—to let the motorists of the West pile up the fun-filled mileage which makes a trip to the moon seem no more than a summer-evening spin for a breath of air.

When you say "We'd better stop at the next Standard Station and fill up" you assume—and properly—that tankers have plowed the seas, refineries have functioned, tank-trains have run, tank-trucks have rolled—all on earthy schedule, with no chance flights to the inconstant moon.

## COMPANY UNIONS GIVEN STANDING BY COURT RULING

Labor Relations Board Must Protect Rights of Workers Is Appeals Decision

San Francisco, Jan. 10.—(AP)—The National Labor Relations board must protect the rights of workers in joining independent unions or in remaining unorganized, the ninth U. S. circuit court of appeals held here yesterday.

Company unions, in effect, were restored to a standing of equality with international unions by the decision.

The case was that of the NLRB versus the Sterling Electric Motors company of Los Angeles, a manufacturing plant employing approximately 70 workers, which the AFL International Brotherhood of Electrical Workers sought to organize.

Chicago, Jan. 10.—(AP)—The Wagner act does not require collective bargaining contracts to be in writing, in the opinion of the United States circuit court of appeals.

The court's view was announced yesterday in a decision reversing an order by the national labor relations board in the Inland Steel company case.

In its order of Nov. 12, 1938 the NLRB ordered Inland to withdraw recognition of an independent union, bargain with the CIO steel workers organizing committee, and put into writing any agreement that might be reached.
