

### ALUMNI PRAISE, RAP SELECTION STANFORD COACH

Palo Alto, Cal., Jan. 12.—(P)—Alumni had both praise and criticism today for the selection of Clark D. Shaughnessy, University of Chicago's teamless football coach, to succeed Claude E. "Tiny" Thornhill at Stanford university.

Another group of graduates, many of whom protested loudly the work of Thornhill, who was dismissed recently after the poorest Stanford season in years, preferred to reserve comment until Shaughnessy had a chance to show what he could do with the forlorn football situation here.

Approval of Shaughnessy's selection came from such alumni as Leland Cutler, president of the university trustees; Judge L. R. Weinmann, board of athletic control member and Harlow Rother, president of the block "S" society.

On the other side of the fence, Eugene J. Kern, president of the San Francisco board of trade, said he was disappointed because Dud De Groot, San Jose State coach and former Stanfordite, was not selected.

J. Derroll Chace, oil company executive and former track star, said:

"Why Stanford should go so far afield to get a comparative 'unknown' when two of the best coaches in America, De Groot and Lawrence Shaw of Santa Clara, were available, is beyond us."

**Elks Ruler Dies**  
The Dalles, Jan. 12.—(P)—James E. Merritt, 56, exalted ruler of The Dalles Elks' lodge, died of a heart attack yesterday. Mrs. Merritt, a bride of less than a month, attended her mother's funeral Wednesday at Highland, Ill.

**Canadian Aluminum**  
London, Jan. 12.—(P)—Britain has purchased Canada's entire exportable surplus of aluminum and has an agent in Canada "who is making an arrangement to expand production there," Col. J. J. Llewellyn, parliamentary secretary to the ministry of supply, disclosed today.

**Albany, Ore., Jan. 12.—(P)—**James A. Malone, 56, time-keeper for the Woodruff Logging company, drowned yesterday in an automobile plunge from a bridge into the Calapooia river.

**24th Child**  
Berlin, N. H.—(U.P.)—The 24th child of Arthur P. Morel was a 12-pound son. He had 12 children by his first wife and 12 by his second—all but four are living.

**Off Color**  
Redding, Cal.—(U.P.)—A loyal navy wife thought it would be fine to have red and green running lights on her automobile so had one headlight red and the other green. A highway patrolman warned her such lights might be fine on the high seas but distinctly taboo on California highways.

### In The Day's News

**By FRANK JENKINS**  
**ROY GARDNER**, describing himself in a note as "old and tired" (he was 55) commits suicide in a San Francisco hotel by corking the cracks in the doors and windows and mixing chemicals to produce poison gas.

Gardner, in his day, was one of the nation's most glamorous bandits, but the glamor wore off. It sounds like preaching to say so, but glamor of that sort ALWAYS wears off.

**MIKHAIL M. KAGANOVICH**, soviet commissar for aviation, is relieved of his duties, the papers tell us and "transferred to another post."

(The post to which he has been transferred, doubtless, is the one referred to by the ancient Teutonic tribes as Valhalla, which the soviet, being godless, do not recognize.)

**COPENHAGEN** dispatches quote reports that more than 100 Russian officers have been called back from the Finnish front, some of them to face trial before special courts consisting of people's commissars.

Their crime is that THEY FAILED.

These Copenhagen (Denmark) dispatches add that the commissariat dealing with supplies is especially under Stalin's fire, with many reported executions.

**RECOMMENDED** to Stalin's attention: Persia, driving vast hordes of semi-slave troops into battle under the whip, FAILED CONSPICUOUSLY to conquer the free Greeks who were fighting for their homes and their liberties.

**THE** Germans say eight British vessels were sunk in Tuesday's naval blitzkrieg in the North Sea and adjacent waters. The British say it was only two.

In Wednesday's air fight over the German fortified island of Sylt, the British say two enemy planes were downed with a loss of only one of their own. The Germans, going them considerably better, say three British planes were shot down and one crippled with NO GERMAN LOSSES.

(Americans, shrugging their shoulders cynically as they read, say "Phooey on both of you!")

**QUESTION:** Do the British and the German censors really believe they are fooling each other, or are they merely trying to fool the people at home?

which goes to the Pacific coast. Doris Duke (roll your own), richest girl in America, almost stole the show from Mr. Roosevelt, as everyone had eyes on her.

She was smothered with bracelets, earrings, necklaces, all of gold that has escaped the government cache in Kentucky. The Duke wealth enabled her husband to be appointed minister to Ontario. It was noticeable that the Democrats were faster than when they attended the first Jackson Day dinner to raise funds for the party. Public trowling has not starved any of them.

He found three adults, two children and a couple of dogs. He asked where they were from and they replied: "The Willamette Valley", and Holman snapped back they were then in the heart of the Willamette valley. Management officials explained they thought the tenants were migrants from California—not from over Salem way, where the baby was born.

In a corner Holman saw four shotguns which, with the dogs, come in handy for a little hunting. The senator thinks that no person on relief, drawing subsistence from the federal government, should be permitted to have lethal weapons.

Data promised the senator on the cost, operation, maintenance, population, have not been supplied. He wants to know how much the migratory camp contributes toward education.

**HE** is not hard-hearted and realizes aid must be furnished the needy, says the junior Oregon senator, but there have been too many millions wasted and the time has come to apply the brakes in spending. Some things can be dispensed with and the republic still survive.

**CAUSE** of delay in the president sending the nomination of Senator Lewis B. Schwellenbach for federal district judge in Washington state was the argument between the White House and the senator. With Indiana's Minton, Schwellenbach was one of the two principal defenders of the faith on the senate floor; they have been 100 percent, plus. Each has hoped for reward by appointment on the supreme court, but Mr. Roosevelt has passed them up.

By the rules of the game, Schwellenbach is entitled to the district judge job. Political conditions in Washington are confusing this year and Schwellenbach is not certain that he could be re-elected; also his relations with the senator, Homer T. Bone, are not pleasant. The White House, in no position to refuse the appointment, has argued with Schwellenbach to continue in the senate, telling him his re-election is a cinch.

Intimates of the Washington senator say Schwellenbach is tired of politics and wants to retire to a more quiet life on the bench.

**UNDER** the 1939 agricultural program of Triple A. It is estimated that 31,000 farmers in Oregon will be paid \$4,121,000. Estimate for farmers in Washington cooperating with the plan is \$4,953,000. Parity payments of December 30 were \$1,487,700 for Oregon; \$3,101,549 for Washington.

**JACKSON** Day dinner—President Roosevelt was not watching the clock when he made his speech, but the radio managers were and they were alarmed when he began using time of the Amos and Andy recast.

### SEVERE COLD BRINGS HEAVY PURCHASE OF WARMER DUDS, SKATES

New York, Jan. 12.—(P)—Retail merchants' supplies of winter clothes were all but cleaned out this week as cold

and snow kept America shivering. Dun & Bradstreet said today in a weekly survey.

Buying was especially large, the review said, in suburban areas. At the same time, business in some rural sections was virtually at a standstill due to weather conditions discouraging travel to shopping centers.

Average gain in volume over last year for all retailers was estimated by the agency at 7 to 13 per cent.

"Stores in some cities reported stocks of ice skates and sporting apparel virtually exhausted . . . Clothing promotions were scoring exceptional gains over last year, despite the generally smaller mark-downs in effect," the review declared.

"Travel and resort wear shops reported gains in sales volume of 5 to 10 per cent, the sharp decline in cruise wear notwithstanding."
