

# FOREST REGIONS ARE NOW IDEAL FOR RECREATION

### Most Sylvan Camp Centers Ready for Use—Fishing Is Excellent in Spots

The following recreational bulletin was issued today by Rogue River national forest headquarters:

"Ideal conditions for recreationists are offered in the Rogue River national forest at this time.

"Fishing conditions for the week-end are summarized as follows: At Fish lake the best catches are being taken by trolling with spinners and worms; still fishing is also good. In the south fork of Little Butte fair catches are being made with Coachman flies. In Beaver Dam creek good catches of trout from eight to 10 inches long are being caught with worms.

**Big Trout Taken**  
"At Lake of the Woods, two eastern brook trout weighing three pounds each were recently taken at the resort dock with worms but very few other catches have been reported. In the middle fork of Rogue river, cut-throat trout are rising to flying ants and grayback flies. In the Union Creek district the river is still too high but fair

catches are being made in several of its tributaries, particularly in Buck, Foster, Hershberger and Crater creeks. Worms are bringing the best results here, with eggs, black gnats and royal coachman flies second choice.

"Elk creek offers good chances with flies. In the Applegate district the streams are too high and muddy but Squaw Lake has been good for both eggs and worms.

"Fishing is reported as excellent in the Rogue river in the vicinity of Trail and Rogues Elk. Warm weather has aided in bringing forth a large hatch of flies and limit catches are being taken on flying caddis, red upright, and March brown. An occasional steelhead is also being caught.

#### Sites Accessible

"Most of the main recreation centers are now accessible and ready for use. An exception is at Lake of the Woods where it is still quite cool and damp for camping and where drinking water has not yet been turned on for use in the camps.

The roads to this point are in good condition except the Dead Indian road between Deadwood and the lake, which, because of new construction, is open to one-way traffic only and is very rough.

"Dead Indian Soda Springs is especially attractive now and the road from there over Robinson Butte to Fish lake has been graded. The old Diamond lake highway may be traveled to the fishing streams in that vicinity; the Hershberger road is blocked with snow at Long Prairie, which is about two miles below the Rabbit Ear. The Blue Rock road is still blocked with snow about a mile from the lookout. The Siskiyou Summit road is open for 12 miles up Beaver creek and 10 miles from Ashland. The Little Applegate road is closed by construction work above Buncom but may be traveled from Talent up Anderson creek and over Anderson mountain to the Little Applegate campground.

#### Trip By Trail

"The trail up the middle fork of Rogue river to the falls at Boston Bluff has been maintained, offering a trip by trail six miles up stream from Imnaha in what is undoubtedly one of the most beautiful spots in Oregon. In this same vicinity, the South Fork, Upper South Fork and Nichols Creek camps are pleasant on bright days, there are few mosquitoes, and deer are being seen frequently,

## Weight of Tanks From Five Tons To Over Thirty

By the Associated Press

When military men speak of "heavy" tanks in fighting on the western front they mean just that.

It's one of three classifications for the tread-track cruisers. The others are known as "light" and "medium." Light tanks weigh from 15 to 15 tons; mediums from 15 to 30.

Most nations, including the United States, regard these as sufficient. French tank men are leading exponents of the heavies, which range from 30 tons up.

particularly at Lodgepole and Imnaha guard stations.

"Throughout the forest, wild flowers are most attractive. Squaw carpet forms wide expanses of solid blue ground cover, dogwood is in full bloom in the dense timber and there are millions of brightly-colored blossoms in the meadows.

"Forest fire regulations became effective throughout Oregon May 15. While camp-fire permits are not yet required in the Rogue River national forest, the law prohibiting leaving campfires unattended is being enforced. All forest users are requested to be careful with fire."

## BRIGHT WEATHER SPURS SHOPPING

New York, May 17.—Retail trade volume moved up several notches this week aided by the general improvement in weather. Dun & Bradstreet said today in their trade review of the week.

"Reports of expanding retail volume came from all sections of the country," the review said. "Automotive supply, household and garden items and sporting goods were particularly active.

"In men's and women's apparel, sports-wear was outstanding. Food stores, which account for about one-quarter of total retail volume, reported increases in dollar sales averaging about 5 per cent over the corresponding period last year. Automobile dealers were maintaining gains of close to 45 per cent and apparel stores, many of which had been running under a year ago, showed an average advance of approximately 8 per cent."

## NIXON GOING TO PERU IN MINE DEVELOPMENT

Portland, May 17.—Earl K. Nixon, who resigned yesterday as state department director of geology and mineral industries director, is going to Lima, Peru.

He said that July 1 his temporary headquarters would be at Lima with H. A. Brassert & Co., steel plant contractors and builders, specializing in the development of mines and mineral industries in "certain South American countries and islands of the Caribbean."

**Death For Sabotage**  
Batavia, Netherlands East Indies, May 17.—The government today prescribed the death penalty for sabotage and other offenses against the state under the state of siege proclaimed last Friday upon the German invasion of the Netherlands.

## GALICE MINE YIELDS \$12,000 IN 6 WEEKS

Grants Pass, Ore., May 17.—(AP)—Gold valued at more than \$12,000 was deposited at a local bank by William Robertson and Virgil Hull yesterday, the result of six weeks quartz mining near Galice. It weighed 379 ounces. On March 30, the same operators weighed 640 ounces from a rich vein in the same mine, which for some time had been closed down because of lack of returns in between "hot spots."

What visitors say about Stokely canneries:

**SO CLEAN YOU COULD EAT OFF THE FLOOR!**

Enjoy canned foods put up in kitchens spotless as your own

Every day, the floors and benches and tables get a vigorous scrubbing. Everything in the place has a spic and span "just scrubbed" look.

We believe this is just one more good reason why it pays you to look for the Stokely label whenever you buy canned foods.

Generations ago, Stokely Brothers established rigid sanitation requirements and steadfastly adhere to them.

After each batch of vegetables and fruits is put through the Stokely "fresh-tasting" process, the machinery is bathed with live steam.

All of Stokely's Finest Foods bear this seal of approval

**Stokely's FINEST FOODS**

122 items including: vegetables • fruits • catsup • chili sauce • tomato juice • grapefruit juice

**Oregon's Own and Only Sugar Salutes LaGrande**

**Livestock and Scenic Center**

If you have ever been to LaGrande and the Grande Ronde Valley, no doubt you have been impressed with their rich pastures and the countless head of cattle grazing in them. Here, too, are endless acres of growing grain and hay and other field crops. In LaGrande itself, are new hotels, modern stores, a golf course, a beautiful park, a bathing resort and other attractions for the accommodation and pleasure of home folks or travelers. Here, too, is the Eastern Oregon College of Education, Oregon's only institution of higher learning east of the Cascades. Adjacent to LaGrande are Willows Lake, Mt. Emily, Hot Lake Sanatorium and more than a thousand miles of fishing streams. Hunting, also, is excellent. LaGrande and all eastern Oregon realize the importance of Oregon's new best sugar industry... so we count on you, LaGrande, as you can count on us to make the best sugar that money can buy.

**Guaranteed for Canning**

**FACTS ABOUT UNION COUNTY**  
Shares Anthony Lakes recreational area, also contains Mt. Emily State 20,400-acre game preserve. Main crops: grains, alfalfa, hay and clover. Noted for excellent cherries; also produces apples, peaches, apricots, prunes, potatoes, truck garden crops.

**WHITE SATIN SUGAR**
