HITLERITES ADVANCE AT HEAVY COST

Washington, D. C., June 6.—The stone that was rejected by the builder has become the keystone to the arch. To industry and the economic royalists President Roosevelt is now turning to effectuate his national defense program rather than to the group of young advisors who have done so much toward making life a burden to businessmen in the past seven years. Mr. Roosevelt, himself, is leading the country back to that pre-1929 era when industry supplied the payrolls of the nation instead of the federal treasury dishing out relief.

Every encouragement will be given to industry to "do its stuff". When he was assistant secretary of the navy under President Wilson in war days, Mr. Roosevelt learned the trick of cutting red tape and he will apply his knowledge whenever necessary to speed up production of defense material. For the time being there will be no further experiments of a social character and the administration will concern itself principally in assisting instead of hampering the pay-roll makers.

The new deal, as such, is headed back to the days of Herbert Hoover and Calvin Coolidge and active smokestacks and employment.

WHILE there are skirmishes behind the scenes among new dealers for control (there are bitter animosities in ranks of the 100 percent new dealers) the president in these days is consulting with big shots of steel, motors, transportation and not with members of the inner circle who had his ear when new deal legislation was in the making. Some of these inner circle advisors are altogether opposed to having the president place such responsibility with the industrialists, but this op-

SECT MEMBERS TO FACE TRIAL

Dallas, Texas, June 6.—(AP)—Eighty-nine members of a religious sect who have been charged with disturbing the peace in Waxahachie, Texas, have decided to face trial on those charges.

The group withdrew motions which had been filed in a federal court in Dallas to obtain their freedom.

The 89 were arrested Sunday while distributing literature and playing phonograph records. They spent two nights in jail before any charges were filed against them, and charged they were detained illegally.

Japanese Renew Chungking Blasts

Chungking, China, June 6.—(AP)—Large squadrons of Japanese planes bombed points near Chungking today. Fifty-four planes attacked the Chungking-Chengtu highway, 10 miles west of this provisional Chinese capital. Chungking itself had a three hour alarm.

FRENCH DESTROY MANY TANKS BY NEW TECHNIQUE

Six Mechanized Divisions in Abbeville Onslaught—Nazi Leaders Boastful

By the Associated Press
The Nazi offensive on the Somme front, aided by at least 2,000 tanks, accomplished a "slight advance" in the second day of furious fighting, a spokesman of the French war ministry said tonight.

German tanks, driving in blasting groups of 200 and 300 were said to have penetrated as much as seven and a half miles into the Weygand line, with French forces drawing back on both the east and west flanks of the front.

German gains were made at a huge cost, the spokesman said. Many tanks were destroyed in the French "quicksand" defense system designed to stop them.

Nazis Claim Gains
The German high command insisted its drive was gaining ground "everywhere" along the front.

In London, Alfred Duff Cooper, British minister of information, declared it would not be too late if America came to the aid of the Allies a year from now.

He predicted any German assaults on Britain would fail and declared at the moment the Allies need anti-tank guns, submarine guns and "planes and more planes."

The heaviest German attacks were reported striking out in the Abbeville region—presumably aimed at the capture of Le Harve, vital channel port linking France with England, in a wide-sweeping drive on Paris.

25 Lost in Group
Paris reported 25 Nazi tanks were destroyed in one spot, at Chaulmes, nine miles southwest of Peronne.

The Germans were hurling six mechanized divisions (normally 500 tanks in each division) into the onslaught at Abbeville.

The German high command's official communique, hours late today and flavored with generalities instead of the usual chronicle of specific successes, said of the great battle merely:

"Our troops have won ground everywhere toward the southwest."

It said that 143 enemy planes had been destroyed—19 by machinegun fire and others on the ground—and that the Nazi air force had bombed Cherbourg, port of call for trans-Atlantic liners in peace time.

Airdromes in central France and in England were also bombed, the communique asserted.

Hope for Victory
In Paris tonight, Premier Reynaud told his countrymen that "hundreds and hundreds" of enemy tanks had been destroyed since the Germans started their

Colony Leader Cannot Find Tract Given Club Near G. P.

Grants Pass, June 6.—(AP)—"We're leaving Long Beach, 600 strong, on the 20th of June. I'm trying now to find a place for us to assemble and make camp here on our arrival," said R. J. Wilson, organizer of the "Pioneer Club" of Long Beach, Cal., when he arrived here Wednesday.

A short broad man with a forceful voice, once a Portland deep-sea diver, he was in the county assessor's office searching for record of the location of 180 acres of land given the club "within three miles of Grants Pass."

But by this morning the property had not been located on the assessor's books.

Wilson added new touches to the original plans for the trek of 200 families here to log and build a modern community among the stumps.

He expects the club will eventually own 20,000 acres of land and that his followers will

DEWEY TOPS LIST OREGON WRITERS

Salem, June 6.—(AP)—Wendell Willkie, who is mentioned as a "strong darkhorse" candidate for the Republican presidential nomination, received only 20 write-in votes for vice-president in the Oregon primary.

Willkie ran at the tail-end of the nine write-in candidates. Dewey's 1,842 votes topped the list. He was followed by McNary, Sheridan Downey, Taft, Hoover, Vandenberg and LaFollette.

As a result, Oregon's 10-man delegation to the national convention is technically pledged to favor Dewey for vice-presidential nomination.

On the Democratic ticket, Senator Robert LaFollette was high, followed by Johnson, Garner, Farley, Hull, Downey, McNary and Wheeler.

WAR FEARS CUT CCC ENROLLMENT

Seattle, June 6.—(AP)—War jitters, civilian conservation corps officials said today, have caused a drop in enrollments for the tree trooping ranks.

Lieut. H. Hewitt, army reserve officer at North Bend said the drop in enlistments was attributed to mistaken fears that the CCC members might be transferred into the army in case of an emergency. Actually, he said, the CCC enrollees would be on no different basis than other youths in case of mobilization.

Citing a wide difference in physical requirements of CCC and army, he added, "I sent 25 boys to Fort Lewis who wanted to be soldiers, and only four of them passed the physical examination."

Colony Leader Cannot Find Tract Given Club Near G. P.

live on tracts scattered from Grants Pass to Port Orford. In addition to building theaters, a hospital, etc., the club "will provide employment for 3,000 or 4,000 people" and will have several manufacturing plants, make three kinds of medicine, and erect a smelter in order to produce reinforcing steel.

None of the club is with WPA. Wilson said, but he revealed the club intends to preserve its real-estate eligibility in California by hurrying right back if the project fails. He will save \$1,000 of the sum raised by \$25 assessment to each family to finance the trip back south if necessary.

The migrants will come in the face of almost unanimous skepticism and concern here.

Wilson said most of the club members are ex-Oregonians, homesick for this state. He put a few advertisements in Long Beach newspapers and they "came in swarms."

FASCISTS ORDERED TO DON UNIFORMS FOR MEETING CALL

Mussolini Expected to Make War Announcement With Few Minutes Notice

Rome, June 6.—(AP)—All branches of the Fascist party were quietly ordered tonight to be ready to don uniforms at any time for a Piazza Venezia mass meeting to hear Premier Mussolini announce that Italy was at war. They were told the meeting probably would be held on a few minutes' notice but no time was indicated.

The principal mass meeting will be held in Piazza Venezia but overflow meetings will be held on other piazzas throughout Rome and Italy.

Fascist leaders are standing at party headquarters from morning until night, ready to handle mass meetings whenever called.

Rome, June 6.—(AP)—Italian authorities are notifying the United States government that a 12-mile strip along the coast of Italy is being mined, an authoritative source reported today.

The informant said that the United States liner Washington would be safely conducted through the 12-mile danger belt into Naples where it is scheduled to dock June 10.

The bounding of the Italian coast and the coastline of parts of the empire with the danger zone was a new major development in Italy's broadening preparations for entry into the European war.

Meanwhile, from Virginia Gayda, editor of Il Giornale d'Italia, came a threat of eventual European intervention in American affairs if the United States went to the aid of beleaguered Britain and France.

The Gayda editorial was understood to reflect the view of the Italian government.

SNEAD BLISTERS TOURNEY COURSE

Canterbury Golf Club, Cleveland, June 6.—(AP)—Sam Snead blistered his golf course with a sub-par score of 67 today to take the leadership in the first round of the national open golf championship. Slammin' Sam looked a champion in every stroke as he went out over the sun-baked course in 33 and came back in 34 to slice five strokes off par.

Other scores included: Tommy Armour, Medinah, Ill., 37-36-73. Victor Ghezzi, Deal, N. J., 35-35-70. Ray Mangrum, Oakmont, Pa., 36-37-73. Andrew Gibson, Baltimore, Md., 36-35-71. Joe Turnesa, Rockville Center, N. Y., 38-39-77.

BRITAIN, RUMANIA SIGN TRADE PACT

London, June 6.—(AP)—The signature of a new British-Rumanian trade treaty was officially announced here tonight.

The foreign office said the discussions were concluded today and the agreement "satisfactorily covered all points."

The Rumanian delegation, which has been here for some weeks, will leave for home tomorrow, it was announced.

GOVERNORS FOR MOVE AGAINST DICTATORSHIP

Duluth, June 5.—(AP)—The National Governor's conference went into its final sessions today with speakers expressing virtually identical conclusions—that a "dictatorship" in one form or another, is a real possibility in the United States, and that something should be done to block it.

CONGRESS SENDS NAVY FUND BILL TO WHITE HOUSE

\$1,492,542,750 for Emergency Waits Signing—Allies in Plea for Guns

Washington, June 6.—(AP)—Senate and house conferees agreed today to retain an appropriation of \$12,000,000 for an army air base at Anchorage, Alaska.

Washington, June 6.—(AP)—The senate sent to the White House today a \$1,492,542,750 naval appropriations bill making emergency funds available immediately to speed up the production of ships, aircraft, munitions and armament and the construction of new air bases.

The chamber completed congressional action on the measure, carrying \$1,308,171,138 in direct appropriations and \$184,371,612 in contract authority, by accepting a conference report previously approved by the house.

Allies Ask Arms
This important phase of the intensification of national defense efforts came at a time when the administration was considering also urgent allied requests for arms—even weapons left over from the world war.

Emergency funds included in the naval appropriation bill at the request of Mr. Roosevelt would make possible the expansion of the navy's enlisted personnel from 145,000 to 170,000 men and the marine corps personnel from 25,000 to 34,000.

Aviation expenditures of approximately \$326,000,000 contemplated by terms of the bill would provide the navy with 2,970 new airplanes, of which 2,500 would be training ships. Also provided is \$45,000,000 for development of airplane shore facilities.

The senate rejected, 46 to 31, a proposal by Senator Austin (R., Va.) to create a five-man, non-partisan authority to assist the president in industrial mobilization on the defense program.

Pepper For Plane Sale
Senator Pepper (D., Fla.) proposed legislation suggesting that the president use all existing authority to sell planes and other war material to foreign countries.

Pepper, after a visit to the war department, told reporters that this country "has a great deal of equipment, including 500 first line planes, which could be sold without injury to the national defense."

While congress was being asked to authorize 400,000 regular troops—almost double the standing army's present strength—President Roosevelt requested \$6,558,800 to reinforce the federal bureau of investigation and other justice department units responsible for dealing with subversive activities.

The entry and travel of aliens were placed under drastic restrictions by state department order, which barred admission to the United States to all foreigners unable to prove a "legitimate purpose or reasonable need."

Klamath Youngster Drowns, Lost River

Klamath Falls, June 6.—(AP)—Billy Eiting, 6, was drowned in Lost River last night when he fell from a makeshift catwalk under a bridge eight miles from here while trying to capture a snake.

The boy's father, George Eiting, recovered the body with a pole after diving futilely for 10 minutes. Resuscitation attempts by the Klamath Falls fire department failed.

VOTE ON BRIDGES DUE IN HOUSE IN TEN DAYS

Washington, June 6.—(AP)—The house rules committee placed on the calendar today a resolution to permit a vote in about 10 days on a bill by Rep. Allen (D., La.) to deport Harry Bridges, CIO west coast maritime leader.

Although the committee approved the move last week, it was withheld and Rep. Fish (R., N.Y.) set machinery in motion yesterday to force the committee's hand.

Los Angeles, June 6.—(AP)—The Metropolitan opera star—Tito Schipa—filled suit for divorce today in Los Angeles against the couple married 19 years ago just after Schipa made her American debut.

Parisians Eye Damage

This picture, radioed from Paris to New York, shows Parisians looking at an automobile wrecked during the bombing of the French capital by Nazi warplanes. In the right background is a partly destroyed building. The French announced there were 808 victims of the raid—including 254 dead and 632 wounded.

Jackson Denies Plan for Drive Against Fifth Column Element

Washington, June 6.—(AP)—The state department, endeavoring to erect a barrier against possible inflow of "fifth column" aliens, issued today stringent regulations requiring passports from any new classes of foreigners, including Canadians.

Previously Canadians and persons of various other nationalities were exempted from passport and visa requirements when they entered the country temporarily.

Washington, June 6.—(AP)—Attorney General Robert H. Jackson declared today that any inference that the justice department contemplated "a mass drive or wholesale arrests" in connection with the defense program was "wholly unwarranted."

Jackson made that assertion in reference to statements in the budget bureau's letter dealing with a request for \$3,358,800 for the federal bureau of investigation, chiefly to add 500 agents to the force now engaged in national defense work.

Royal Families Scattered by Fall of Five European Capitals

By the Associated Press
Adolf Hitler's administrators sit today in the halls of government of five European capitals engulfed by the spread of war.

Two kings—one who fought, one who did not—are virtual prisoners in their own countries. Another still leads his armies in the mountain fastnesses of his homeland. Two other royal families sought safety in flight.

"Somewhere in Belgium," King Leopold III is living in a castle assigned him by the German high command after his unconditional surrender May 28th.

His mother, Queen Elizabeth, is reported to be with him. His three children were taken to Paris, then into hiding. At Copenhagen, 69-year-old King Christian X of Denmark is allowed somewhat greater freedom. He appears in public and takes daily horseback rides.

Weakened in health but proudly defiant, King Haakon VII still heads his government in Norway. Driven from Oslo in the opening hours of German invasion, he moved to the north. His whereabouts is guarded painstakingly by his government.

Wilhelmina, queen of The Netherlands, is in England where she and her family, including Crown Princess Juliana and her two daughters, sought early refuge.

Grand Duchess Charlotte and her family fled from undefended Luxembourg to Paris May 10. Her present whereabouts in France has not been disclosed.

DEAD MAN FOUND IN AUTO NEAR HIGHWAY

Tulsa, Okla., June 6.—(AP)—The body of a man, apparently dead since Sunday night, was found in a car parked 25 feet off a highway, 12 miles east of here today.

Police Chief Ralph Colvin said cards in the man's pocket bore the name of Kenneth Yoe-man, Eugene, Ore.

The car windows were closed, the doors locked and the ignition turned on, Colvin said.

Tacoma, June 6.—(AP)—Doris Little, 18-year-old Tacoma girl who has been under treatment in an "iron lung" since being taken to Pierce county hospital during the height of Tacoma's infantile polio epidemic last week, died today.

'AG' OFFICIALS OF FOUR STATES WILL MEET HERE

Fruit and Vegetable Grades, Standards to Be Talked in Friday Conference

A four-state conference on fruit and vegetable grader, standards and uniformity will be held in the Hotel Medford at 9 a. m. tomorrow. Agriculture department officials of Oregon, Washington, California and Idaho will attend. The conference will also consider containers for fruits and vegetables.

The session, slated for Medford because of this city's central location, was suggested by J. D. Mickle, director of the Oregon state department of agriculture.

Those expected to attend include Mr. Mickle and Frank McKennon, plant division chief, and W. E. Uphaw of the Oregon department, J. I. Griner, supervisor of horticulture, Washington agriculture department, Paul Rowell, director of the bureau of plant industry, Idaho department, and S. S. Rogers, chief of the bureau of fruit and vegetable standardization, California department.

ANTI-3RD TERM MOVE WITHIN DEMO PARTY APPEARS WASHED UP

Washington, June 6.—(AP)—The anti-third term movement in the Democratic party ranks appears today to have collapsed.

Selection of a Democratic national convention arrangements committee is scheduled for this week. This might have been the occasion for a formidable show of anti-Roosevelt strength—but there is no sign of such a development now. The anti-third term forces are too weak to demand substantial representation on the arrangements committee.

Democratic National Committee Chairman James A. Farley will select the committee. That group will choose a permanent convention chairman and a keynote speaker. Senate Majority Leader Alben W. Barkley is most discussed for the permanent chairmanship. Whoever the keynoter may be, his job will be to make a thumping pro-Roosevelt, new deal speech.

BRITISH AND NAZIS SWAP AIR BOMBS

London, June 6.—(AP)—Oil refineries and marshaling yards in the industrial Ruhr district were bombed by the British for the fifth night in succession, the air ministry announced tonight.

Attacks were made yesterday and last night on two convoys. A military train was reported derailed and roads and railways rendered temporarily unusable at various strategic points.

Berlin, June 6.—(AP)—Authoritative quarters in Berlin tonight declared "numerous sheds and other establishments were set on fire" by German raids on British airdromes last night and tonight.

Bad Teeth Census Dentists Plan As Defense Measure

Chicago, June 6.—(AP)—A census of the bad teeth in the United States has begun as a national defense measure.

The American Dental association is distributing 55,000 questionnaires to 11,000 dentists in 33 states in an effort to round up a cross-section of the nation's dental deficiencies. Bad teeth were the second highest cause of military rejections at the time of the World war.
