

SEE THE M. E. DINIHANIAN COLLECTION OF ORIENTAL RUGS ON DISPLAY AND SALE ON THE SECOND FLOOR

FOREST REGIONS NOW ATTRACTIVE FOR RECREATION

More Facilities Become Available as Warm, Fair Weather Helps Outings

"Attractive conditions prevail for recreational use throughout the Rogue River national forest for the week-end.

"At Fish lake limit catches of eastern brook are being taken by both still fishing with worms and trolling with bright flashers. There will be boats available at Fourmile lake this week-end. Good catches of silversides have been made there by bait fishing from the shore.

Hyatt reservoir has not been up to par, probably because of cold weather. Boats and lunches are available there. Fair catches are being made with grasshoppers in the south fork of Little Butte, principally upstream from the Dead Indian Soda Springs.

"In the Union Creek district cold weather has been detrimental to fishing in the small streams but good catches are being made with flies in upper Rogue river. All streams in the Applegate district continue to be poor.

River Fishing Good
"In the Rogue river outside the national forest, fishing has been good all the way from Rogue Elk to Grants Pass, especially in the vicinity of Edgewood park and Gold Ray dam. Limit catches of trout are easily taken with grizzly king, gray-gnat and professor flies. Many huckles with peacock body, black steelhead are being caught with small spinners, a few with flies, preferably grey palmer. Many salmon are coming up the river and are being taken with large spoons.

"A trail maintenance crew worked in the vicinity of Seven Lakes during the past week. The workers found snowdrifts of seven to eight feet on the summit and, since this snow is now becoming soft, the trip should not be undertaken at this time. They reported excellent fishing in the lakes and pleasant camping conditions there.

"A day or two of warm weather will enable swimmers to enjoy the water at McKee Bridge, Little Applegate and Beaver Sulphur forest camps.

"The road from the Diamond Lake highway past Rabbit Ears to Hershberger mountain lookout is now open and, although it has not been graded, is in fair condition. The road to Abbott butte via Woodruff meadows is good, as is also the one up Elk creek and to Huckleberry lake on the Umpqua divide. The loop road from Union creek to Huckleberry mountain and back to the Crater Lake highway may also be traveled. This upper country is beautiful now, with extensive areas of wild flowers in bloom."

W. P. A. OUTHOUSES AGAIN AVAILABLE

W.P.A. funds have been appropriated for the project of installing new type, sanitary privies and all persons desiring to obtain one are requested to get in touch with J. M. Sleighter, project supervisor in Jackson and Josephine counties; the Bruce Bauer or the Copeland lumber companies.

The project is sponsored by the state board of health and the privies are constructed by WPA labor at no cost to the owner, other than payment for material. The board of health will also sponsor septic tank installation for publicly owned places only. Mr. Sleighter may be reached at 317 East Jackson boulevard.

Three in One
Beaver, Ore., June 7.—(P)—Here are several fish stories rolled into one:

Earl Benfield said the 13-inch trout he took from the Big Nestucca river had swallowed a 3-inch fish. The 5-inch trout had a 3-inch trout in its throat.

Kill Devil hill, the North Carolina dune on which the Wright brothers made the first plane flight, has moved 50 yards since the event, but is now "anchored" by vegetation.

Men Admire Women With Shapely Figure

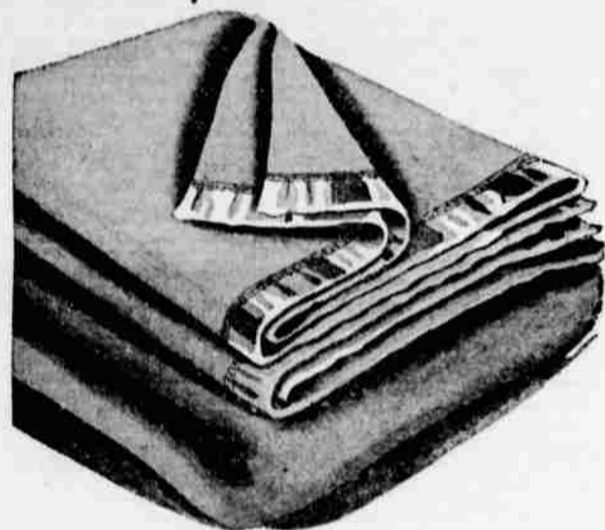

Thousands of women keep their figure slender and shapely SAFELY—without starving or exercising—with LAXRID and sensible menus.
