Excepting Hermits

HERMITS are people who think two's a crowd. They live in caves or huts, wear long gray beards and eat everything from berries to nuts. They don't, as a rule, buy anything. Self-respecting hermits spend most of their time meditating, contemplating and talking to themselves. Their minds are hermit-ically sealed to anything going on in the world. In fact, what really puts hermits in a class by themselves is that they don't care a hang about the news. But for everyone excepting hermits, news is a vital necessity of everyday life. Since the day Eve told Adam about the apple, news has been the leading topic of conversation all day long.
