Thirty-fifth Year No. 70.

# NAZIS CROSS MARNE IN PARIS DRIVE

Washington, D. C., June 12.—So swiftly is the American scene changing through acts of congress, presidential executive orders and the resurrection of powers delegated to the president back in 1916-17, that the average citizen has not yet realized that the old order changed and things which he regarded as "a right" are being taken away from him. The United States is not in war, yet, but many warlike precautions are taken by the federal government.

Among other items affecting old customs is that Uncle Sam is separating the sheep from the goats; the American citizens from the aliens and both are being deprived of "privileges." A few corners are being torn off the bill-of-rights.

Within the past four weeks, in rapid succession, foundation has been laid by congress and the president for a different kind of American life; much of which will be permanent. Taxes alone will make everyone realize he or she is a part of the government.

**BEGINNING** July 1, our neighbors in British Columbia cannot visit from Victoria or Vancouver, and cross the line at Blaine or take the boat to Puget Sound unless they have a passport, issued by an American consul. These next door neighbors are in the same class as tourists from Russia or Europe. And along the international boundary there will be a patrol to see that no alien is smuggled into the United States. This precaution applies also along the Mexican border and in Florida, where aliens have sneaked in.

It might be considered violation of free speech, but FCC has outlawed portable radio stations (police scout cars excepted), and no radio amateur (a number licensed in Oregon and Washington), is permitted to communicate with foreign countries. Nor can radio operators on American vessels send unidentified communications, nor "talk" to operators from captain to cook (and the

## SHORT CHANGERS SLICKER SHIRLEY

Two men walked into Shirley Bros. confectionery store, 307 East Main street, last night and ordered soft drinks. While one of the men paid for the beverages with a \$20 bill, the other purchased a box of penny matches with a \$10 bank note.

A. B. Shirley, proprietor, told city police that when he got through making change, and after the men left, he was \$10 short. He furnished police with a description of the men and they are being sought.

## CONFLICT RAGES WITHIN 13 MILES OF CITY'S GATES

**Germans Claim Surrender of 20,000 Poilus Isolated at St. Valery, On Channel**

Paris, June 12.—(AP)—The gardens of United States Ambassador William C. Bullitt's chateau at Chantilly became a battleground today as fighting in the Senlis region enveloped the grounds.

By the Associated Press.  
 German armies storming toward Paris today crossed the Marne river and fought French Poilus 12½ miles from the French capital, Berlin reported, while other Nazi columns forced the surrender of more than 20,000 French troops isolated at St. Valery on the English channel.

Attacking from the northwest, German mechanized columns drove another rapier thrust six miles past Senlis, 26 miles from Paris.

Elements of more than 100 German divisions—about 1,800,000 men—were reported attacking on a broad front from the lower (west) Seine to the Argonne forest.

**Generals Taken.**  
 The German high command said the French capitulation at St. Valery had yielded one British and five French generals and "incalculable" booty.

In the onslaught to Paris, Hitler's armies rode over bitterly-contested World War battlefields and reached the closest point to the French capital since Bismarck's German armies marched into Paris in 1870.

It outdistanced by 15 miles the threat against Paris posed by Von Kluck's German "Death's Head" Uhlans in 1914.

While Allied bombers carried the war into Italy, attacking the great industrial centers in the north, the fast-spreading conflict apparently neared a new theater of operations—in Egypt.

The Egyptian chamber of deputies, it was reported, approved a declaration severing diplomatic relations with Italy.

**Desperate Defense.**  
 Battle-stained French Poilus fought desperately in a "last ditch" defense of their beloved capital, the once gay city now half deserted. They were reported holding fast on the old World War battlefields of Chateau Thierry and Meaux along the Marne.

"Nowhere have the French defenses been pierced," said a

"I don't want to have to break with the administration," Wheeler told his colleagues. "I don't want to have to break with the Democratic party, but if it becomes necessary to break with the Democratic party, I shall break with it, if it becomes a war party."

"I'm not going to support any candidate for president who's going to try to get us into this war."

Wheeler made his assertion today after Senator Holt (D-W

## LIFE MAGAZINE SUED FOR 'BOOTLEG' PHOTO OF CHARLIE CHAPLIN

Hollywood, June 12.—(AP)—A spokesman for Charlie Chaplin said today the action against Life magazine was brought because it allegedly published a "bootlegged" picture. No still photographs from Chaplin's forthcoming "production No. 6" have been released, the studio said, and any pictures appearing now are "very likely 'blow-ups' from stolen film." Blow-ups are enlargements.

New York, June 12.—(AP)—Life magazine was temporarily restrained in federal court today from publication of its next issue because of the alleged unauthorized use of a full-page picture of Charlie Chaplin as "the dictator."

The issue, dated June 17, normally would come out tomorrow.

The action was brought by Chaplin and the Charles Chaplin Film corporation, who also filed suit for \$1,000,000 in damages and asked for a permanent injunction against Time, Inc., and four officers of the Time and Life group.

In his complaint, Chaplin asserted that he had spent \$1,000,000 on the film, "The Dictator," and that it was not yet completed, released or ready for advertising or publicity. It was essential, the complaint added, that no part of the film be exhibited to the public prior to exploitation by the plaintiffs.

Chaplin charged that the picture magazine obtained negatives without permission for use in its already prepared June 17 issue.

Preparedness Advocated in Telegram to Oregon Convention; Unity Need Told

Salem, Ore., June 12.—(AP)—Lewis J. Taber of Columbia, Ohio, national master of the Grange, today urged the state convention of the Oregon Grange to support the national defense program. Taber made his appeal in a telegram to the State Grange, meeting here.

He said:  
 "In this hour of world tragedy the Grange faces its greatest opportunity for constructive service. We must support adequate national defense and complete preparedness. The Grange should proclaim its faith in democracy and the American way of life and keep away from the battlefields of Europe."

**Unity Needed**  
 "The national welfare depends on national unity," he continued. "As master of the National Grange I challenge the Granges of the great northwest to set an example to the nation in fighting for our program in patriotism and progress."

The elections committee announced the re-election of Glenn L. Adams of Polk county as state treasurer, and the election of Max Kleigle of Multnomah county as gate-keeper.

The convention will meet next year at Newport.

## TURKEY SUMMONS MORE TO COLORS

Budapest, June 12.—(AP)—Turkey's call of 200,000 additional reserves to the colors was interpreted in Balkan capitals today as indicating that she is preparing to fulfill her pledges to the allies and enter the European war—provided Soviet Russia stays out.

Informed sources estimated that Turkey now has approximately 600,000 men under arms, and the small nations of South-eastern Europe looked anxiously to their own defenses as the war clouds grew blacker.

## START IS ORDERED ON 22 WAR CRAFT AS BILL IS SIGNED

Two 45,000-Ton Battleships On List—Swift Action in \$327,000,000 Order

Washington, June 12.—(AP)—A \$1,708,033,908 defense appropriation bill designed to provide new planes, tanks and warships for the army and navy won house passage today after less than five hours of debate.

The measure, which would boost the total provided for army and navy expenditure in the year starting July 1 to \$5,021,619,822, now goes to the senate.

It went through the house without a single amendment.

Washington, June 12.—(AP)—The navy announced today that work was ordered started on two new 45,000-ton battleships and 20 other warships and auxiliaries last night, within an hour after President Roosevelt signed the navy's \$1,400,000,000 appropriation act.

The two battleships were assigned to the New York and Philadelphia navy yards, respectively, and the other vessels were divided between government and commercial yards.

**Swift Action**  
 Officials said the navy acted with swiftness unmatched even in the world war. The contracts for 9 warships assigned to commercial shipbuilding plants had been negotiated while final action on the appropriation was awaited.

The ships will cost more than \$327,000,000 to complete, it was estimated.

The speed with which the navy acted found its army counterpart in measures which were said to be designed both to strengthen defenses and furnish substantial assistance to the British and French allies.

A group of 93 airplanes and millions of dollars worth of munitions were being made available to the allies by the army under the government's "trade-in" plan of aid.

**Concentrate in Maine**  
 The 93 war planes, Northrop attack ships, were being concentrated at Houlton, Me., on the Canadian border. The Douglas Aircraft corporation of Burbank, Calif., successor to the Northrup company, was reported to have agreed to accept them in payment of new planes to be delivered later to the army.

The concentration at Houlton was said to have been decided upon as the most direct way of getting the ships, which are 6 or 7 years old, to the allies.

## Germans Worried About Paris Fate

## HEAT RETREATS IN OREGON SECTOR

Medford's fever broke today and the temperature eased down ward several degrees after reaching a new 1940 high at an even 100 yesterday.

Prospects for a further drop seemed good as the official forecast was for partly cloudy weather, probably with showers or thunderstorms, tonight and tomorrow.

At 2:30 this afternoon the weather bureau's thermometer stood at 91 degrees as compared with 98 at the same time yesterday.

After setting the pace for Oregon for two days, Medford yesterday had to be content with a second-place tie with Grants Pass where a maximum temperature of 100 degrees also was registered. Roseburg led with 102. At 98, Salem yesterday had its hottest June day in 14 years.

"In the northwest provinces of Gojam and Harar, four garrison towns are surrounded by Ethiopians, and the Italians dare not venture out," the Herald said.
