

# PARIS OCCUPIED BY HITLERITES; LINE THREATENED

(Continued from page One.)

ish troops rushing to support their beleaguered French allies. Madrid announced that Spanish troops have occupied the international zone of Tangier in the name of the Sultan of Morocco "to safeguard the independence and neutrality of the city" which lies opposite the British stronghold of Gibraltar, guardian rock of the Mediterranean.

### Action Not Clear

It was not immediately apparent whether this action heralded

the entrance of Spain into the fast-widening European conflict Hitler's legions began marching into Paris yesterday afternoon.

It was the first time since Bismarck's troops took Paris in 1871 that Germany's goose-stepping warriors have marched into the beautiful old French capital.

In France's blackest hour, Britain rushed new reinforcements of British Tommies behind Paris to bolster the morale and fighting strength of the desperately driven French.

Weakening French resistance was indicated in a heavily-censored dispatch from Tours stating that a new French defense line would be taken up anew on the Loire river, 65 miles south of Paris, "if the fight goes on."

### Censor Busy

Dozens of lines in the dispatch were censored, but it was evident from the number of important German gains which the

consor permitted to go through—including a major new threat to the Maginot line itself—that the Associated Press correspondent was trying to tell of even greater events.

The Nazi high command said Montmedy, vital northern anchor on the Maginot line, has been captured and declared there has been "complete collapse" of the French all along the 200-mile western front.

France's high command, however, insisted the French retreat was being carried out "in the greatest order."

Adolf Hitler ordered all Germany beflagged for three days and all church bells throughout the reich to ring for 15 minutes today in celebration of the victory.

### Drive Deep Wedge

The German high command reported "complete collapse" of the Weingard line all along the 200-mile western front from the English Channel to Montmedy,

at the northwest end of the Maginot line.

Two deep German wedges behind the Maginot line—constituting a grave threat to 1,000,000 men stationed in the great French fortifications on the Rhine—were driven overnight to Romilly, 65 miles southeast of Paris, and to Saint Dizier, 125 miles southeast of the French capital.

Italy, meanwhile, reported its first land action, a successful defense against a French attack on Galisia hill, 36 miles northwest of Turin on the Alpine frontier.

The fascist high command also claimed the capture of a number of English officers in repulsing an attack in Italian North Africa; defeat of a tank-supported allied attack on the Egyptian-Libyan frontier, and successful aerial operations over southeastern France, Tunisia and on the Red sea.

# UNITED AIR LINES REPLACING RADIO EQUIPMENT HERE

A completely new set of radio equipment is being installed by company engineers in the United Air Lines control room at Medford municipal airport.

The installation will give the airline's station here the most modern equipment used in ground-to-plane radio communication and control, said Max C. Henne, Medford manager.

The work is being done by two of the company's radio engineers, William M. McKay and Cyrus T. Lingo. The two men are assembling the equipment at the company's store-room in the hangar. They travel about

the country by truck and trailer, the trailer carrying a complete portable workshop which they set up at each United station where radio replacements are being made.

It will take about two weeks to complete the installation. When the ticket office and control room have been modernized, the company will place additional furniture in the reception room to make it more comfortable and attractive, Mr. Henne related.

# OREGON PIONEERS ELECT OFFICERS

Portland, June 14.—(AP)—Oregon's diminishing pioneers, men and women who toiled across the mountains or saw life in the cabins of rude northwest settlements, chose Judge George C.

Blakely of The Dalles as their new president last night.

Only 50 members, the oldest being 16 less than a year ago, Residence in Oregon in 1859, the year of statehood, is a membership requisite, making it impossible for the youngest Pioneer to be less than 81 years old.

Blakely succeeded George J. Curren but all other officers

were re-elected. J. O. Stearns continued as vice president; Walter L. Hembree, secretary; John M. Lewis, treasurer.

Clementina Martin of Gladstone, a small, erect figure born in Marion county in 1854, was crowned queen mother by Amande J. Hart, past president of the Sons and Daughters of Oregon Pioneers.
