County Watermaster Clinton Smith reported today, that irrigation water conditions in this section were good, and that due to the season being two weeks early, and normal, all crops would get through with little if any damage. In the Applegate, where 8,000 acres are under irrigation, Watermaster Smith, said conditions are ideal.

Range conditions in the Dead Indian, which are usually short, are the best in 20 years, the watermaster was informed on a visit there last week. Smith said he measured wild hay that stood three feet high, and some of it

ROUTINE ONLY ON COURT CALENDAR

The brief calendar of the circuit court has been cleared, with only routine matters now claiming attention of Circuit Judge H. D. Norton.

The brief of the Oregon Unemployment Compensation commission was scheduled to be filed today in the suit of the Pinnacle Packing company, and ten other Rogue River valley and Hood River district fruit packing concerns, seeking exemption from payment of "contributions". Ten days have been granted the packers to file an answering brief. Following this procedure the court will take the matter under advisement.

The lull will also give the court an opportunity to write decisions in other cases pending before him.

Two criminal cases were disposed of last week, when defendants entered pleas of guilty and were given state prison terms.

EXPANSION OF ARMY PROVIDES WORK FOR INCREASING NUMBER

Washington, June 24.—(AP)—War department officials reported today that civilians were being put to work with wartime swiftness on new constructions for the expanding army.

Five hundred workers were rounded up in two weeks for the new \$12,000,000 Anchorage, Alaska, air base.

Civilian workers similarly were put quickly to work on construction jobs at Camp Ripley, Minn., and Fort Benning, Ga.

A list of clerks and stenographers ready to go on duty at once was turned over to officials at a middle western post the same day on which orders arrived to employ 200.

The war department, which already has some 120,000 civilian employees, is using a short-cut hiring procedure perfected after the European conflict started. Jobs are in prospect for some 20,000 in the next few months.

To meet the demand for skilled workers in the defense industries, meantime, the national defense commission has proposed a system of training men already working in the factories.
