## NOISY CRACKERS TOUGH ON DOGS

Owners of dogs were advised by the Southern Oregon Humane society today to keep their animals at home and under careful watch for the next week or ten days when the pets are liable to be frightened by firecrackers.

Already many dogs have been frightened into running away and have been picked up and turned over to the humane society as strays, the society stated. It was pointed out that most dogs are instinctively afraid of firecrackers, even hunting dogs being deathly afraid of firecrackers though they don't mind the crackle of gun or rifle.

This is also the time of year when the feet and ears of pets should be watched carefully for foxtails and bronzo grass, the society said. Serious trouble might result if these are not taken care of promptly, it was emphasized.

Young MacCurtain eventually replaced his father as I.R.A. commandant in Cork and was frequently arrested by Detective Roche. He shot Roche when the detective sought to question him on a downtown street.
